Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the **"Knock-Out Event"**) during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the **"Knock-Out Time"**), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the

Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "IRS").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive

Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.

- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5

Underlying

- (1) The "**Underlying**" shall correspond to the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Observation Price**" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days. "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.

No. 6

Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the calculated value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants (referred to in the following as "**Adjustments**"), which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Knock-Out

Barrier, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.

In the event of an extraordinary dividend on the shares of an entity formed or incorporated in the United States as specified in paragraph (2)(e) of this No. 6, any adjustment in respect of the extraordinary dividend will be calculated by the Issuer net of any withholding tax required to be withheld under Section 871(m) of the U.S. Internal Revenue Code.

- (2) An "**Adjustment Event**" shall be:
- (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;
 - (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);
 - (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The same applies in the case of securities representing shares as the Underlying in particular in the case of the amendment or addition of the terms of the securities representing shares by its issuer. The Issuer shall

determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.

- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (5) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions. The same applies in the case of securities representing shares as the Underlying in particular in the case of insolvency of the custodian bank of the securities representing shares or at the end of the term of the securities representing shares due to a termination by the issuer of the securities representing shares.
- (6) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.

(2) "**Market Disruption Event**" shall mean

- (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
- (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.04 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risks in connection with shares as the underlying

The development of the share price cannot be predicted and is determined by macroeconomic factors, e.g. the interest rate and price level on capital markets, currency developments, political circumstances, as well as company-specific factors. Significant corporate policy decisions may also have a significant negative impact on the share price. In particular, the issuer of a share could get into payment difficulties and insolvency or comparable proceedings could be opened against its assets. Shares of companies with a low to medium market capitalisation may be subject to higher risks than shares of larger companies. Additional risks exist in the case of shares in companies with a registered office or business activity in countries with little legal certainty.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities

regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "CEA") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "CFTC Rules"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("Regulation S")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 0.33. This includes EUR 0.04 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positoiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintä on vastaavaa toteutushintaa korkeampi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään eräntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riskit osakkeista kohde-etuutena

Osakekurssin kehitystä ei voida ennustaa, ja sen määrittävät makrotaloudelliset tekijät, kuten esim. pääomamarkkinoiden korko- ja hintataso, valuuttakehitys, poliittiset olosuhteet sekä yrityskohtaiset tekijät. Tärkeät yrityspoliittiset päätökset voivat myös vaikuttaa erittäin negatiivisesti osakekurssiin. Erityisesti osakkeen liikkeellelaskija voi joutua maksuvaikeuksiin ja sen omaisuutta vastaan voidaan käynnistää maksukyvyttömyysmenettely tai vastaava. Alhaisen tai keski-suuren markkina-arvon omaavien yritysten osakkeisiin voi kohdistua suurempia riskejä kuin suurempien yritysten osakkeisiin. Lisäriskejä on sellaisten yritysten osakkeilla, joiden rekisteröity toimipaikka tai liiketoiminta on maissa, joiden oikeusvarmuus on alhainen.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai

Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("Securities Act") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("CEA") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("CFTC-säännöt"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("Regulation S") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "Sallittu Ostaja"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,33. Tämä sisältää EUR 0,04 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "Citigroup Group" tai "Citigroup") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määräysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkluderande av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfallodagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skälige bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med aktier som underliggande tillgång

Aktieprisets utveckling kan inte förutses och bestäms av makroekonomiska faktorer, till exempel räntesatsen och prisnivån på kapitalmarknaderna, valutans utveckling, politiska omständigheter samt företagsspecifika faktorer. Betydande företagspolitiska beslut kan också ha en betydande inverkan på aktiepriset. Emittenten av en aktie kan komma i betalningssvårigheter och insolvens eller liknande förfaranden kan inledas mot dess tillgångar. Aktier i företag med lågt till medelhögt börsvärde kan utsättas för högre risker än aktier i större företag. Ytterligare risker föreligger när det gäller aktier i bolag med säte eller verksamhet i länder med liten rättssäkerhet.

Med en "**Investerares med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överförs med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 0,33. Detta inkluderar EUR 0,04 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the

Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "IRS").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive

Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.

- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5 Underlying

- (1) The "**Underlying**" shall correspond to the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Observation Price**" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days. "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.

No. 6 Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the calculated value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants (referred to in the following as "**Adjustments**"), which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Knock-Out

Barrier, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.

In the event of an extraordinary dividend on the shares of an entity formed or incorporated in the United States as specified in paragraph (2)(e) of this No. 6, any adjustment in respect of the extraordinary dividend will be calculated by the Issuer net of any withholding tax required to be withheld under Section 871(m) of the U.S. Internal Revenue Code.

- (2) An "**Adjustment Event**" shall be:
- (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;
 - (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);
 - (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The same applies in the case of securities representing shares as the Underlying in particular in the case of the amendment or addition of the terms of the securities representing shares by its issuer. The Issuer shall

determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.

- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (5) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions. The same applies in the case of securities representing shares as the Underlying in particular in the case of insolvency of the custodian bank of the securities representing shares or at the end of the term of the securities representing shares due to a termination by the issuer of the securities representing shares.
- (6) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.

(2) "**Market Disruption Event**" shall mean

- (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
- (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risks in connection with shares as the underlying

The development of the share price cannot be predicted and is determined by macroeconomic factors, e.g. the interest rate and price level on capital markets, currency developments, political circumstances, as well as company-specific factors. Significant corporate policy decisions may also have a significant negative impact on the share price. In particular, the issuer of a share could get into payment difficulties and insolvency or comparable proceedings could be opened against its assets. Shares of companies with a low to medium market capitalisation may be subject to higher risks than shares of larger companies. Additional risks exist in the case of shares in companies with a registered office or business activity in countries with little legal certainty.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities

Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("Regulation S")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään eräntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riskit osakkeista kohde-etuutena

Osakekurssin kehitystä ei voida ennustaa, ja sen määrittävät makrotaloudelliset tekijät, kuten esim. pääomamarkkinoiden korko- ja hintataso, valuuttakehitys, poliittiset olosuhteet sekä yrityskohtaiset tekijät. Tärkeät yrityspoliittiset päätökset voivat myös vaikuttaa erittäin negatiivisesti osakekurssiin. Erityisesti osakkeen liikkeellelaskija voi joutua maksuvaikeuksiin ja sen omaisuutta vastaan voidaan käynnistää maksukyvyttömyysmenettely tai vastaava. Alhaisen tai keski-suuren markkina-arvon omaavien yritysten osakkeisiin voi kohdistua suurempia riskejä kuin suurempien yritysten osakkeisiin. Lisäriskejä on sellaisten yritysten osakkeilla, joiden rekisteröity toimipaikka tai liiketoiminta on maissa, joiden oikeusvarmuus on alhainen.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai

Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("Securities Act") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("CEA") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("CFTC-säännöt"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("Regulation S") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "Sallittu Ostaja"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,45. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "Citigroup Group" tai "Citigroup") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määräysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkluderande av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfallodagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med aktier som underliggande tillgång

Aktieprisets utveckling kan inte förutses och bestäms av makroekonomiska faktorer, till exempel räntesatsen och prisnivån på kapitalmarknaderna, valutans utveckling, politiska omständigheter samt företagsspecifika faktorer. Betydande företagspolitiska beslut kan också ha en betydande inverkan på aktiepriset. Emittenten av en aktie kan komma i betalningssvårigheter och insolvens eller liknande förfaranden kan inledas mot dess tillgångar. Aktier i företag med lågt till medelhögt börsvärde kan utsättas för högre risker än aktier i större företag. Ytterligare risker föreligger när det gäller aktier i bolag med säte eller verksamhet i länder med liten rättssäkerhet.

Erbjudande om Värdepapperen i Finland börjar den 19.11.2020.

Värdepapperen får erbjudas eller säljas endast om alla tillämpliga värdepapperslagar och regler gällande i den jurisdiktion där ett köp, erbjudande, försäljning eller leverans av Värdepapperen sker eller där detta dokument cirkuleras eller hålls för inspektion har följts, och om alla tillstånd eller godkännanden som krävs för köp, erbjudande, försäljning eller leverans av Värdepapperen i enlighet med de rättsliga normer som gäller i den jurisdiktionen har erhållits.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överföras till en Investerares med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investerares med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag, resulterar i ett brott mot liknande lagstiftning. Med en "**Investerares med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer

inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överförs med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 0,45. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the **"Knock-Out Event"**) during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the **"Knock-Out Time"**), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the

Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "IRS").

No. 3

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. - (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.

- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. No. 6

Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the

Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7
Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) **"Market Disruption Event"** shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the **"Futures Exchange"**);
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.20 costs incurred by the Issuer.

Information on the underlying

The Underlying is a benchmark within the meaning of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") and is provided by Deutsche Börse AG ("**Administrator**"). A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

SECTION C – KEY INFORMATION ON THE SECURITIES

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission

thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 1.46. This includes EUR 0.20 costs incurred by the Issuer. Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-tasoa vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindeksistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmissa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin

Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "Etuusjärjestelyn Sijoittajalla" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "Vastaava Laki" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("Securities Act") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("CEA") alaisuudessa, muutoksineen, ja sen alaisen

U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 1,46. Tämä sisältää EUR 0,20 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitalanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadspriserisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

AVSNITT D - NYCKELINFORMATION OM ERBJUDANDET AV VÄRDEPAPPER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1)

i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 1,46. Detta inkluderar EUR 0,20 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the **"Knock-Out Event"**) during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the **"Knock-Out Time"**), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the

Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "IRS").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive

Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.

- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days by the Relevant Index Calculator specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Index Calculator**"). The "**Observation Price**" of the Underlying shall correspond to the prices calculated and published for the Index on an ongoing basis by the Relevant Index Calculator on Trading Days (excluding prices calculated on the basis of the midday auction or of another intraday auction). "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.

No. 6

Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the

Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7
Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) **"Market Disruption Event"** shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the **"Futures Exchange"**);
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.20 costs incurred by the Issuer.

Information on the underlying

The Underlying is a benchmark within the meaning of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") and is provided by Deutsche Börse AG ("**Administrator**"). What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank *pari passu* in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission

thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-tasoa vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin

Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten

U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,96. Tämä sisältää EUR 0,20 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitalanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadspriserisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

Med en "**Investering med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses inneha plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1)

i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 0,96. Detta inkluderar EUR 0,20 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the **"Knock-Out Event"**) during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the **"Knock-Out Time"**), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the

Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "IRS").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive

Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.

- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5

Underlying

- (1) The "**Underlying**" shall correspond to the Index specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days by the Relevant Index Calculator specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Index Calculator**"). The "**Observation Price**" of the Underlying shall correspond to the prices calculated and published for the Index on an ongoing basis by the Relevant Index Calculator on Trading Days (excluding prices calculated on the basis of the midday auction or of another intraday auction). "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.

No. 6

Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the

Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7
Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.20 costs incurred by the Issuer.

Information on the underlying

The Underlying is a benchmark within the meaning of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") and is provided by Deutsche Börse AG ("**Administrator**"). As of the date of these Final Terms, the Administrator is listed in the register of administrators and benchmarks prepared and administered by the European Securities and Markets Authority in accordance with Article 36 of the Benchmark Regulation.

Publication of additional information

The Issuer does not intend to provide any additional information about the underlying.

A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

SECTION C – KEY INFORMATION ON THE SECURITIES

Rights attached to the Securities

Open End Turbo Bear Warrants with knock-out enable investors to positively participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also adversely participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike.

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bear Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bear Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike. If the reference price is equal to or higher than the strike, the Open End Turbo Bear Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or rises above the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or above the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable

discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC

Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 0.94. This includes EUR 0.20 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan.. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskiestä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bear-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta positiivista hyötyä kohde-etuuden negatiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden positiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai ylittää sen milloin tahansa tarkastelukauden tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintä on vastaavaa toteutushintaa alhaisempi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai ylittää knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelujankohdan kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdoissa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bear-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehinta on vastaavaa toteutushintaa alhaisempi. Jos viitehinta on yhtä suuri tai korkeampi kuin toteutushinta, Open End Turbo Bear-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on sama tai korkeampi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehinta on yhtä suuri tai korkeampi kuin Warrantin toteutushinta. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja

(2) eivätkä ole ”Yhdysvaltain henkilöitä” (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, ”**Sallittu Ostaja**”). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,94. Tämä sisältää EUR 0,20 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen ”**Citigroup Group**” tai ”**Citigroup**”) ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtenhet att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepappren

Open End Turbo Bear Warranter med knock-out ger investerare möjlighet att positivt delta i en negativ utveckling på den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också negativt deltar i en positiv utveckling på den underliggande tillgången på hävstångsbasis och de bär dessutom risken för att Open End Turbo Bear Warranter med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris.

