

23 July 2020

Final Terms for Constant Leverage Certificates (BULL MAIS X8 V)

based on the

8X Long Index linked to Corn Future

ISIN DE000VS0R9W8

(the "Securities")

Issuer:	Vontobel Financial Products GmbH , Frankfurt am Main, Germany
Guarantor:	Vontobel Holding AG , Zurich, Switzerland
Offeror:	Bank Vontobel Europe AG , Munich, Germany
Securities identification numbers:	ISIN: DE000VS0R9W8 / WKN: VS0R9W / Valor: 40479295 / NGM Symbol: BULL MAIS X8 V
Total offer volume:	2,249,999 Securities which shall be consolidated with and form a single issue with the same Securities issued on 5 March 2018. The new Total Offer Volume shall be 2,499,999 Securities.

I. INTRODUCTION

These final terms (the "Final Terms") have been prepared for the purposes of Article 8 paragraph 4 of Regulation (EU) 2017/1129 (the "Prospectus Regulation"). To obtain all relevant information, the Final Terms should be read together with the base prospectus dated 10 June 2020 (the "Base Prospectus") and any supplements thereto in accordance with Article 23 of the Prospectus Regulation (the "Supplements").

The Base Prospectus and any supplements thereto will be published in electronic form on the web-site <http://prospectus.vontobel.com> in accordance with Article 21 of the Prospectus Regulation by entering the relevant ISIN.

An issue specific summary is annexed to the Final Terms.

Continuation of the Public Offer

The Base Prospectus (including any Supplements thereto) (the "Initial Base Prospectus") is valid until 10 June 2021 in accordance with Article 12 of the Prospectus Regulation. Following this date, the public offer will be continued until the Date of the End of the Public Offer (as defined in section IV.2 of the Final Terms) on the basis of one or more succeeding base prospectuses (each a "Succeeding Base Prospectus") in accordance with Article 8 paragraph 11 of the Prospectus Regulation, to the extent the Succeeding Base Prospectus envisages a continuation of the public offer of the Securities. In this context, these Final Terms are, in each case, to be read in conjunction with the most recent Succeeding Base Prospectus. The respective Succeeding Base Prospectus will be approved and published prior to the expiry of the validity of the respective preceding base prospectus. The respective Succeeding Base Prospectus will be published in electronic form on the website <http://prospectus.vontobel.com>.

I. TERMS AND CONDITIONS

The Securities are subject to the **Terms and Conditions in the Base Prospectus dated 6 September 2017**.

The following specifications complete the applicable Terms and Conditions as per the particular features of the Securities offered under these Final Terms:

Section 2 Definitions

Cash Amount	The Cash Amount shall correspond to the Reference Price of the Underlying on the Valuation Date multiplied by the Ratio.	
Cash Amount Rounding	The figures resulting from the calculation of the Cash Amount shall be commercially rounded to two (2) decimal places.	
Currency Conversion	<p>If the Settlement Currency is different from the Currency of the Underlying, all payable amounts under the Securities shall be converted into the Settlement Currency at the Conversion Rate.</p> <p>"Conversion Rate" shall mean the relevant conversion rate as determined by Bloomberg Index Services Limited for the Valuation Date and as published on the website http://www.bloomberg.com/markets/currencies/fx-fixings around 2:00 pm (local time Frankfurt am Main) (BFIX).</p> <p>If such a Conversion Rate is not determined or published or if the method of calculating the Conversion Rate changes materially or the time of the regular publication is changed by more than 30 minutes, the Calculation Agent shall specify the Conversion Rate applicable at the time of determination of the Reference Price on the Valuation Date in its reasonable discretion.</p>	
Exercise Agent	shall mean	<p>Bank Vontobel AG for the attention of Corporate Actions Gotthardstrasse 43 8002 Zurich Switzerland</p> <p>Telephone: +41 (0)58 283 74 90 Fax: +41 (0)58 283 51 60</p>
Exercise Cut-Off Date	shall mean each tenth (10th) Business Day before an Exercise Date.	
Exercise Dates	shall mean the last Business Day in each calendar month, commencing as of 30 March 2018.	
Exercise Time	is 11:00 am (local time Helsinki)	
Governing Law	The Securities shall be governed by German Law.	
Issue Date	shall be 24 July 2020.	
Issue Size (up to)	2,249,999 Securities which shall be consolidated and form a single issue pursuant to § 13 of the General Conditions with the Securities issued on 5 March 2018 (ISIN DE000VS0R9W8 / WKN VS0R9W / Valor 40479295). The new Total Issue Size shall amount to 2,499,999 Securities.	
Maturity Date	shall be the third (3th) Business Day following the Valuation Date.	
Minimum Exercise Number	1 Security	
Ratio	The Ratio shall be expressed as a number and shall amount to 1.00.	
Reference Price	The Reference Price shall be the relevant price of the Underlying for the purpose of determining and calculating the Cash Amount and shall correspond to the index closing value determined and published by the Index Calculation Agent on the Valuation Date.	
Registry Type	Finnish Registered Securities	
Settlement Currency	of the Securities shall mean EUR.	
Termination Cut-Off Date	shall be ten (10) Business Days prior to the relevant Termination Date.	
Termination Date	shall mean the last Business Day in each calendar month, commencing as of 30 March 2018.	
Underlying	<p><u>8X Long Index linked to Corn Future</u></p> <p>ISIN Underlying: CH0304172957</p> <p>Currency of the Underlying: USD</p>	

Valuation Date:

shall mean

- (a) in case of valid exercise by the Security Holder pursuant to section 4 of the Terms and Conditions the relevant Exercise Date;
- (b) in case of Ordinary Termination by the Issuer pursuant to section 5 of the Terms and Conditions the Ordinary Termination Date.

If the Valuation Date is not an Index Day, the Valuation Date shall be postponed to the next following Index Day.

III. INDEX DESCRIPTION

The Underlyings for the Securities are Factor Indices. The Factor Indices are not recognised financial indices, but indices designed and calculated by Bank Vontobel AG as the index calculation agent, the sole function of which is to serve as the Underlying for this type of securities (Constant Leverage Certificates).

A detailed description of the Factor Index can be found in section IV. "Index Description" of these Final Terms.

Information in connection with the Benchmark Regulation

The amount of the claim under the Securities will be calculated under consideration of 8X Long Index linked to Corn Future (for the purpose of these Final Terms the "**Benchmark**"). The Benchmark is provided by Bank Vontobel AG (the "**Administrator**"). As at the date of these Final Terms, the Administrator is not included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Regulation (EU) 2016/1011 (the "**Benchmark Regulation**").

IV. FURTHER INFORMATION ON THE OFFER OF THE SECURITIES

1. Stock exchange listing and trading arrangements

Exchange listing

Application will be made for the Securities to be admitted to and/or included in trading on the following multilateral trading facilities (MTF): Nordic Growth Market (Nordic MTF Finland).

First trading date

Trading of the Securities is expected to commence from 5 March 2018.

Pricing

Prices are quoted as per-unit pricing.

Market Maker

Bank Vontobel Europe AG, Alter Hof 5, 80331 Munich, Germany

Minimum trading lot

1 Security

2. Information on the terms of the offer

The Issue Price and Value Date of the Securities and the start of the Public Offer are specified below.

Issue Price

EUR 0.014

Value Date

24 July 2020

Start of the Public Offer

The Public Offer of the Securities shall start on 23 July 2020 in Finland.

End of the Public Offer

The Public Offer of the Securities will end with the term of the Securities or – in case that a base prospectus which follows the Base Prospectus has not been published on the website prospectus.vontobel.com under the respective heading until the last date of the validity of the Base Prospectus – with expiration of the validity of the Base Prospectus pursuant to Article 12 of the Prospectus Regulation.

3. Costs and charges

The Issue Price and the bid and ask prices provided by the Market Maker during the term of the Securities are based on internal pricing models. Among other things, the prices include a margin which the Market Maker determines at his own discretion and which, in addition to profit, also covers the costs of structuring of the Security and, if any, possible costs for distribution.

No additional costs will be incurred by the issuer on the (initial) Issue Price charged to the investor. Investors will receive further information on any remuneration, commissions, fees and costs charged to investors, for example by their bank, advisor or financial services provider (distribution partner), from these parties upon request.

In addition, profits from Securities may be subject to profit taxation, the assets from the Securities may be subject to wealth taxation, or other tax regulations may be applicable.

4. Publication of information after completion of the issue

With the exception of the notices specified in the Terms and Conditions, the Issuer does not intend to publish any information once the issue has been completed.

V. INDEX GUIDELINES

The following pages contain the version of the index guide as of the date of these Final Terms which . contains a description of the Underlying. This and future versions of the index guide, if any, are available on the website indices.vontobel.com by entering the ISIN of the Underlying CH0304172957.

1/5

Index Guide for 8X Long Index linked to Corn Future

ISIN CH0304172957

This Index Guide describes the composition and calculation of the *Factor Index* specified below. The *Index Calculation Agent* makes the *Index Guide* available on the *Information Page*. The *Index Guide* constitutes the basis for calculating and publishing the *Factor Index*.

Index Name:	8X Long Index linked to Corn Future (the " Factor Index ")
Reference Instrument	Corn Future
Index Calculation Agent:	Bank Vontobel AG, Gotthardstrasse 43, 8002 Zürich, Switzerland
Information Page:	https://indices.vontobel.com
Identifier:	ISIN: CH0304172957 / WKN: A162SD / Valor: 30417295

This Index is part of the family of Vontobel Leveraged Long and Short indices ("**Factor Indices**").

The Factor Indices are not recognized financial indices but are customized indices conceived by Bank Vontobel AG in its capacity as Index Calculation Agent, their sole function being to act as underlying for this type of security (Factor Certificates).

The Index Calculation Agent will perform the calculation and composition of the Factor Index with the utmost care. However, the Index Calculation Agent does not guarantee that the calculation of the indices or of any other parameters required for the composition and calculation, as in accordance with this Index Guide, will be free from error.

Decisions on the manner and method of calculation and composition of its indices are made by the Index Calculation Agent in good faith and based on its best knowledge available. The Index Calculation Agent is neither liable for any damages nor any losses resulting from or associated with the said decisions.

The Index Calculation Agent accepts no liability whatsoever towards third parties for associated direct or indirect damages, resulting from or associated with an inaccurate or erroneous calculation of the indices or any other parameters. Without prejudice to any potential obligations vis-à-vis licensees, the Index Calculation Agent is under no obligation towards third parties, including investors and/or financial intermediaries, to indicate any mistakes or errors related to the Index.

The indices of the Index Calculation Agent do not constitute a recommendation to undertake an investment. In particular, the composition, calculation and publication of the indices are neither to constitute a representation or a warranty nor an opinion on the part of the Index Calculation Agent with regard to the purchase or sale of an index constituents or any financial instrument relating to such index.

The Index and the index family constitute the intellectual property of Bank Vontobel AG, Gotthardstrasse 43, 8002 Zurich, Switzerland, which reserves any and all rights in this respect.

The original version of the Index Guide is in German; foreign-language versions constitute non-binding translations.

The composition and calculation of the *Factor Index* specified above is described in the following. The *Index Calculation Agent* will make an index guide available on the *Information Page* for each *Factor Index*, containing this description together with the stipulations in the Final Terms. The index guide constitutes the basis for calculating and publishing the *Factor Index*.

A) INDEX DESCRIPTION

The *Factor Index* reflects price movements in the *Reference Instrument* with a leverage factor of 8. An increase in the price of the Reference Instrument since the most recent calculation of an Index Closing Value results in a positive change in the Factor Index as compared to the previous price of the Factor Index and vice versa. The Factor Index therefore replicates a "long" strategy.

The *Factor Index* consists of a leverage component and a financing component.

Leverage component

The leverage component tracks an investment in the *Reference Instrument*, whereby movements in the price of the *Reference Instrument* are multiplied by the *Leverage (Factor)*. This leverage effect occurs with either positive or negative movements in the price of the *Reference Instrument*, having a disproportionate effect on the value of the *Factor Index*. For example (leaving aside the financing component):

1. An increase in the price of the *Reference Instrument* (as compared to the most recent *Valuation Price* of the *Reference Instrument*) by 2% results in an increase in the *Factor Index* by $8 \times 2\%$;
2. A decrease in the price of the *Reference Instrument* (as compared to the most recent *Valuation Price* of the *Reference Instrument*) by 2% results in a decrease in the *Factor Index* by $8 \times 2\%$;

Financing component

The financing component reflects the income and costs that would be incurred in the event of a corresponding investment in the *Reference Instrument*.

Since an investment in futures does not involve the purchase of the reference asset underlying the future but simply consists of entering into a corresponding position in a futures contract, no expenditure is incurred for the acquisition of the reference asset underlying the future. Instead, the only requirement is to make a margin payment based on the position entered into in accordance with the rules and regulations of the *Reference Exchange*. The financing costs for the margin payment are reflected in the financing component.

The financing component also reflects the income that would be earned from a risk-free investment in line with the strategy of the leverage component and at the relevant *Interest Rate*.

Additionally, a fee charged by the *Index Calculation Agent* for the calculation and administration of the *Factor Index* is added (*Index Fee*).

If the costs of the margin payment and the *Index Fee* exceed the interest income based on the applicable *Interest Rate* on a particular day, the value of the *Factor Index* on that day is reduced.

B) INDEX DEFINITIONS

The definitions below shall apply for the purposes of this index description:

"Adjustment Date" means the first *Index Calculation Day* of each calendar month.

"Extraordinary Adjustment Event" means any of the following events as they relate to the *Reference Instrument*:

- (a) changes in the conditions on which the *Reference Instrument* is based or the principal features of the contract on the *Reference Exchange*;
- (b) the *Reference Instrument Price* is zero (0) or negative, or
- (c) other changes relating to the *Reference Instrument* by or on the *Reference Exchange*.

"Index Base Amount" means 0.00001

"Valuation Price" of the *Current Reference Instrument* for an *Index Calculation Day* means – subject to an *Extraordinary Adjustment* of the index calculation pursuant to section D) – the settlement price of the *Current Reference Instrument* determined and published on the *Reference Exchange*. For the sake of clarity: following a *Rollover* (see below), the *Valuation Price* of the new *Current Reference Instrument* is applicable for the continuing calculation of the *Factor Index* in accordance with section C).

If an *Index Calculation Day* is not a *Trading Day*, the *Valuation Price* for the immediately preceding *Index Calculation Day* shall continue to apply (adjusted where necessary, in the reasonable discretion of the *Index Calculation Agent*, if and to the extent that a *Rollover* has taken place since the preceding *Index Calculation Day*). If no *Valuation Price* for the *Current Reference Instrument* is determined or published on a *Trading Day*, the *Index Calculation Agent* shall determine the *Valuation Price* of the *Current Reference Instrument* for that day on the basis of the most recent prices set for the *Current Reference Instrument* in its due discretion.

"**Financing Spread**" represents (in the form of a premium over the relevant *Interest Rate*) the costs of the margin payment which may be incurred for investments in the *Reference Instrument* in line with the strategy replicated by the *Factor Index*.

The *Financing Spread* on the *Index Start Date* corresponds to the *Initial Financing Spread*. The *Index Calculation Agent* then adjusts the "**Current Financing Spread**" in its due discretion on each *Adjustment Date* to reflect current market conditions and publishes it in accordance with section D) of this index description. The adjusted *Financing Spread* shall apply immediately as from the relevant *Adjustment Date*.

"**Initial Financing Spread**" means 2.00% per annum.

"**Trading Day**" means every day on which the *Current Reference Instrument* is traded on the *Reference Exchange*.

"**Leverage**" means 8. It describes the impact that a change in the price of the *Current Reference Instrument* has on the relevant *Factor Index*.

"**Index Calculation Agent**" means Bank Vontobel AG, Gotthardstrasse 43, 8002 Zurich, Switzerland.

"**Index Calculation Day**" means every day from Monday to Friday.

"**Index Fee**" means 1.0% per annum. The *Index Fee* is charged each calendar day, beginning as of the *Index Start Date*. It is calculated on the basis of a 360-day year and the most recently calculated *Index Closing Value*.

"**Index Closing Value**" is calculated for each *Index Calculation Day* by the *Index Calculation Agent* in accordance with section C) 1) of this index description on the basis of the *Valuation Price* of the *Current Reference Instrument* for this *Index Calculation Day* and published in accordance with section E) of this index description.

"**Index Start Date**" means 16 November 2015.

"**Index Start Value**" means 1,000 index points and represents the *Index Closing Value* on *Index Calculation Day T=0* for the purposes of calculating the index in accordance with C).

"**Index Currency**" means USD.

"**Information Page**" means <https://indices.vontobel.com>.

"**Contract Month**" means the expiry month March, May, July, September, December.

"**Reference Instrument Price**" means at any time during the trading period on the *Reference Exchange* the price of the *Current Reference Instrument* on the *Reference Exchange*, as determined by the *Index Calculation Agent*.

"**Reference Exchange**" means CBOT (CME Globex).

"**Reference Instrument**" means Corn Future.

Currency:	USD
ISIN:	XD0002742050
Bloomberg Symbol:	C 1 Comdty

"**Current Reference Instrument**" means the *Initial Reference Instrument* from the *Index Start Date* until the first *Rollover Date*. Once the *Index Closing Value* on the first *Rollover Date* has been calculated and determined, this *Reference Instrument* loses its validity and is replaced by the *Reference Instrument* contract for the *Contract Months* specified above next falling due on the *Reference Exchange*. On each subsequent *Rollover Date*, following the calculation and determination of the *Index Closing Value*, the *Current Reference Instrument* is replaced in turn by the *Reference Instrument* contract falling due on the *Reference Exchange* in the next following *Contract Month*.

The replacement described above is subject to the condition that the *Reference Instrument Price* of the *Reference Instrument* contract falling due on the *Reference Exchange* in the next following *Contract Month* is positive on the *Rollover Date*.

If the *Reference Instrument Price* of the *Reference Instrument* contract is zero (0) or negative on the *Rollover Date*, the *Reference Instrument* contract will be replaced accordingly by the *Reference Instrument* contract falling due on the *Reference Exchange* in the first subsequent *Contract Month* that has a positive *Reference Instrument Price* on the *Rollover Date* (respectively a "**Rollover**").

If there is no subsequent *Reference Instrument* contract with a positive *Reference Instrument Price*, the *Index Calculation Agent* is entitled to an extraordinary adjustment of the index calculation in accordance with Section D). Each *Rollover* is published by the *Index Calculation Agent* in accordance with section E).

"**Initial Reference Instrument**" means Corn Future Sept 2020 (C U0 Comdty)

"**Rollover Date**" is determined in each case by the *Index Calculation Agent* in its reasonable discretion and falls within a period starting with the first *Trading Day* on which, in the context of a *Rollover*, the *Reference Instrument* contract has been replaced by the *Current Reference Instrument* and ending with the last *Trading Day* of the *Current Reference Instrument* on the *Reference Exchange*. In the event that the first notice day of the *Current Reference Instrument* falls prior to its last trading day on the *Reference Exchange*, the period for the *Rollover Date* shall begin ten *Trading Days* before the first notice day and shall end with the last *Trading Day* of the *Current Reference Instrument*.