Om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bear Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkluderande av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bear Warranter

Vid inlösen av investeraren eller efter Emittentens uppsägning erhåller investerare på förfallodagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris. Om referenspriset motsvarar eller överstiger lösenpriset, förfaller Open End Turbo Bear Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller överstiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerares bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären. Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller överstiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta

innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadsskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

"**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. No. 6 Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

Publication of additional information

The Issuer does not intend to provide any additional information about the underlying.

The Issuer will publish additional notices described in detail in the Terms and Conditions. A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require

notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan

subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such term is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 1.02. This includes EUR 0.10 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan.. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan

liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennalikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-tasoa vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmista tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennalikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit

yleensä etukäteän ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 1,02. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och

tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

AVSNITT D - NYCKELINFORMATION OM ERBJUDANDET AV VÄRDEPAPPER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 1,02. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå

affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadsskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Underlying

- (1) The "**Underlying**" shall correspond to the Index specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days by the Relevant Index Calculator specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Index Calculator**"). The "**Observation Price**" of the Underlying shall correspond to the prices calculated and published for the Index on

an ongoing basis by the Relevant Index Calculator on Trading Days (excluding prices calculated on the basis of the midday auction or of another intraday auction). "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.

No. 6 Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.09 costs incurred by the Issuer.

The Issuer does not intend to provide any additional information about the underlying.

The Issuer will publish additional notices described in detail in the Terms and Conditions. Examples of such notices are adjustments of the features of the Warrants as a result of adjustments relating to the underlying which may, for example, affect the conditions for calculating the cash amount or a replacement of the underlying. A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require

notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bear Warrants with knock-out enable investors to positively participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also adversely participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bear Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bear Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike. If the reference price is equal to or higher than the strike, the Open End Turbo Bear Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or rises above the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or above the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or

Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**"). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bear-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta positiivista hyötyä kohde-etuuden negatiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden positiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai ylittää sen milloin tahansa tarkastelukauden tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa alhaisempi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai ylittää knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelujankohdan kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdoissa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan

lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bear-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa alhaisempi. Jos viitehintaa on yhtä suuri tai korkeampi kuin toteutushintaa, Open End Turbo Bear-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on sama tai korkeampi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai korkeampi kuin Warrantin toteutushintaa. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdeavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan

lain rikkomukseen. **"Etuusjärjestelyn Sijoittajalla"** tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja **"Vastaava Laki"** tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktiona" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 2,54. Tämä sisältää EUR 0,09 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan

ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bear Warranter med knock-out ger investerare möjlighet att positivt delta i en negativ utveckling på den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också negativt deltar i en positiv utveckling på den underliggande tillgången på hävstångsbasis och de bär dessutom risken för att Open End Turbo Bear Warranter med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bear Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bear Warranter

Vid inlösen av investeraren eller efter Emittentens uppsägning erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris. Om referenspriset motsvarar eller överstiger lösenpriset, förfaller Open End Turbo Bear Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller överstiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären. Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller överstiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare pristrisk.

Marknadspriserisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

AVSNITT D - NYCKELINFORMATION OM ERBJUDANDET AV VÄRDEPAPPER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överförs till en Investerares med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investerares med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag,

resulterar i ett brott mot liknande lagstiftning. Med en "**Investerare med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 2,54. Detta inkluderar EUR 0,09 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar

inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b **Adjustment Amount**

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5
Underlying

- (1) The "**Underlying**" shall correspond to the Index specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days by the Relevant Index Calculator specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Index Calculator**"). The "**Observation Price**" of the Underlying shall correspond to the prices calculated and published for the Index on

an ongoing basis by the Relevant Index Calculator on Trading Days (excluding prices calculated on the basis of the midday auction or of another intraday auction). "**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.

No. 6 Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bear Warrants with knock-out enable investors to positively participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also adversely participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bear Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bear Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike. If the reference price is equal to or higher than the strike, the Open End Turbo Bear Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or rises above the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or above the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or

Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**"). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bear-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta positiivista hyötyä kohde-etuuden negatiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden positiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai ylittää sen milloin tahansa tarkastelukauden tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa alhaisempi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai ylittää knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelujankohdan kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdoissa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan

lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bear-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa alhaisempi. Jos viitehintaa on yhtä suuri tai korkeampi kuin toteutushintaa, Open End Turbo Bear-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on sama tai korkeampi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai korkeampi kuin Warrantin toteutushintaa. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdeavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("ERISA") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan

lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktiona" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 5,07. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan

ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bear Warranter med knock-out ger investerare möjlighet att positivt delta i en negativ utveckling på den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också negativt deltar i en positiv utveckling på den underliggande tillgången på hävstångsbasis och de bär dessutom risken för att Open End Turbo Bear Warranter med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bear Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för

Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bear Warranter

Vid inlösen av investeraren eller efter Emittentens uppsägning erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris. Om referenspriset motsvarar eller överstiger lösenpriset, förfaller Open End Turbo Bear Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller överstiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären. Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller överstiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare pristrisk.

Marknadspriserisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

Erbjudande om Värdepapperen i Finland börjar den 19.11.2020.

Värdepapperen får erbjudas eller säljas endast om alla tillämpliga värdepapperslagar och regler gällande i den jurisdiktion där ett köp, erbjudande, försäljning eller leverans av Värdepapperen sker eller där detta dokument cirkuleras eller hålls för inspektion har följts, och om alla tillstånd eller godkännanden som krävs för köp, erbjudande, försäljning eller leverans av Värdepapperen i enlighet med de rättsliga normer som gäller i den jurisdiktionen har erhållits.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överförs till en Investerares med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investerares med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag,

resulterar i ett brott mot liknande lagstiftning. Med en "**Investerare med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses inneha plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 5,07. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar

inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. No. 6 Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
- (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan

subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such term is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täyty velvollisuuksiaan.. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan

liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-tasoa vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmilla tapauksilla Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit

yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkluderande av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och

tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå

affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadsskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

"**Observation Hours**" shall be the Trading Hours. "**Trading Days**" shall be days on which the Index is normally calculated and published by the Relevant Index Calculator. "**Trading Hours**" shall be hours during which prices are normally calculated and published for the Index by the Relevant Index Calculator on Trading Days.

No. 6 Adjustments

- (1) The Strike, the Knock-Out Barrier and/or the Multiplier as well as the other features of the Warrants that are relevant for the calculation of the Cash Amount shall be subject to adjustment in accordance with the provisions below (referred to in the following as "**Adjustments**").
- (2) Changes in the calculation of the Underlying (including corrections) or in the composition or weighting of the prices or securities on the basis of which the Underlying is calculated shall not result in an adjustment of the Option Right unless, in the reasonable discretion of the Issuer, as a result of a change (including a correction) the new relevant concept and the calculation of the Underlying are no longer comparable with the previous relevant concept or the previous calculation of the Underlying. This shall apply in particular if a change of whatever nature results in a material change in the value of the Index even though the prices of the individual securities included in the Underlying and their weighting remain the same. The Option Right may also be adjusted in the event that the Underlying is discontinued and/or replaced by another Index. The Issuer shall adjust the Option Right in its reasonable discretion based on the most recently calculated price with the objective of preserving the financial value of the Warrants, and shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.
- (3) If the Index is discontinued at any time and/or replaced by another Index, the Issuer in its reasonable discretion shall specify the other Index as the Underlying which will be used in future for the Option Right (the "**Successor Index**"), where necessary adjusting the Option Right in accordance with paragraph (4) of this No. 6. Notice shall be given of the Successor Index and the date on which it first applies in accordance with No. 4 of the General Conditions. All references in these Terms and Conditions to the Index shall then be deemed, insofar as the context allows, to be references to the Successor Index.
- (4) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying and including any subsequent correction by the Relevant Index Calculator of the Reference Price or another price of the Underlying that is relevant in accordance with the Terms and Conditions, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change. Notice shall be given of the adjusted Option Right and the date on which it first applies in accordance with No. 4 of the General Conditions.

- (5) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published by the Relevant Index Calculator, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Relevant Index Calculator**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published by the New Relevant Index Calculator. In addition, all references in these Terms and Conditions to the Relevant Index Calculator shall then be deemed, insofar as the context allows, to be references to the New Relevant Index Calculator. The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.
- (6) If in the reasonable discretion of the Issuer it is not possible, for any reason whatsoever, to adjust the Option Right or to specify a Successor Index, then the Issuer or an expert appointed by the Issuer will be responsible for the continued calculation and publication of the Underlying on the basis of the existing index concept and the most recent value determined for the Index, subject to any Termination of the Warrants pursuant to No. 2 of the General Conditions. Notice shall be given of any continuation of this nature in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading generally on the exchanges or markets on which the components of the Index are listed or traded; or
 - (ii) the suspension or restriction of trading (including the lending market) in individual components of the Index on the respective exchanges or markets on which those assets are listed or traded, or in a futures or options contract relating to the Index on a Futures Exchange on which futures or options contracts relating to the Index are traded (the "**Futures Exchange**");
 - (iii) the suspension or non-calculation of the Index as the result of a decision by the Relevant Index Calculator,

if that suspension, restriction or non-calculation occurs or exists in the last half-hour before the calculation of the closing price of the Index or of the assets underlying the Index that would normally take place and is material, in the reasonable discretion of the Issuer, for the fulfillment of the obligations arising from the Warrants. A change in the Trading Days or Trading Hours on or during which trading takes place or the Index is calculated does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the exchange or in the rules for calculating the Index by the Relevant Index Calculator.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with indices as the underlying

The performance of the index depends mainly on the individual index constituents included in the respective index. During the term of the Securities, however, their market value may also diverge from the performance of the index or of the index constituents.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan

subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such term is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 1.59. This includes EUR 0.10 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täyty velvollisuuksiaan.. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan

liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennen aikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmilla tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennen aikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit

yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski indekseistä kohde-etuutena

Indeksin arvonkehitys riippuu pääasiallisesti vastaavan indeksin yksittäisistä osista. Arvopapereiden voimassaoloaikana niiden markkina-arvo voi kuitenkin poiketa indeksin tai sen osien arvonkehityksestä

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 1,59. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkluderande av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och

tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börserna för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med index som underliggande tillgång

Indexets resultat beror huvudsakligen på de enskilda indexbeståndsdelar som ingår i respektive index. Under Värdepapperens löptid kan dock deras marknadsvärde också avvika från indexets resultat eller beståndsdelar.

AVSNITT D - NYCKELINFORMATION OM ERBJUDANDET AV VÄRDEPAPPER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD

På vilka villkor och enligt vilken tidsplan kan jag investera i detta Värdepapper?

Värdepapperen erbjuds löpande over-the-counter i en serie.

Erbjudande om Värdepapperen i Finland börjar den 19.11.2020.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överföras till en Investering med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investering med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag, resulterar i ett brott mot liknande lagstiftning. Med en "**Investering med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses inneha plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 1,59. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå

affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

"**Valuation Date + 1**": not applicable

"**Valuation Date**": As specified in Table 2 of the Annex to the Issue Specific Conditions. If the Valuation Date is not a Trading Day, the next following Trading Day shall be the Valuation Date.

No. 2a
Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph.

The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and

- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4 Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

If the Screen Page is not available on the date specified or if the Reference

Price is not displayed, the Reference Price shall be the reference price displayed on the corresponding page of another financial information service. If the Reference Price is no longer displayed in one of the ways described above, the Issuer shall have the right to specify as the Reference Price a reference price calculated in its reasonable discretion on the basis of the market practices applying at that time and taking into account the prevailing market conditions. The "**Price Currency**" shall correspond to the Reference Currency specified in Table 2 of the Annex to the Issue Specific Conditions. The "**Base Currency**" shall correspond to the Base Currency specified in Table 2 of the Annex to the Issue Specific Conditions. The "**Observation Price**" of the Underlying shall correspond to the bid prices in case of Call, Bull and Long Warrants or ask prices in case of Put, Bear and Short Warrants for the Underlying, continuously displayed on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page, such price being determined by the Issuer in its reasonable discretion. If the Screen Page for the Observation Price is not available on the date specified or if the bid or ask price is not displayed, the Observation Price shall be the bid or ask price displayed on the corresponding page of another financial information service. "**Observation Hours**" shall be the period during which bid and ask prices for the Underlying are normally published on an ongoing basis on the Screen Page for the Observation Price. No. 6 Adjustments

- (1) If the Underlying has been modified due to conditions of the Reference Market or a third party or due to circumstances set out in the following paragraph, the Issuer shall have the right to adjust the features of the Warrants (referred to in the following as "**Adjustments**").
- (2) If one of the currencies (Price or Base Currency) of the Underlying has been replaced in its function as a legal means of payment within a country or a currency area by another currency as the result of measures or sanctions of any kind taken or imposed by a governmental or supervisory authority of such a country or such a currency area, the Issuer shall have the right to adjust these Terms and Conditions in such a way that all references to the relevant currency shall be deemed to be references to the replacement currency. In this context, amounts reported in the currency replaced shall be converted into the replacement currency at the official rate of conversion on the date of such replacement.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the features of the Warrants accordingly in its reasonable discretion. The Issuer shall

determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.