"Barrier" means 10%. It indicates the maximum permitted negative change in price of the *Reference Instrument* compared with its most recent *Valuation Price* before an *Intraday Index Adjustment* takes place.

"Interest Rate" means USD LIBOR O/N (overnight).

LIBOR stands for London InterBank Offered Rate. LIBOR is an average interest rate based on information submitted by the contributing banks. The panel banks indicate the interest rates at which they are able to refinance their own interbank activities in the relevant currency for the relevant term on an unsecured basis. To calculate the reference interest rate, the highest and lowest quartiles of these interest rates are eliminated, and the remaining interest rates are averaged. LIBOR is calculated for 7 different terms and 5 different currencies. The LIBOR interest rates (ICE Libor) are administered by ICE Benchmark Administration Limited (IBA) and determined each business day at 11 a.m. (London time). LIBOR O/N (overnight) stands for terms of 1 day.

If the Interest Rate is neither set nor published on an Index Calculation Day, the Interest Rate applied on the immediately preceding Index Calculation Day is used to calculate the Index in accordance with section C).

If the Interest Rate has neither been set nor published for ten consecutive Index Calculation Days or the Interest Rate will cease to exist, the Index Calculation Agent has the right and obligation to stipulate in its reasonable discretion an alternative relevant Interest Rate which has functions comparable to the previous Interest Rate.

C) INDEX CALCULATION

The *Factor Index* shall be calculated for the first time on the *Index Start Date*. The initial level of the *Index* on the *Index Start Date* corresponds to the *Index Start Value*. The respective current index level is calculated by the *Index Calculation Agent* on a continuous basis during the trading period of the *Reference Instrument* on the *Reference Exchange* on each *Index Calculation Day*, rounded to two decimal places and published in accordance with section E).

One index point corresponds to one unit of the *Index Currency*.

C) 1) Index Formula

The *Factor Index* is calculated for each time t during an *Index Calculation Day* T in accordance with the following formula, whereby the value of the factor index cannot fall below the *Index Base Amount*:

$$IDX_t = \max \left\{ IBA; IDX_{T-1} \cdot \left(\underbrace{1 + L \cdot \left(\frac{R_t}{R_{T-1}} - 1 \right) + \left(IR_{T-1} - FS_T - IG \right) \cdot \frac{d}{360}}_{\text{leverage component}} \right) \underbrace{\left(IR_{T-1} - FS_T - IG \right) \cdot \frac{d}{360}}_{\text{financing component}} \right\}$$

where:

T:	current Index Calculation Day
IDX_t:	Index Value at time t on Index Calculation Day T
IDX_{T-1}:	Index Closing Value on Index Calculation Day T-1 which immediately precedes the current Index Calculation Day
L:	Leverage (Factor): 8
R_t:	Reference Instrument Price at time t
R_{T-1}:	Valuation Price on Index Calculation Day T-1
IR_{T-1}:	Interest Rate on Index Calculation Day T-1
FST:	Financing Spread on Index Calculation Day T
IG:	Index Fee
d:	Number of calendar days between Index Calculation Days T-1 and T
IBA:	Index Base Amount

C) 2) Intraday Index Adjustment

If at time s on *Index Calculation Day T* the *Reference Instrument Price* falls below the most recent *Valuation Price* of the *Current Reference Instrument* by more than 10% (*Barrier*) , an "**Intraday Index Adjustment**" takes place, simulating a new day:

$$\begin{aligned}s &= T, \text{i.e. } \text{IDX}_{T-1} \text{ (new)} = \text{IDX}_s \\ R_{T-1} \text{ (new)} &= R_{T-1} \text{ (old)} \times 0.90 \\ d &= 0\end{aligned}$$

A new *Valuation Price* valid after time s (R_{T-1} (new)) is calculated by multiplying the previous *Valuation Price* (R_{T-1} (old)) by 0.90.

The financing component remains unchanged. No additional costs are incurred for the newly simulated day.

D) EXTRAORDINARY ADJUSTMENT OF THE INDEX CALCULATION

In the event of an *Extraordinary Adjustment Event* occurring in relation to the *Reference Instrument* or the *Current Reference Instrument*, respectively, the *Index Calculation Agent* will adjust the index calculation on the *Reference Date* (as defined below). In doing so, the *Index Calculation Agent* will – to the extent - endeavour to calculate the *leverage component* as if no *Extraordinary Adjustment Event* had occurred.

The *Index Calculation Agent* will generally adjust the index calculation by correcting in its due discretion the relevant *Valuation Price* of the *Current Reference Instrument* on *Index Calculation Day T-1* on the *Reference Date*, in order to factor into the index calculation the adjustments relating to the (*Current*) *Reference Instrument* made on the *Reference Exchange*.

The *Index Calculation Agent* may adjust the index calculation in some other manner if it deems this necessary in its due discretion in order to reflect differences between this Factor Index and the *Reference Instrument* traded on the *Reference Exchange*. Adjustments of this nature may relate in particular to the replacement of the *Reference Instrument* by another comparable *Reference Instrument* on another *Reference Exchange* and, where relevant, to the designation of a different *Reference Exchange* and a different *Reference Instrument Price* or the *Reference Instrument Price* is zero (0) or negative.

The list of *Extraordinary Adjustment Events* cited in section B) is not exhaustive. The deciding factor is whether the *Reference Exchange* deems an adjustment of the contract size, the *Reference Instrument* or the designation of the relevant exchange determining the price of the reference item of the *Reference Instrument* to be necessary. In cases of doubt about the application of the adjustment rules, the *Index Calculation Agent* shall decide such questions in its reasonable discretion. The rules and regulations of the *Reference Exchange* shall apply in addition to the provisions set out above.

If the *Index Calculation Agent* makes no adjustment at its reasonable discretion, the *Index Calculation Agent* is entitled to immediately discontinue the Index calculation and the *Factor Index*. This will result in a discontinuation of the *Factor Index* as a possible underlying for factor certificates. This case may occur in particular if the *Reference Instrument Price* is zero (0) or negative.

"Reference Date" within the meaning of this index description means the first *Index Calculation Day* on which the relevant *Reference Instruments* are traded on the *Reference Exchange* after taking the adjustment into account.

Adjustments relating to the Factor Index and all other measures taken under this section will be published by the *Index Calculation Agent* in accordance with section E).

E) NOTICES

All notices pertaining to the *Factor Index* will be published on the *Information Page*. Such notices shall be deemed to have been given on the date on which they are first published.

Notices are made for informational purposes only and do not represent a precondition for legal effectiveness.

ISSUE-SPECIFIC SUMMARY

Section A – Introduction with Warnings

Warnings

The following is pointed out:

- This summary should be read as an introduction to the base prospectus dated Base Prospectus for Constant Leverage Certificates dated 10 June 2020 (the "**Base Prospectus**").
- Investors should base any decision to invest in the Securities concerned on a consideration of the Base Prospectus as a whole. Investors should therefore read the Base Prospectus in conjunction with the Registration Document of the Issuer dated 2 April 2020 and the Registration Document of the Guarantor dated 1 April 2020, which have been incorporated by reference, and any supplements thereto. Furthermore, investors should read the Base Prospectus in conjunction with the Final Terms that refer to the Base Prospectus and that are drawn up in connection with the issue of the Securities.
- The Securities are not capital protected and provide for no minimum redemption. Investors could lose all or part of their invested capital (total loss).
- In the event that a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under national law, have to bear the costs of translating the Base Prospectus, including any supplements thereto, and the related Final Terms before the legal proceedings are initiated.
- Vontobel Financial Products GmbH, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Germany (the "**Issuer**") which, as the Issuer of the Securities, has assumed responsibility for this summary (the "**Summary**") including any translations thereof, or the persons who have submitted and transmitted the Summary including any translations thereof, shall be liable under civil law, but only where the Summary is misleading, inaccurate or inconsistent, when read together with the other parts of the Base Prospectus, or where it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in such Securities.
- You are about to purchase a product that is not simple and may be difficult to understand.

Introduction

Designation and security identification numbers

The Constant Leverage Certificates have the following security identification numbers: ISIN: DE000VS0R9W8 / WKN: VS0R9W / Valor: 40479295 (the "**Securities**").

Contact details of the Issuer

The Issuer of the Securities is Vontobel Financial Products GmbH, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Germany, e-mail: vfp-frankfurt@vontobel.com, phone: +49 (0)69 695 996 3210, Legal Entity Identifier (LEI): 5299009N4N61DPCDHR97.

Contact details of the Offeror

The offeror of the Securities is Bank Vontobel Europe AG, Alter Hof 5, 80331 Munich, Germany, acting through its Frankfurt am Main Branch, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Germany, e-mail: zertifikate.de@vontobel.com; phone: +49 (0)69 695 996 3205, fax: +49 (0)69 695 996 3202, Legal Entity Identifier (LEI): 529900KKJ9XOK6WO4426 (the "**Offeror**").

Approval of the Base Prospectus; Competent Authority

The Base Prospectus was approved by the German Federal Financial Supervisory Authority (the "**BaFin**") on 10 June 2020. The business address of the BaFin (Securities Supervision) is: Marie-Curie-Str. 24-28, 60439 Frankfurt am Main, Germany; phone: +49 (0)228 4108 0.

Section B – Key information on the Issuer

Who is the Issuer of the Securities?