- (4) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.
- (5) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of foreign exchange trading in at least one of the currencies of the currency pair (including options and futures contracts) or the limitation of the convertibility of the currencies of the currency pair or the inability to obtain an exchange rate for the same on economically reasonable terms,

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.09 costs incurred by the Issuer.

Publication of additional information

The Issuer does not intend to provide any additional information about the underlying.

A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with exchange rates as the underlying

Exchange rates are subject to an extremely wide range of influencing factors. Examples include the rate of inflation in the particular country, differences in interest rates compared with other countries, the assessment of the performance of the respective economy, the global political situation, the convertibility of one currency into another, and the security of a monetary investment in the respective currency.

Special pricing risks in connection with the pricing of exchange rates

Perceived price indications for exchange rates in the international spot market are used for the determination of Knock-Out Events. As a rule, price indications are neither binding nor actually traded prices of the contributors and are not subject to supervisory control. The price indications may lead to less favourable prices for exchange rates than would actually be expected on the basis of the market situation and other factors. An unfavorable performance of an exchange rate may have a negative impact on the cash amount and can also lead to the occurrence of a Knock-Out Event, which results in a total economic loss.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 2.46. This includes EUR 0.09 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnannuutosten

seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana

tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti eräännyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa eräännympäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushintaa, Open End Turbo Bull-warrantti eräännyy arvottomana.

Warranttien toteutusajankohta eräännyy ennaikaisesti knock-out-ajankohtana, ja optio-oikeudet eräännyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushintaa. Molemmissa tapauksissa Warrantti eräännyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti eräännyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset

arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski valuuttakursseista kohde-etuutena

Valuuttakursseihin vaikuttaa suuri määrä erilaisia tekijöitä, kuten esimerkiksi tietyn maan inflaatioaste, korkojen erot muihin maihin verrattuna, kyseisen talouden suorituskyvyn arviointi, maailmanlaajuinen poliittinen tilanne, yhden valuutan vaihtokelpoisuus toiseen ja rahallisen sijoituksen turvallisuus kyseisessä valuutassa

Valuuttakurssien hinnoitteluun liittyvät erityiset hinnoitteluriskit

Kansainvälisten käteismarkkinoiden valuuttakurssien havaittuja hintaindikaatioita käytetään Knock-Out -tapahtumien määrittämiseen. Pääsääntöisesti hintaindikaatiot eivät ole sitovia eivätkä osallistujien todellisia kauppahintoja eikä niitä myöskään valvota. Hintaindikaatiot voivat johtaa valuuttakurssien suhteen alhaisempaan hintaan kuin mitä tosiasiallisesti odotettaisiin markkinatilanteen ja muiden tekijöiden perusteella. Valuuttakurssin epäsuotuisalla kehityksellä voi olla negatiivinen vaikutus käteissummaan ja se voi myös johtaa Knock-Out -tapahtumaan, mikä johtaa totaaliseen taloudelliseen tappioon.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktiona" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 2,46. Tämä sisältää EUR 0,09 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "Citigroup Group" tai "Citigroup") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig

likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en

hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det

är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. I fall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med valutakurser som underliggande tillgång

Valutakurser påverkas av ett mycket stort antal faktorer. Exempel på detta är inflationstakten i ett land, ränteskillnader jämfört med andra länder, bedömning av respektive ekonomi, den globala politiska situationen, en valutas konvertibilitet till en annan och säkerheten för monetära investeringar i respektive valuta.

Särskilda prisrisker i samband med prissättning av valutakurser

Uppskattade prisindikationer för valutakurser på den internationella spotmarknaden används för att fastställa Knock-Out händelser. I regel är prisindikationer varken bindande eller faktiskt omsatta priser för de medverkande och omfattas inte av tillsyns kontroll. Prisindikationerna kan leda till mindre förmånliga priser för växelkurser än på grundval av

marknadssituationen och andra faktorer. Ogynnsamma resultat för valutakursen kan ha en negativ inverkan på kontantbeloppet och kan också leda till en Knock-Out Händelse, som leder till en total ekonomisk förlust.

Erbjudande om Värdepapperen i Finland börjar den 19.11.2020.

Värdepapperen får erbjudas eller säljas endast om alla tillämpliga värdepapperslagar och regler gällande i den jurisdiktion där ett köp, erbjudande, försäljning eller leverans av Värdepapperen sker eller där detta dokument cirkuleras eller hålls för inspektion har följts, och om alla tillstånd eller godkännanden som krävs för köp, erbjudande, försäljning eller leverans av Värdepapperen i enlighet med de rättsliga normer som gäller i den jurisdiktionen har erhållits.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överföras till en Investering med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investering med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag, resulterar i ett brott mot liknande lagstiftning. Med en "**Investering med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 2,46. Detta inkluderar EUR 0,09 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadsskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. - (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. The Issuer shall

determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.

- (4) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.

The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.09 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bear Warrants with knock-out enable investors to positively participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also adversely participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bear Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bear Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike. If the reference price is equal to or higher than the strike, the Open End Turbo Bear Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or rises above the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or above the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with exchange rates as the underlying

Exchange rates are subject to an extremely wide range of influencing factors. Examples include the rate of inflation in the particular country, differences in interest rates compared with other countries, the assessment of the performance of the respective economy, the global political situation, the convertibility of one currency into another, and the security of a monetary investment in the respective currency.

Special pricing risks in connection with the pricing of exchange rates

Perceived price indications for exchange rates in the international spot market are used for the determination of Knock-Out Events. As a rule, price indications are neither binding nor actually traded prices of the contributors and are not subject to supervisory control. The price indications may lead to less favourable prices for exchange rates than would actually be expected on the basis of the market situation and other factors. An unfavorable performance of an exchange rate may have a negative impact on the cash amount and can also lead to the occurrence of a Knock-Out Event, which results in a total economic loss.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 2.78. This includes EUR 0.09 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten

seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bear-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta positiivista hyötyä kohde-etuuden negatiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden positiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai ylittää sen milloin tahansa tarkastelukauden tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa alhaisempi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai ylittää knock-out-tason milloin tahansa tarkastelukauden aikana

tarkasteluajankohdan kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti eräännyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdoissa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bear-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija purkaa Warrantin, sijoittaja saa eräännympäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa alhaisempi. Jos viitehintaa on yhtä suuri tai korkeampi kuin toteutushintaa, Open End Turbo Bear-warrantti eräännyy arvottomana.

Warranttien toteutusajankohta eräännyy ennakkoarvotuksella knock-out-ajankohtana, ja optio-oikeudet eräännyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on sama tai korkeampi kuin knock-out-tasoa vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai korkeampi kuin Warrantin toteutushintaa. Molemmilla tapauksilla Warrantti eräännyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti eräännyy ennakkoarvotuksella arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen

seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riski valuuttakursseista kohde-etuutena

Valuuttakursseihin vaikuttaa suuri määrä erilaisia tekijöitä, kuten esimerkiksi tietyn maan inflaatioaste, korkojen erot muihin maihin verrattuna, kyseisen talouden suorituskyvyn arviointi, maailmanlaajuinen poliittinen tilanne, yhden valuutan vaihtokelpoisuus toiseen ja rahallisen sijoituksen turvallisuus kyseisessä valuutassa

Valuuttakurssien hinnoitteluun liittyvät erityiset hinnoitteluriskit

Kansainvälisten käteismarkkinoiden valuuttakurssien havaittuja hintaindikaatioita käytetään Knock-Out -tapahtumien määrittämiseen. Pääsääntöisesti hintaindikaatiot eivät ole sitovia eivätkä osallistujien todellisia kauppahintoja eikä niitä myöskään valvota. Hintaindikaatiot voivat johtaa valuuttakurssien suhteen alhaisempaan hintaan kuin mitä tosiasiallisesti odotettaisiin markkinatilanteen ja muiden tekijöiden perusteella. Valuuttakurssin epäsuotuisalla kehityksellä voi olla negatiivinen vaikutus käteissummaan ja se voi myös johtaa Knock-Out -tapahtumaan, mikä johtaa totaaliseen taloudelliseen tappioon.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 2,78. Tämä sisältää EUR 0,09 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostarjousveloitteen sisältävää julkista ostarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "Citigroup Group" tai "Citigroup") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bear Warranter med knock-out ger investerare möjlighet att positivt delta i en negativ utveckling på den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också negativt deltar i en positiv utveckling på den underliggande tillgången på hävstångsbasis och de bär dessutom risken för att Open End Turbo Bear Warranter med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bear Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bear Warranter

Vid inlösen av investeraren eller efter Emittentens uppsägning erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris. Om referenspriset motsvarar eller överstiger lösenpriset, förfaller Open End Turbo Bear Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller överstiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären. Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller överstiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med valutakurser som underliggande tillgång

Valutakurser påverkas av ett mycket stort antal faktorer. Exempel på detta är inflationstakten i ett land, ränteskillnader jämfört med andra länder, bedömning av respektive ekonomi, den globala politiska situationen, en valutas konvertibilitet till en annan och säkerheten för monetära investeringar i respektive valuta.

Särskilda prisrisker i samband med prissättning av valutakurser

Uppskattade prisindikationer för valutakurser på den internationella spotmarknaden används för att fastställa Knock-Out händelser. I regel är prisindikationer varken bindande eller faktiskt omsatta priser för de medverkande och omfattas inte av tillsynskontroll. Prisindikationerna kan leda till mindre förmånliga priser för växelkurser än på grundval av marknadssituationen och andra faktorer. Ogynnsamma resultat för valutakursen kan ha en negativ inverkan på kontantbeloppet och kan också leda till en Knock-Out Händelse, som leder till en total ekonomisk förlust.

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the

Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.

- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4 Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount

in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.

- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

- (1) The "**Underlying**" shall correspond to the commodity specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions.
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price of the Underlying specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Reference Market specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Reference Market**") and displayed on the Screen Page of the specified financial information service for the Reference Price specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page**") or a substitute page. If the Screen Page is not available on the date specified or if the Reference Price is not displayed, the Reference Price shall be the reference price displayed on the corresponding page of another financial information service. If the Reference Price is no longer displayed in one of the ways described above, the Issuer shall have the right to specify as the Reference Price a reference price calculated in its reasonable discretion on the basis of the market practices applying at that time and taking into account the prevailing market conditions. The "**Observation Price**" of the Underlying shall correspond to the bid prices in case of Call, Bull and Long Warrants or ask prices in case of Put, Bear and Short Warrants for the Underlying as determined by the

Issuer in its reasonable discretion, continuously displayed on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page. If the Screen Page for the Observation Price is not available on the date specified or if the bid or ask price is not displayed, the Observation Price shall be the bid or ask price displayed on the corresponding page of another financial information service. "**Observation Hours**" shall be the period during which bid and ask prices for the Underlying are normally published continuously on the Screen Page for the Observation Price. "**Trading Days**" shall be days on which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market. "**Trading Hours**" shall be hours during which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market.

No. 6 Adjustments

- (1) If the Underlying has been modified due to conditions imposed by the Reference Market or a third party or due to circumstances set out in the following paragraph, the Issuer shall have the right to adjust the features of the Warrants (referred to in the following as "**Adjustments**").
- (2) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the features of the Warrants accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (3) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.
- (4) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7 Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which

fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.

(2) "**Market Disruption Event**" shall mean

- (i) the suspension or restriction of trading in or price-setting for the Underlying on the Reference Market, or
- (ii) the suspension or restriction of trading in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**").

A restriction of the trading period or Trading Days on the Reference Market shall not constitute a Market Disruption Event if it is based on a previously announced change.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.09 costs incurred by the Issuer.

As of the date of these Final Terms, the Administrator is listed in the register of administrators and benchmarks prepared and administered by the European Securities and Markets Authority in accordance with Article 36 of the Benchmark Regulation.

Publication of additional information

The Issuer does not intend to provide any additional information about the underlying.