Domicile and legal form of the Issuer

Vontobel Financial Products GmbH is a limited liability company (Gesellschaft mit beschränkter Haftung – GmbH) under German law. The Issuer is registered with the Commercial Register of the Local Court (Amtsgericht) of Frankfurt am Main, Germany, under register number HRB 58515. The Issuer's registered office is in Frankfurt am Main, Germany. The Legal Entity Identifier (LEI) of the Issuer is 5299009N4N61DPCDHR97.

Principal activities of the Issuer

The principal activity of the Issuer is to issue securities and derivative securities.

Major shareholders of the Issuer

All shares of the Issuer are held by the group parent company, Vontobel Holding AG, Zurich, Switzerland. The shares of Vontobel Holding AG are listed on the SIX Swiss Exchange in Zurich.

Identity of the key managing directors of the Issuer

The managing directors of the Issuer are Anton Hötzl and Daniela Werner.

Identity of the statutory auditors of the Issuer

The auditor of the Issuer is Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft, Eschborn, Germany.

What is the key financial information regarding the Issuer?

The following key financial information regarding the Issuer are extracted from the audited annual financial statements of the Issuer from the financial years 2018 and 2019 as well as the unaudited interim financial statements as of 30.06.2019 which were prepared in accordance with the provisions of the German Commercial Code (Handelsgesetzbuch) and the German Law on Limited Liability Companies (Gesetz betreffend die Gesellschaften mit beschränkter Haftung):

Income Statement	01.01.2019	01.01.2018	01.01.2019	01.01.2018
	to	to	to	to
	31.12.2019	31.12.2018	30.06.2019	30.06.2018

Cash flow from investing activities	-376.47 EUR	0.00 EUR	0.00 EUR

What are the key risks that are specific to the Issuer?

The key risks that are specific to the Issuer may be summarised as follows:

- The Security holders bear the risk of bankruptcy of the Issuer (default risk). Securities holders are exposed to the risk that the Issuer cannot meet its obligations arising from the Securities, for example in the event of insolvency (illiquidity / overindebtedness). Insolvency of the Issuer can even lead to the complete loss of the principal amount that Security holders paid when purchasing the securities (**risk of total loss**).

Section C – Brief description of the Securities

What are the main features of the Securities?

Type and class of the Securities

The Securities are debt instruments in dematerialised registered form, evidenced by book-entries, governed by German law.

Rights attached to the Securities

The Securities constitute the right of the Security holder to receive from the Issuer per Security the payment of the Redemption Amount in Euro in accordance with the Terms and Conditions of the Securities and subject to the performance of the Underlying.

The objective of this product is to provide you with disproportionate (leveraged) participation in any price movement of the Underlying's Reference Instrument. This has the effect, inter alia, that you are exposed to a very high risk of a total loss of your investment. The product is a complex financial instrument linked to one Underlying (8X Long Index linked to Corn Future).

The product does not have a fixed term. You may exercise the product on any Exercise Date. The Issuer has the right to terminate the product on any Termination Date. After exercise or termination, you will receive a Redemption Amount on the relevant Redemption Date. The redemption amount will correspond to the Reference Price of the Underlying on the relevant Exercise or Termination Date, multiplied by the Ratio.

Underlying The Underlying is linked to the Reference Instrument and is calculated by the Index Calculation Agent. It reflects price movements in the Reference Instrument leveraged by a factor of 8 (Leverage).

An increase in the price of the Reference Instrument since the most recent calculation of an Underlying closing value results in a positive change of the Underlying as compared to the previous price of the Underlying and vice-versa. The Underlying therefore replicates a "long" strategy. The Underlying consists of a leverage component and a financing component.

The leverage component tracks an investment in the Reference Instrument, whereby movements in the price of the Reference Instrument are multiplied by the Leverage. This leverage effect occurs with either positive or negative movements in the Reference Instrument, having a disproportionate effect on the value of the Underlying. For example (leaving aside the financing component):

- A decrease in the price of the Reference Instrument by 2% results in a decrease in the Underlying by $8 \times 2\%$;
- An increase in the price of the Reference Instrument by 2% results in an increase in the Underlying by $8 \times 2\%$.

Movements of the price of the Reference Instrument are always tracked with reference to its most recent Valuation Price. In case of a sharp decline of the Reference Instrument reaching the Barrier such level of the Reference Instrument is set as new Valuation Price. This automatic intraday adjustment is designed to prevent the Underlying from reaching negative values. However, the mechanism does not prevent you from suffering a loss up to total loss.

The financing component reflects the capital costs (see Interest Rate and Financing Spread below) that would be incurred to finance the corresponding investment in the Reference Instrument. In addition, the Index Calculation Agent charges a fee for the calculation and administration of the Underlying (Index Fee). The financing component therefore reduces the value of the Underlying and the product.

Interest Rate, Financing Spread and Index Fee are included in the calculation of the Underlying daily on a pro-rata basis. Due to the daily adjustment of the Valuation Price, the Underlying and the Reference Instrument generally do not move in parallel over a period longer than one day; the likelihood that they will follow significantly different courses increases with each passing day. In particular, daily up-and-down fluctuations of the Reference Instrument will lead to completely different price movements of the Underlying and the Reference Instrument within a few days; this can result in a decrease of the price of the Underlying although the Reference Instrument price increases over a particular period of time.

Due to the leverage effect in the Underlying, price losses of the Reference Instrument can significantly increase price losses on the product. If the price of the Reference Instrument decreases significantly, the value of the Underlying will fall to a very low level. Subsequent – even significant – gains in the price of the Reference Instrument would only have a minor effect on the recovery of the Underlying as the starting level for a recovery in the value of the Underlying would then be very low due to the daily (or even intraday) adjustment of the Underlying to the most recent Valuation Price of the Reference Instrument.

The redemption amount will be translated from the currency of the Underlying into the currency of the product.

Product

Upon the occurrence of certain extraordinary events, the Issuer is entitled under the terms and conditions of the Securities to adjust the terms and conditions of the securities (in particular to exchange the underlying instrument) or to terminate the Securities extraordinarily. The Issuer shall have the right to call the Securities in their entirety for ordinary notice against payment of the ordinary termination amount (which shall be calculated in the same manner as the redemption amount) and to terminate the term of the Securities.

Applicable law

The form and content of the Securities as well as all rights and obligations of the Issuer and the Security holders are determined in accordance with German law, except that the registration of the Securities is governed by Finnish law.

Ranking

The obligations arising from the Securities constitute direct and unsecured liabilities of the Issuer, which rank equally among themselves and with all other unsecured and unsubordinated liabilities of the Issuer, with the exception of those liabilities, which have priority by virtue of mandatory legal provisions.

Where will the Securities be traded?

Application for admission to trading on a regulated market or MTF

The Securities are subject to an application to admission or inclusion to trading on the following regulated markets or multilateral trading facilities (MTF): Nordic Growth Market (Nordic MTF Finland). Trading is expected to start on 24 July 2020.

Is there a guarantee attached to the Securities?

Nature and scope of the guarantee

Vontobel Holding AG, Zurich, Switzerland (the "Guarantor") guarantees the proper payment of all amounts payable by the Issuer in accordance with the terms and conditions of the Securities issued under the Base Prospectus. The guarantee represents an independent guarantee under Swiss law; all rights and obligations arising from this are subject in all respects to Swiss law. The courts of law of the Canton of Zurich have exclusive jurisdiction over all actions and legal disputes relating to the guarantee. The place of jurisdiction is Zurich 1.

Description of the Guarantor

Guarantor is Vontobel Holding AG, Gotthardstrasse 43, 8002 Zurich, Switzerland; Legal Entity Identifier (LEI) 529900G69W5VR3DDPW23. The Guarantor is the parent company of the Vontobel Group, which consists of banks, capital market companies and other domestic and foreign companies. The Guarantor holds all shares in the Issuer.

Key financial information regarding the Guarantor

The following key financial information regarding the Company has been taken from the audited consolidated annual financial statements of the Vontobel Group for the financial years 2019 and 2018 as well as the unaudited interim financial statements as of 30.06.2019 and as of 30.06.2018 which have been prepared in accordance with International Financial Reporting Standards (IFRS):

Income Statement	01.01.2019 to 31.12.2019 (audited)	01.01.2018 to 31.12.2018 (audited)	01.01.2019 to 30.06.2019 (unaudited)	01.01.2018 to 30.06.2018 (unaudited)

Cash flow from investing activities	649.4 Mio. CHF	496.7 Mio. CHF	595.3 Mio. CHF

Most material risks factors pertaining to the Guarantor

The most material risk factors pertaining to the Guarantor may be summarised as follows:

- The Security holders bear the risk of bankruptcy of the Guarantor (default risk). Securities holders are exposed to the risk that the Guarantor cannot meet its obligations arising from the Securities, for example in the event of insolvency (illiquidity / overindebtedness). Insolvency of the Issuer and the Guarantor can even lead to the complete loss of the principal amount that Security holders paid when purchasing the securities (**risk of total loss**). Furthermore, Security holders may become subject to resolution measures in relation to the Guarantor if the Guarantor is failing or likely to fail.
- The Security holders bear risks in connection with the enforcement of legal claims with regard to the guarantee, e.g. increased costs.

What are the key risks that are specific to the Securities?

The key risks that are specific to the Securities may be summarised as follows:

- **Risks resulting from the payment profile of the Securities**
 - Risk of total loss: It should be noted as a general principle that the Securities are particularly risky investment instruments with the consequence that the capital invested by the investor may be totally lost (risk of total loss).
 - Disproportionate risk of loss due to the leverage effect: A feature common to all types of Factor Indices is that the movements in the price of the Reference Instrument are multiplied by a degree of leverage (Factor). As a result of this leverage effect, the Securities entail disproportionate risks of loss. The investor must consider that even sideways movements (the price rises and falls alternately) in the Reference Instrument may result in price losses.
 - Risk relating to the level of the Cash Amount / payment on exercise by the Security holder: The purchase of the Securities grants the investor the right to the payment of a cash amount, calculated in each case depending on the performance of the Underlying to which the Security is linked (multiplied by the Ratio). There is no guarantee that the Securities will be repaid at their respective purchase price or at a certain amount defined for the Security.
 - Risks in connection with the intraday index adjustment: The index description for all types of Factor Indices provides for an intraday index adjustment if the losses in the Index reach a certain threshold or barrier. However, this mechanism can only mitigate further losses in the Index and resulting further losses in value of the Security. The losses may nevertheless be substantial. Therefore, the barrier does not constitute a "safety buffer".

- **Risks in connection with the financing component:** A financing component is also taken into account for the purposes of calculating the Index. The financing component consists of two elements: (i) the index fee which always reduces the value of the Index, and (ii) the income and expenses that would arise in the event of a theoretical, leveraged investment in the Reference Instrument. The amounts of the income and costs may change over time. If the costs are higher than the income, this will reduce the value of the Factor Index.
- **Risk of Index fees:** The investor must consider that, for the purposes of calculating the Index, an ongoing fee for the administration and calculation of the Factor Index is deducted from the level of the Factor Index. The deduction of the index fee generally results in a reduction in the value of the Factor Index and therefore also of the Securities.
- **Risks resulting from the conditions of the Securities**
 - **Risks in connection with adjustments, market disruptions, ordinary and extraordinary termination and settlement:** Security holders bear the risk that the Securities are adjusted or terminated. Furthermore, there is also the risk that the occurrence of a market disruption could reduce the value of the Securities. In addition, a market disruption may delay the redemption or repayment of the Securities. If the conditions of the Securities provide for extraordinary termination by the Issuer, the Security holder bears a risk of loss as the termination amount equals the market price of the Securities, which can be even zero. The Security holder also bears the reinvestment risk in relation to the termination amount.
- **Risks in connection with the investment in, the holding and selling of the Securities**
 - **Risks in connection with trading in the Securities, liquidity risk:** Security holders bear the risk that there is no liquid market for trading in the Securities. This means that Security holders cannot sell the Securities at a specific time or at a specific price.
- **Risks in connection with the price determination for the Securities and potential conflicts of interest**
 - **Risks in connection with potential conflicts of interest:** The Issuer, the Guarantor and other companies of the Vontobel Group may pursue interests that conflict with or do not take into account the interests of the Security holders. This may be in connection with the exercise of other functions or in carrying out further transactions. Potential conflicts of interest may adversely affect the value of the Securities and/or the Cash Amount under the Securities.
- **Risks in connection with the Underlying and the Reference Instrument**
 - **Risks in connection with the linking of the Factor Index to a Reference Instrument:** The performance of the Securities is primarily dependent on the underlying Factor Index, while its performance is in turn primarily dependent on the value of the Reference Instrument. Depending on the impact of the risks on the level or price of the Reference Instrument and thus directly on the value of the Underlying, the realization of these risks may result in a total or partial loss of the investment for the investor.
- **Risks which apply to all or several Underlyings**
 - **Risks in connection with psychological effects:** The price of an Underlying can fluctuate strongly due to psychological effects related, for example, to sentiments, opinions and rumors in the market, which may have an impact on the performance of the Securities.
 - **Volatility risk:** Due to the volatility of an Underlying, high losses in the Securities may occur.

Section D – Key information on the offer of the Securities to the public and/or the admission to trading on a regulated market

Under which conditions and timetable can investors invest in this Security?

General terms, conditions and expected timetable of the offer

The offer of the Securities will be made from 23 July 2020 in Finland.

The (initial) issue price is EUR 0.014. The bid and ask price of the Securities is continuously set by the Market Maker. Market Maker is Bank Vontobel Europe AG, Frankfurt am Branch, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Germany.

The Securities may not be offered or sold unless all applicable securities laws and regulations in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is distributed or held have been complied with and all consents or approvals required by applicable laws in that jurisdiction for the purchase, offer, sale or delivery of the Securities have been obtained.

Details of the admission to trading on a regulated market or on a multilateral trading facility (MTF)

An application for admission to trading on a regulated market or on a multilateral trading facility (MTF) has been or will be made. Such admission need not be maintained on a permanent basis. If the admission ceases to exist, the acquisition and sale of the Securities may be considerably more difficult for the investor. Even if admission is maintained, investors should note that this is not necessarily associated with high trading volumes in the respective Securities. The trading of Securities is subject to numerous legal and stock exchange regulations. Before acquiring the Securities, investors should familiarise themselves with the regulations applicable (such as, for example, the regulations on the cancellation of trading transactions that have been concluded at prices not in line with the market, so-called mistrades).

Estimated expenses charged to the investor

Investors will receive further information on any remuneration, commissions, fees and costs charged to investors, for example by their bank, advisor or financial services provider (distribution partner), from these parties upon request.

In addition, profits from Securities may be subject to profit taxation, the assets from the Securities may be subject to wealth taxation, or other tax regulations may be applicable.

Who is the Offeror and/or the person asking for admission to trading?

Offeror of the Securities is Bank Vontobel Europe AG acting through its Frankfurt am Main Branch, Bockenheimer Landstraße 24, 60323 Frankfurt am Main. The Offeror is a stock corporation (AG) under German law. The registered office of the Offeror is: Alter Hof 5, 80331 Munich, Germany. The Offeror is registered in the Commercial Register of the Munich District Court under the registration number HRB 133419. The Legal Entity Identifier (LEI) of the Offeror is 529900KKJ9XOK6WO4426.

Why is this prospectus being produced?

Use and estimated net amount of the proceeds

The issue of the Securities is part of the Issuer's ordinary business activities and is made for the purpose of generating profits and/or hedging certain risks of the Issuer.

Underwriting agreement on a firm commitment basis

There is no underwriting agreement with a firm underwriting commitment in connection with the securities offered.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer and other companies within the Vontobel Group may pursue interests that conflict with the interests of the Security holders or do not take these into account. This may occur in connection with the exercise of other functions or when carrying out further transactions.

Bank Vontobel Europe AG, Munich, or another company of the Vontobel Group may act as market maker for the Securities. The market maker is responsible for setting the prices of the securities ("market making"). The market prices provided by the market maker will not always correspond to the market prices that would have been formed without this market making and in a liquid market.

Companies within the Vontobel Group may also perform another function in relation to the Securities, e.g. as calculation agent, index calculation agent, index sponsor or participant in the selection process of a proprietary index or basket. Such a function may enable the company of the Vontobel Group to determine the composition of the underlying instrument or to calculate its value.

Companies within the Vontobel Group may conclude transactions relating to the underlying or its components. This also includes transactions by the issuer that hedge its obligations under the Securities. The value of the Securities may be affected by the termination of some or all of these hedging transactions. Companies within the Vontobel Group may receive non-public information relating to the underlying and are not obliged to pass on such information to an investor in the Securities. For example, companies in the Vontobel Group may issue research reports in relation to the underlying or its components.

LIIKKEESEENLASKUKOHTAINEN TIIVISTELMÄ

Jakso A – Johdanto ja varoitukset

Varoitukset

Huomautamme seuraavaa:

- Tämä tiivistelmä on luettava johdantona Base Prospectus for Constant Leverage Certificates dated 10 June 2020 ("Ohjelmaesite").
- Sijoittajien tulisi perustaa Arvopapereihin sijoittamiseen liittyvät päättöksensä koko Ohjelmaesitteeseen. Sijoittajien tulisi tästä syystä lukea Ohjelmaesite yhdessä 2. huhtikuuta 2020 päivätyn Liikkeeseenlaskijan Rekisteröintiasiakirjan ja 1. huhtikuuta 2020 päivätyn Takaajan Rekisteröintiasiakirjan kanssa niihin viittaamalla sisällytettyt tiedot ja mahdolliset liitteet mukaan luettuna. Lisäksi sijoittajien tulisi lukea Ohjelmaesite yhdessä Ohjelmaesitteeseen viittaavien Lopullisten ehtojen kanssa, jotka on laadittu Arvopapereiden Liikkeeseenlaskun yhteydessä.
- **Arvopapereita ei ole pääomasuojattu eivätkä ne oikeuta lunastuksen vähimmäissummamaan. Sijoittajat voivat menettää sijoittamansa pääoman kokonaan tai osittain (täydellinen tappio).**
- Jos tuomioistuimessa pannaan vireille Ohjelmaesitteeseen sisältyviä tietoja koskeva kanne, kantajana toimiva sijoittaja saattaa kansallisen lain mukaan joutua ennen oikeudenkäynnin vireillepanoa vastaamaan Ohjelmaesitten ja sen mahdollisten liitteiden sekä Lopullisten ehtojen käänöskustannuksista.
- Vontobel Financial Products GmbH, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Saksa ("Liikkeeseenlaskija"), joka on Arvopapereiden Liikkeeseenlaskijana vastuussa tästä liikkeeseenlaskukohtaisesta tiivistelmästä ("Tiivistelmä") ja sen mahdollisista käänöksistä, tai Tiivistelmän ja sen mahdolliset käänökset toimittaneet henkilöt ovat siviilioikeudellisessa vastuussa tiivistelmästä ja sen mahdollisesta käänöksestä vain, jos tiivistelmä luettuna yhdessä Ohjelmaesitten muiden osien kanssa on harhaanjohtava, epätarkka tai epäjohdonmukainen tai jos siinä ei luettuna yhdessä Ohjelmaesitten muiden osien kanssa anneta keskeisiä tietoja sijoittajien auttamiseksi heidän harkitessaan sijoittamista näihin Arvopapereihin.
- Olette ostamassa tuotetta, joka ei ole yksinkertainen ja joka saattaa olla vaikea ymmärtää.