The Issuer will publish additional notices described in detail in the Terms and Conditions. Examples of such notices are adjustments of the features of the Warrants as a result of adjustments relating to the underlying which may, for example, affect the conditions for calculating the cash amount or a replacement of the underlying. A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with commodities as the underlying

The factors affecting the prices of raw materials are numerous and complicated. Factors reflected in prices of raw materials are, among other things, supply and demand, direct investment costs, warehousing costs, liquidity, weather and natural disasters, political risks as well as taxation.

Special pricing risks in connection with the pricing of commodities

Perceived price indications for commodities in the international spot market are used for the determination of Knock-Out Events. As a rule, price indications are neither binding nor actually traded prices of the contributors and are not subject to supervisory control. The price indications may lead to less favourable prices for commodities than would actually be expected on the basis of the market situation and other factors. An unfavorable performance of a commodity may have a negative impact on the cash amount and can also lead to the occurrence of a Knock-Out Event, which results in a total economic loss.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended

("ERISA") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 8.78. This includes EUR 0.09 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnannuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska

vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehinta on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa eräänymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertomella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushintaa, Open End Turbo Bull-warrantti eräännyy arvottomana.

Warranttien toteutusajankohta eräännyy ennen aikaisesta knock-out-ajankohtana, ja optio-oikeudet eräännyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakausta") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushintaa. Molemmissa tapauksissa Warrantti eräännyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakausta kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti eräännyy ennen aikaisesta arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Raaka-aineisiin liittyvä riski kohde-etuutena

Raaka-aineiden hintoihin vaikuttavat tekijät ovat lukuisia ja monimutkaisia. Raaka-aineiden hintoihin vaikuttavia tekijöitä ovat muun muassa kysyntä ja tarjonta, suorat investointikustannukset, varastointikustannukset, maksuvalmius, sää- ja luonnonkatastrofit, poliittiset riskit sekä verotus.

Raaka-aineiden hinnoitteluun liittyvät erityiset hinnoitteluriskit

Kansainvälisten käteismarkkinoiden raaka-aineiden havaittuja hintaindikaatioita käytetään Knock-Out -tapahtumien määrittämiseen. Pääsääntöisesti hintaindikaatiot eivät ole sitovia eivätkä osallistujien todellisia kauppahintoja eikä niitä myöskään valvota. Hintaindikaatiot voivat johtaa raaka-aineiden suhteen alhaisempaan hintaan kuin mitä tosiasiallisesti odotettaisiin markkinatilanteen ja muiden tekijöiden perusteella. Raaka-aineen epäsuotuisalla kehityksellä voi olla negatiivinen vaikutus käteissummaan ja se voi myös johtaa Knock-Out -tapahtumaan, mikä johtaa totaaliseen taloudelliseen tappioon.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai

toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kuin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 8,78. Tämä sisältää EUR 0,09 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia

liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid

eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller

uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-

händelse inträffar som ett resultat därav, resulterar det i betydande prISRISKE för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskeXponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prISRISKE.

MarknadsprISRISKE

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med råvaror som underliggande tillgång

De faktorer som påverkar råvarupriserna är många och komplicerade. Faktorer som återspeglas i råvarupriserna är bland annat tillgångs- och efterfrågekostnader, direkta investeringskostnader, lagerkostnader, likviditet, väder och naturkatastrofer, politiska risker samt beskattning

Risk I samband med prissättning av råvaror

Uppskattade prisindikationer för råvaror på den internationella spotmarknaden används för att fastställa Knock-Out händelser. I regel är prisindikationer varken bindande eller faktiskt omsatta priser för de medverkande och omfattas inte av tillsyns kontroll. Prisindikationerna kan leda till mindre förmånliga priser för råvaror än på grundval av marknadssituationen och andra faktorer. O gynnsamma resultat för råvaror kan ha en negativ inverkan på kontantbeloppet och kan också leda till en Knock-Out Händelse, som leder till en total ekonomisk förlust.

AVSNITT D - NYCKELINFORMATION OM ERBJUDANDET AV VÄRDEPAPPER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD

På vilka villkor och enligt vilken tidsplan kan jag investera i detta Värdepapper?

Värdepapperen erbjuds löpande over-the-counter i en serie.

Erbjudande om Värdepapperen i Finland börjar den 19.11.2020.

Värdepapperen får erbjudas eller säljas endast om alla tillämpliga värdepapperslagar och regler gällande i den jurisdiktion där ett köp, erbjudande, försäljning eller leverans av Värdepapperen sker eller där detta dokument cirkuleras eller hålls för inspektion har följts, och om alla tillstånd eller godkännanden som krävs för köp, erbjudande, försäljning eller leverans av Värdepapperen i enlighet med de rättsliga normer som gäller i den jurisdiktionen har erhållits.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överföras till en Investering med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investering med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag, resulterar i ett brott mot liknande lagstiftning. Med en "**Investering med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen har inte varit och kommer inte heller att bli registrerade enligt den amerikanska värdepapperslagen United States Securities Act 1933 med ändringar ("**Värdepapperslagen**") eller hos någon annan värdepappersmyndighet i någon delstat eller annan jurisdiktion i USA, Emittenten har inte registrerats och kommer inte heller att bli registrerad som "investment company" enligt den amerikanska lagen om investeringsbolag U.S. Investment Company Act från 1940 med ändringar med tillämpning av § 3(c)(7) och ingen person har registrerats eller kommer att bli registrerad som Emittentens "commodity pool operator" under den amerikanska lagen om varubörser U.S. Commodity Exchange Act med ändringar ("**CEA**") och anknutna föreskrifter från Commodity Futures Trading Commission ("**CFTC-föreskrifter**"). Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 8,78. Detta inkluderar EUR 0,09 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadsskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. - (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the

Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. - (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4 Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

"**Observation Hours**" shall be the period during which bid and ask prices for the Underlying are normally published continuously on the Screen Page for the Observation Price. "**Trading Days**" shall be days on which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market. "**Trading Hours**" shall be hours during which prices are normally calculated for the Underlying on the Reference Market and published on the relevant Screen Page for the Reference Market.