Johdanto

Nimeäminen ja arvopapereiden tunnisteet

Arvopapereilla Constant Leverage Certificate on seuraavat arvopapereiden tunnisteet: ISIN: DE000VS0R9W8 / WKN: VS0R9W / Valor: 40479295 ("Arvopaperit").

Liikkeeseenlaskijan yhteystiedot

Arvopapereiden Liikkeeseenlaskija on Vontobel Financial Products GmbH, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Saksa, sähköposti: vfp-frankfurt@vontobel.com, puhelin: +49 (0)69 695 996 3210, oikeushenkilötunnus (LEI): 5299009N4N61DPCDHR97.

Tarjoajan yhteystiedot

Arvopapereiden tarjoaja on Bank Vontobel Europe AG, Alter Hof 5, 80331 München, Saksa, joka toimii Frankfurt am Mainin sivuliikkeensä välityksellä, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, sähköposti: zertifikate.de@vontobel.com; puhelin: +49 (0)69 695 996 3205, faksi: +49 (0)69 695 996 3202, oikeushenkilötunnus (LEI): 529900KKJ9XOK6WO4426 ("Tarjoaja").

Ohjelmaesitten hyväksyntä; Toimivaltainen viranomainen

Ohjelmaesitten on hyväksynyt Saksan Finanssivalvonta ("BaFin") 10. kesäkuuta 2020. BaFinin osoite (Arvopaperivalvonta): Marie-Curie-Str. 24-28, 60439 Frankfurt am Main, Saksa; puhelin: +49 (0)228 4108 0.

Jakso B – Keskeiset tiedot Liikkeeseenlaskijasta

Arvopapereiden Liikkeeseenlaskija

Liikkeeseenlaskijan kotipaikka ja yhtiömuoto

Vontobel Financial Products GmbH on Saksan lakien mukaisesti perustettu rajavastuuhtiö (*Gesellschaft mit beschränkter Haftung – GmbH*). Liikkeeseenlaskija on rekisteröity paikallisen Frankfurt am Mainissa sijaitsevan tuomioistuimen (*Amtsgericht*) kaupparekisteriin rekisteröintinumerolla HRB 58515. Liikkeeseenlaskijan rekisteröity toimipaikka on Frankfurt am Main, Saksa. Liikkeeseenlaskijan oikeushenkilötunnus on (LEI) on 5299009N4N61DPCDHR97.

Liikkeeseenlaskijan pääasiallinen toiminta

Liikkeeseenlaskijan pääasiallisena toimintana on arvopapereiden ja johdannaisarvopapereiden liikkeeseenlasku.

Liikkeeseenlaskijan pääosakkaat

Kaikki Liikkeeseenlaskijan osakkeet ovat Vontobel-konsernin emoyhtiön, sveitsiläisen Vontobel Holding AG:n omistuksessa. Vontobel Holding AG:n osakkeet on listattu SIX Swiss Exchangessa Zürichissä.

Liikkeeseenlaskijan johtoon kuuluvien avainhenkilöiden nimet

Liikkeeseenlaskijan johtoon kuuluvat avainhenkilöt ovat Anton Hötzl ja Daniela Werner.

Liikkeeseenlaskijan lakisääteiset tilintarkastajat

Liikkeeseenlaskijan tilintarkastaja on Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft, Eschborn, Sakska.

Liikkeeseenlaskijan keskeiset taloudelliset tiedot

Liikkeeseenlaskijan seuraavat keskeiset taloudelliset tiedot on poimittu Liikkeeseenlaskijan tilikausien 2019 ja 2018 tilintarkastetuista tilinpäätöksistä ja tilintarkastamattomasta 30.6.2020 päätyneestä osavuosikatsauksesta, jotka on laadittu Saksan kauppalain (*Handelsgesetzbuch*) ja Saksan rajavastuuhioidta koskevan lain (*Gesetz betreffend die Gesellschaften mit beschränkter Haftung*) mukaisesti.

Liikkeeseenlaskijaan liittyvät keskeiset riskit

Liikkeeseenlaskijaan liittyvät keskeiset riskit voidaan tiivistää seuraavasti:

- Arvopaperinhaltijat kantavat Liikkeeseenlaskijan konkurssiin liittyvän riskin (maksulaiminlyönnin riski). Arvopaperinhaltijat altistuvat riskille, että Liikkeeseenlaskija saattaa olla kyvytön täyttämään Arvopapereihin liittyvät velvoitteensa esimerkiksi maksuvalmiuteen liittyen (maksukyvyttömyys / ylivelkaisuus). Liikkeeseenlaskijan maksukyvyttömyys voi johtaa myös Arvopaperinhaltijoiden arvopapereidenoston yhteydessä maksaman koko pääoman menettämiseen (**täydellisen tappion riski**).

Jakso C – Lyhyt kuvaus Arvopapereista

Arvopapereiden keskeiset ominaisuudet

Arvopapereiden keskeiset ominaisuudet

Arvopaperit ovat velkainstrumentteja aineettomasti rekisteröidyssä muodossa, joista on todisteena Saksan lakien mukaisia arvo-osuuksia.

Arvopapereihin liittyvät oikeudet

Arvopaperit muodostavat Arvopaperinhaltijan oikeuden saada Liikkeeseenlaskijalta Arvopaperikohtainen Lunastusmäärä Euro Arvopapereiden ehtojen ja Kohde-etuuden tuoton mukaisesti.

Tuotteen tavoitteena on tarjota sijoittajalle epäsuhtainen (vivutettu) osallistuminen kohde-etuutena olevan viiteinstrumentin mahdolliseen hintakehitykseen. Vipuvaikutuksen vuoksi sijoittajalla on erittäin suuri riski menettää koko sijoitukseensa. Tuote on monimutkainen rahoitusväline, joka on sidoksissa yhteen kohde-etuuteen (8X Long Index linked to Corn Future).

Tuotteella ei ole kiinteää juoksuaika. Sijoittaja voi toteuttaa tuotteen minä tahansa toteutuspäivänä. Liikkeeseenlaskijalla on oikeus eräännystää tuote minä tahansa eräännystypäivänä.

Toteutuksen tai eräännystyksen jälkeen sijoittajalle maksetaan lunastusmäärä kyseisenä lunastuspäivänä. Lunastusmäärä on kohde-etuuden viitehinta kyseisenä toteutus- tai eräännystypäivänä kerrottuna suhdeluvulla.

Kohde-etuus Kohde-etuus on sidoksissa viiteinstrumenttiin, ja kohde-etuuden laskennan suorittaa indeksin laskenta-asiamies. Kohde-etuus kuvastaa viiteinstrumentin hinnanmuutoksia, ja mukana on vipuvaikutus, jonka suuruus on 8 (vipu).

Viiteinstrumentin hinnan nousu kohde-etuuden päätöshinnan viimeisimmän laskennan jälkeen aiheuttaa kohde-etuuden arvon positiivisen muutoksen verrattuna kohde-etuuden edelliseen hintaan ja päinvastoin. Kohde-etuus siis toistaa "pitää" strategiaa. Kohde-etuus koostuu vipukomponentista ja rahoituskomponentista.

Vipukomponentti seuraa sijoitusta viiteinstrumenttiin, ja viiteinstrumentin hinnanmuutokset kerrotaan vipsuhteella. Tämä vipuvaikutus esiintyy viiteinstrumentin arvon joko nostessa tai laskiessa, ja sen vaikutus kohde-etuuden arvoon ei ole tasauhtainen. Esimerkiksi (kun rahoituskomponenttia ei oteta huomioon):

- 2% lasku viiteinstrumentin hinnassa laskee kohde-etuuden arvoa $8 \times 2\%$;
- 2% nousu viiteinstrumentin hinnassa lisää kohde-etuuden arvoa $8 \times 2\%$.

Viiteinstrumentin hinnanmuutoksia seurataan suhteessa sen viimeisimpään arvostushintaan. Jos kyseessä on viiteinstrumentin hinnan jyrkkä lasku, joka saavuttaa rajatason, viiteinstrumentin hintataso asetetaan uudeksi arvostushinnaksi. Tämän automaattisen päivänsäisisen korjauksen tarkoitus on estää kohde-etuuden arvon laskemista negatiiviseksi. Mekanismi ei kuitenkaan poista sijoittajalle aiheutuvien tappioiden ja jopa koko sijoituksen menettämisen mahdollisuutta.

Rahoituskomponentti kuvastaa pääomakustannuksia (ks. Korkotaso ja rahoituksen hintaero alla), jotka syntyisivät vastaavasta sijoituksesta viiteinstrumenttiin. Indeksin laskenta-asiamies veloittaa lisäksi palkkion kohde-etuuden laskemisesta ja hallinnoinnista (indeksipalkkio). Rahoituskomponentti vähentää siten kohde-etuuden arvoa ja tuotteen arvoa.

Korkotaso, rahoituksen hintaero ja indeksipalkkio otetaan huomioon kohde-etuuden laskennassa päivittäin pro rata -periaatteella.

Koska arvostushintaa korjataan päivittäin, kohde-etuuden ja viiteinstrumentin arvot eivät yleensä kehity samaan suuntaan yhtä päivää pitempäään, ja todennäköisyys niiden erisuuntaiselle kehitykselle kasvaa päivä päivältä. Erityisesti viiteinstrumentin arvon päivittäisestä vaihtelusta seuraa, että kohde-etuuden ja viiteinstrumentin hinnanmuutokset ovat muutaman päivän kuluttua täysin erilaiset. Tämän vuoksi kohde-etuuden hinta voi laskea, vaikka viiteinstrumentin hinta nousee tietynä ajanjaksona.

Kohde-etuuden vipuvaikutuksen vuoksi viiteinstrumentin hinnanlaskut voivat suurentaa tuotteen hinnanlaskuja huomattavasti. Jos viiteinstrumentin hinta laskee merkittävästi, kohde-etuuden arvo laskee hyvin alhaiselle tasolle. Viiteinstrumentin myöhemmät hinnannousut (vaikka ne olisivat huomattaviakin) vaikuttavat kohde-etuuden arvonnousuun vain vähän, koska kohde-etuuden hinnan palautuminen alkaisi hyvin alhaiselta tasolta sen vuoksi, että kohde-etuuden arvoa korjataan päivittäin (tai jopa päivänsäisesti) vastaamaan viiteinstrumentin viimeisintä arvostushintaa.

Lunastussumma muunnetaan Kohde-etuuden valuutasta tuotteen valuuttaan.

Poikkeuksellisten tapahtumien toteutuessa Liikkeeseenlaskijalla on Arvopapereiden ehtojen mukaan oikeus muuttaa Arvopapereiden ehtoja (ja erityisesti vaihtaa kohdeinstrumenttia) tai eräännyttää arvopaperit poikkeuksellisesti. Liikkeeseenlaskijalla on oikeus ostaa kaikki arvopaperit säännönmukaisesti maksamalla säännönmukainen eräännyttämisen määrä (joka lasketaan samalla tavalla kuin lunastusmäärä) ja päättää Arvopapereiden juoksuaika.

Arvopapereihin liittyvät oikeudet

Arvopapereiden muoto ja sisältö sekä Liikkeeseenlaskijan ja Arvopaperinhaltijoiden oikeudet ja velvollisuudet määrittyvät Saksan lakienv mukaan, lukuun ottamatta Arvopapereiden rekisteröintiä, johon sovelletaan Suomen lakiota.

Etuoikeusasema

Arvopapereista johtuvat velvoitteet ovat Liikkeeseenlaskijan suoria ja vakuudettomia velvoitteita, jotka ovat samalla sijalla vaille keskinäistä etusijaa sekä samalla sijalla Liikkeeseenlaskijan kaikkien muiden vakuudettomien velvoitteiden kanssa, joiden etuoikeusasema ei ole takasijainen, lukuun ottamatta velvoitteita, jotka pakollisten lakisääteisten vaatimusten vuoksi ovat etusijalla.

Missä Arvopapereita vahdetaan?

Kaupankäynnin kohteeksi ottaminen säännellyillä markkinoilla tai monenkeskisessä kaupankäytijärjestelmässä (MTF)

Arvopapereista on tehty hakemus kaupankäynnin kohteeksi ottamisesta tai kaupankäytin sisällyttämisestä seuraavilla säännellyillä markkinoilla tai monenkeskisissä kaupankäytijärjestelmissä (MTF): Nordic Growth Market (Nordic MTF Finland). Kaupankäynnin oletettu alkamisajankohta on 24. heinäkuuta 2020.

Arvopapereihin liittyvät takaukset

Takauksen luonne ja soveltamisala

Vontobel Holding AG, Zürich, Sveitsi ("Takaaja") takaa kaikkien Liikkeeseenlaskijan Ohjelmaesitteen perusteella liikkeeseen laskettujen ja Arvopapereiden ehtojen mukaisesti maksettavaksi kuuluvien summien asianmukaisen maksamisen. Takaus on Sveitsin lainsäädännön piiriin kuuluva riippumaton takaus, ja kaikkiin siitä johtuvii velvoitteisiin ja oikeuksiin sovelletaan kaikilta osin Sveitsin lakiota. Zürichin Kantonin tuomioistuimilla on yksinomaisten toimivalta kaikissa takauksen liittyvissä kanteissa ja oikeudenkäytiasioissa. Oikeuspaikka on Zürich 1.

Takaajan tiedot

Takaaja on Vontobel Holding AG, Gotthardstrasse 43, 8002 Zürich, Sveitsi; oikeushenkilötunnus (LEI) 529900G69W5VR3DDPW23. Takaaja on pankeista, pääomamarkkinoilla toimivista yrityksistä ja muista sveitsiläisistä ja ulkomaisista yrityksistä koostuvan Vontobel-konsernin emoyhtiö. Takaaja omistaa kaikki Liikkeeseenlaskijan osakkeet.

Takaajan keskeiset taloudelliset tiedot

Seuraavat keskeiset taloudelliset tiedot on poimittu Vontobel-konsernin tilikausien 2019 ja 2018 tilintarkastetuista konsolidoiduista tilinpäätöksistä sekä tilintarkastamattomista osavuosikatsauksista 30.6.2019 ja 30.6.2018, jotka on laadittu IFRS-normien mukaisesti.

Tuloslaskelma

	01.01.2019– 31.12.2019 (tarkastettu)	01.01.2018– 31.12.2018 (tarkastettu)	01.01.2019– 30.06.2019 (tarkastamaton)	01.01.2018– 30.06.2018 (tarkastamaton)

Investointien rahavirta	649,4 Mio. CHF	496,7 Mio. CHF	595,3 Mio. CHF

Takaajaan liittyvät olennaisimmat riskitekijät

Takaajaan liittyvät olennaisimmat riskitekijät voidaan tiivistää seuraavasti:

- Arvopaperinhaltijat kantavat Takaajan konkurssiin liittyvän riskin (maksulaiminlyönnin riski). Arvopaperinhaltijat altistuvat riskille, että Takaaja saattaa olla kyvytön täyttämään Arvopapereihin liittyvät velvoitteensa esimerkiksi maksuvalmiuteen liittyen (maksukyvyttömyys / ylivelkaisuus). Liikkeneeseenlaskijan ja takaajan maksukyvyttömyys voi johtaa myös Arvopaperinhaltijoiden arvopapereiden oston yhteydessä maksaman koko pääoman menettämiseen (täydellisen tappion riski). Lisäksi Arvopaperinhaltijoihin voi kohdistua Takaajaan liittyviä kriisinratkaisutoimenpiteitä, jos Takaaja on vaikeuksissa tai todennäköisesti ajautuu vaikeuksiin.
- Arvopaperinhaltijat kantavat riskin takaukseen liittyvien oikeusvaateiden täytäntöönpanosta, jotka voivat muun muassa lisätä aiheutuvia kustannuksia.

Arvopapereihin liittyvät keskeiset riskit

Arvopapereihin liittyvät keskeiset riskit voidaan tiivistää seuraavasti:

- Arvopapereiden maksuprofillista johtuvat riskit**
 - Täydellisen tappion riski: On hyvä huomata, että Arvopaperit ovat erityisen riskialttiita instrumentteja, joten sijoittaja voi menettää koko sijoittamansa pääoman (täydellisen tappion riski).
 - Vipuvaikutuksen aiheuttama epäsuhtainen menetsyriski: Yhteinen ominaisuus kaiken tyyppeille Kerroinindeksille on, että Viiteinstrumentin hinnan vaihtelut kerrotaan vipuvaikutuksen määrellä ("kerroin", "Factor"). Vipuvaikutuksen tuloksena Arvopaperit aiheuttavat epäsuhtaisia tappioriskejä. Sijoittajan on huomattava, että jopa Viiteinstrumentin sivuttaiset liikkeet (hinta nousee ja laskee jatkuvasti) voivat aiheuttaa hinnanmenetyksiä.
 - Käteismäärän tasoon liittyvät riskit / Arvopaperinhaltijan maksu käytöstä: Arvopapereiden osto antaa sijoittajalle oikeuden käteissumman maksuun, joka on laskettu tapauksittain ja riippuen sen Kohde-etuuden tuotosta, johon Arvopaperi on yhdistetty (suhdeluvulla kerrottuna). Ei ole takuita, että Arvopapereista saisi niiden vastaavan ostohinnan tai tietyn Arvopaperille määritellyn määrään.
 - Päivänsäisaineen indeksimukautukseen liittyvät riskit: Kaiken tyyppeisten Kerroinindeksien kuvaus tarjoaa päivänsäisäisen indeksimukautuksen, jos Indeksin tappiot nousevat tietyn kynnysarvon tai rajatason yli. Tämä mekanismi voi kuitenkin vain lieventää tulevia Indeksitappioita ja tulevia Arvopaperin arvoon liittyviä tappioita. Tappiot voivat olla merkittäviä. Sen vuoksi rajataso ei ole "turvaeste".
 - Rahoituskomponenttiin liittyvät riskit: Rahoituskomponentti huomioidaan Indeksin laskennassa. Rahoituskomponentit koostuvat kahdesta elementistä: (i) indeksipalkkiosta, joka vähentää aina Indeksin arvoa, ja (ii) tuloista ja kulujista, jotka syntyisivät, jos viiteinstrumenttiin tehdään teoreettinen, vipuvaikutuksella tehty sijoitus. Tulojen ja kulujen määätöt voivat muuttua ajan mittaan. Jos kulut ovat tuloa korkeammat, se vähentää Kerroinindeksin arvoa.
 - Indeksipalkkioriski: Sijoittajan on huomioitava, että Indeksin laskemiseksi Kerroinindeksin tasosta vähennetään jatkuva palkkio Kerroinindeksin laskemisesta ja hallinnoinnista. Indeksipalkkion vähennys aiheutuu yleensä Kerroinindeksin arvon vähennyksestä ja sen vuoksi myös Arvopapereista.

Arvopapereiden ehdosta johtuvat riskit

- Oikaisuihin, markkinahäiriöihin, säännönmukaiseen ja poikkeukselliseen eräännyttämiseen ja selvykseen liittyvät riskit: Arvopaperinhaltijat kantavat Arvopapereiden oikaisun tai eräännyttämiseen liittyvän riskin. Lisäksi on myös riski markkinahäiriöstä johtuvasta Arvopapereiden arvon alentumisesta. Markkinahäiriö voi myös viivästyttää Arvopapereiden lunastusta tai takaisin maksua. Jos Arvopapereiden ehdot mahdollistavat Liikkeeseenlaskijan suorittaman poikkeuksellisen eräännyttämisen, Arvopaperinhaltija kantaa tappion riskin siitä, että maksettavan eräännytyksen määrä vastaa Arvopapereiden markkinahintaa, joka voi olla jopa nolla. Arvopaperinhaltija kantaa eräännytykseen määrää liittyvän uudelleensijoittamisen riskin.

Arvopapereihin sijoittamiseen, omistamiseen ja myymiseen liittyvät riskit

- Arvopaperikauppaan liittyvät riskit, likviditeettiriski: Arvopaperinhaltijat kantavat riskin siitä, että likvidit markkinat arvopaperikaupalle puuttuvat. Tämä tarkoittaa, että Arvopaperinhaltijat eivät voi myydä Arvopapereita tiettyyn aikaan tai tiettyyn hintaan:

Arvopaperin hinnan määrittämiseen ja mahdollisiin eturistiriitoihin liittyvät riskit

- Mahdollisiin eturistiriitoihin liittyvät riskit: Liikkeeseenlaskijalla, Takaajalla ja muilla Vontobel-konsernin yhtiöillä voi olla myös muita etuja, jotka ovat ristiriidassa tai jotka eivät huomioi Arvopaperinhaltijoiden etuja. Nämä voivat liittyä muuhun toimintaan tai muiden toimien suorittamiseen. Mahdolliset eturistiriidot saattavat vaikuttaa haitallisesti Arvopapereiden arvoon ja/tai Arvopapereihin perustuvaan Käteismäärään.

Kohde-etuuteen ja Viiteinstrumenttiin liittyvät riskit

- Viiteinstrumenttiin sidoksissa olevaan Kerroinindeksiin liittyvät riskit: Arvopapereiden kehitys riippuu ensisijaisesti Kohde-etuuden Kerroinindeksistä, jonka kehitys puolestaan riippuu ensisijaisesti Viiteinstrumentin arvosta. Riskien toteutuminen voi johtaa täydelliseen tai osittaiseen sijoittajan sijoituksen menettämiseen riippuen siitä, miten nämä riskit vaikuttavat Viiteinstrumentin tasoon tai hintaan ja siten suoraan myös Kohde-etuuden arvoon.

Kaikkiin tai useisiin Kohde-etuukiin liittyvät riskit

- Psykologisiin vaikutuksiin liittyvät riskit: Kohde-etuuden hinta voi vaihdella voimakkaasti psykologisten vaikutusten vuoksi, jotka liittyvät esimerkiksi markkinoiden näkemyksiin, mielipiteisiin tai huhuihin, mikä puolestaan voi vaikuttaa Arvopapereiden kehitykseen.
- Volatiliteettiriski: Kohde-etuuden volatiliteetti voi aiheuttaa huomattavia Arvopaperitappioita.

Jakso D – Keskeiset tiedot Arvopapereiden yleisölle tarjoamisesta ja/tai kaupankäynnin kohteeksi ottamisesta säännellyllä markkinalla

Arvopaperiin sijoittamisen ehdot ja aikataulu

Tarjousehdot ja oletettu aikataulu

Arvopapereita tarjotaan alkaen 23. heinäkuuta 2020 in Suomessa.

(Alkuperäinen) liikkeeseenlaskuhinta on EUR 0,014. Arvopapereiden osto- ja myyntihinta on Markkinataakaajan määrittämä. Markkinataakaaja on Bank Vontobel Europe AG, Frankfurt Branch, Bockenheimer Landstraße 24, 60323 Frankfurt am Main, Saksa.

Arvopapereita ei saa tarjota eikä myydä, ellei kaikkia Arvopapereiden osto-, tarjous-, myynti- tai toimitusalueen tai tämän asiakirjan jakelu- tai säilytysalueen sovellettavia arvopaperilakeja ja -sääädöksiä noudateta ja samoin kaikkia sovellettavan lainsäädännön suostumuksia ja hyväksyntöjä oston, tarjouksen, myynnin tai toimituksen oikeustoimialueella, jossa Arvopaperit on hankittu.

Tiedot kaupankäynnin kohteeksi ottamisesta säännellyillä markkinoilla tai monenkeskisessä kaupankäyntijärjestelmässä (MTF)

Hakemus kaupankäynnin kohteeksi ottamisesta säännellyillä markkinoilla tai monenkeskisessä kaupankäyntijärjestelmässä (MTF) on tehty tai tullaan tekemään. Hyväksyntää ei tarvitse pitää voimassa jatkuvasti. Jos hyväksyntä raukeaa, Arvopapereiden ostaminen ja myyminen voi olla sijoittajalle huomattavasti hankalampaa. Jos hyväksyntä ylläpidetään, sijoittajien tulee muistaa, että sillä ei välttämättä ole yhteyttä vastaavien Arvopapereiden merkittäviin kaupankäyntivolyymiin. Arvopapereiden kaupankäyntiin sovelletaan useita erilaisia lakeja ja pörssisääntöjä. Ennen Arvopapereiden ostamista sijoittajien tulisi perehdyä sovellettaviin sääntöihin (esimerkiksi sellaisten kaupankäytitapahtumien peruuttaminen, jotka on tehty markkinahinnoista poikkeavaan hintaan, eli niin sanottu sääntöjen vastainen kauppa).

Sijoittajalta veloitettavat arvoidut kustannukset

Sijoittajat saavat lisätietoa heiltä veloitettavista palkkioista, provisioista, kuluista ja kustannuksista esimerkiksi pankiltaan, neuvonantajaltaan tai finanssipalveluntarjoajaltaan (jakelija) pyydettäessä.

Lisäksi Arvopapereiden tuotoista saatetaan periä tuloveroa ja Arvopaperivararat saattavat olla varallisuusveron tai muun verosääntelyn alaisia.

Tarjoaja ja/tai kaupankäynnin kohteeksi hyväksymistä pyytävä henkilö

Arvopapereiden tarjoaja on Bank Vontobel Europe AG, joka toimii Frankfurt am Mainin sivuliikkeensä välityksellä, Bockenheimer Landstraße 24, 60323 Frankfurt am Main. Tarjoaja on Saksan lakienv mukaan perustettu osakeyhtiö (AG), Tarjoajan rekisteröity toimipaikka on: Alter Hof 5, 80331, München, Saksa. Tarjoaja on rekisteröity paikallisen Münchenissä sijaitsevan tuomioistuimen kaupparekisteriin rekisteröintinumerolla HRB 133419. Tarjoajan oikeushenkilötunnus on (LEI) on 529900KKJ9XOK6WO4426.

Esitteen laadintaperusteet

Tiedot voittojen käyttötarkoituksesta ja arviodusta nettomäärästä

Arvopapereiden liikkeeseen laskeminen on Liikkeeseenlaskijan tavanomaista liiketoimintaa, jonka tarkoituksena on tuottaa voittoja ja / tai suojaa tiettyjä Liikkeeseenlaskijan riskejä.

Liikkeeseenlaskun merkintätakaussopimus

Arvopapereihin liittyvä sopimusta liikkeeseenlaskun merkintätakausksesta ei ole solmittu.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Liikkeeseenlaskijalla ja muilla Vontobel-konsernin yhtiöillä voi olla myös muita Arvopapereihin liittyviä etuja, jotka ovat risitriedassa tai jotka eivät huomioi Arvopaperinhaltijoiden etuja. Näin voi tapahtua muun toiminnan harjoittamiseen tai muiden toimien suorittamiseen liittyen.

Bank Vontobel Europe AG München tai muu Vontobel-konsernin yhtiö voi toimia Arvopapereiden markkinataakaajana. Markkinataakaaja vastaa arvopapereiden hintojen määrittämisestä ("markkinatakaaminen"). Markkinataakaajan määrittämät markkinahinnat eivät aina vastaa mahdollisia likvidien markkinoiden markkinataakaamattomia markkinahintoja.

Vontobel-konsernin yhtiöt voivat myös harjoittaa muuta Arvopapereihin liittyvää toimintaa, kuten toimia laskenta-asiamiehenä, indeksin laskenta-asiamiehenä, indeksin ylläpitäjänä tai osallistujana yksityisen indeksin/korin valintaprosessissa. Tällaisten toimintojen ansiosta Vontobel-konsernin yhtiöt voivat määrittää kohde-etuuden kokoonpanon tai laskea sen arvon.

Vontobel-konsernin yhtiöt voivat suorittaa myös kohde-etuuteen tai sen osatekijöihin liittyviä toimia. Tämä käsittää myös Liikkeeseenlaskijan suorittamat sellaiset toimet, jotka suojaavat Arvopapereihin perustuvia Liikkeeseenlaskijan velvoitteita. Yhden tai kaikkien näiden suojaumistointien päättäminen voi vaikuttaa Arvopapereiden arvoon. Vontobel-konsernin yhtiöt voivat saada kohde-etuuteen liittyvää ei-julkista tietoa, eivätkä yhtiöt ole velvollisia luovuttamaan tällaisia tietoja Arvopaperisijoittajille. Vontobel-konsernin yhtiöt voivat esimerkiksi laatia kohde-etuuteen tai sen osatekijöihin liittyviä tutkimusraportteja.