No. 6 Adjustments

- (1) If the Underlying has been modified due to conditions imposed by the Reference Market or a third party or due to circumstances set out in the following paragraph, the Issuer shall have the right to adjust the features of the Warrants (referred to in the following as "**Adjustments**").
- (2) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the features of the Warrants accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (3) In the event that the Reference Price or other prices that are relevant for the Underlying in accordance with these Terms and Conditions are no longer calculated and published on the Reference Market, but by another person, company or institution which the Issuer considers suitable in its reasonable discretion (the "**New Reference Market**"), then the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Reference Market. In addition, all references in these Terms and Conditions to the Reference Market shall then be deemed, insofar as the context allows, to be references to the New Reference Market.
- (4) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7 Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which

fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.

(2) "**Market Disruption Event**" shall mean

- (i) the suspension or restriction of trading in or price-setting for the Underlying on the Reference Market, or
- (ii) the suspension or restriction of trading in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**").

A restriction of the trading period or Trading Days on the Reference Market shall not constitute a Market Disruption Event if it is based on a previously announced change.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

Publication of additional information

The Issuer does not intend to provide any additional information about the underlying.

Examples of such notices are adjustments of the features of the Warrants as a result of adjustments relating to the underlying which may, for example, affect the conditions for calculating the cash amount or a replacement of the underlying. A further example is the early redemption of the Warrants if an adjustment cannot be made.

Notices under these Terms and Conditions are generally published on the Issuer's website. If and to the extent that mandatory provisions of the applicable laws or exchange regulations require notices to be published elsewhere, they will also be published, where necessary, in the place prescribed in each case.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bear Warrants with knock-out enable investors to positively participate on a disproportionate (leveraged) basis in the negative performance of the underlying.

In return, however, they also adversely participate on a leveraged basis in any positive performance of the underlying and in addition bear the risk that the Open End Turbo Bear Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or exceeds the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bear Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bear Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is lower than the respective strike. If the reference price is equal to or higher than the strike, the Open End Turbo Bear Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or rises above the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or above the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with commodities as the underlying

The factors affecting the prices of raw materials are numerous and complicated. Factors reflected in prices of raw materials are, among other things, supply and demand, direct investment costs, warehousing costs, liquidity, weather and natural disasters, political risks as well as taxation.

Special pricing risks in connection with the pricing of commodities

Perceived price indications for commodities in the international spot market are used for the determination of Knock-Out Events. As a rule, price indications are neither binding nor actually traded prices of the contributors and are not subject to supervisory control. The price indications may lead to less favourable prices for commodities than would actually be expected on the basis of the market situation and other factors. An unfavorable performance of a commodity may have a negative impact on the cash amount and can also lead to the occurrence of a Knock-Out Event, which results in a total economic loss.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended

("ERISA") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 4.04. This includes EUR 0.10 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnannuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska

vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bear-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta positiivista hyötyä kohde-etuuden negatiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden positiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai ylittää sen milloin tahansa tarkastelukauden tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalta kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehinta on vastaavaa toteutushintaa alhaisempi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai ylittää knock-out-tason milloin tahansa tarkastelukauden aikana tarkasteluajankohdan kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bear-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdoissa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bear-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija purkaa Warrantin, sijoittaja saa eräänymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa alhaisempi. Jos viitehintaa on yhtä suuri tai korkeampi kuin toteutushintaa, Open End Turbo Bear-warrantti eräännyy arvottomana.

Warranttien toteutusaika eräännyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet eräännyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on sama tai korkeampi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai korkeampi kuin Warrantin toteutushintaa. Molemmassa tapauksissa Warrantti eräännyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti eräännyy ennenaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvomuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvomuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvomuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu

välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvomuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Raaka-aineisiin liittyvä riski kohde-etuutena

Raaka-aineiden hintoihin vaikuttavat tekijät ovat lukuisia ja monimutkaisia. Raaka-aineiden hintoihin vaikuttavia tekijöitä ovat muun muassa kysyntä ja tarjonta, suorat investointikustannukset, varastointikustannukset, maksuvalmius, sää- ja luonnonkatastrofit, poliittiset riskit sekä verotus.

Raaka-aineiden hinnoitteluun liittyvät erityiset hinnoitteluriskit

Kansainvälisten käteismarkkinoiden raaka-aineiden havaittuja hintaindikaatioita käytetään Knock-Out -tapahtumien määrittämiseen. Pääsääntöisesti hintaindikaatiot eivät ole sitovia eivätkä osallistujien todellisia kauppahintoja eikä niitä myöskään valvota. Hintaindikaatiot voivat johtaa raaka-aineiden suhteen alhaisempaan hintaan kuin mitä tosiasiallisesti odotettaisiin markkinatilanteen ja muiden tekijöiden perusteella. Raaka-aineen epäsuotuisalla kehityksellä voi olla negatiivinen vaikutus käteissummaan ja se voi myös johtaa Knock-Out -tapahtumaan, mikä johtaa totaaliseen taloudelliseen tappioon.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act –lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktiona" (sitien, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (sitien, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 4,04. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten

arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda

riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bear Warranter med knock-out ger investerare möjlighet att positivt delta i en negativ utveckling på den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också negativt deltar i en positiv utveckling på den underliggande tillgången på hävstångsbasis och de bär dessutom risken för att Open End Turbo Bear Warranter med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfallodagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller överstiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bear Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bear Warranter

Vid inlösen av investeraren eller efter Emittentens uppsägning erhåller investerare på förfallodagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen understiger respektive lösenpris. Om referenspriset motsvarar eller överstiger lösenpriset, förfaller Open End Turbo Bear Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller överstiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären. Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller överstiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med råvaror som underliggande tillgång

De faktorer som påverkar råvarupriserna är många och komplicerade. Faktorer som återspeglas i råvarupriserna är bland annat tillgångs- och efterfrågekostnader, direkta investeringskostnader, lagerkostnader, likviditet, väder och naturkatastrofer, politiska risker samt beskattning

Risk I samband med prissättning av råvaror

Uppskattade prisindikationer för råvaror på den internationella spotmarknaden används för att fastställa Knock-Out händelser. I regel är prisindikationer varken bindande eller faktiskt omsatta priser för de medverkande och omfattas inte av tillsynskontroll. Prisindikationerna kan leda till mindre förmånliga priser för råvaror än på grundval av marknadssituationen och andra faktorer. Ogynnsamma resultat för råvaror kan ha en negativ inverkan på kontantbeloppet och kan också leda till en Knock-Out Händelse, som leder till en total ekonomisk förlust.

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 4,04. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

No. 2a Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the **"Knock-Out Event"**) during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the **"Knock-Out Time"**), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b

Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the

Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant

Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.

- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months

after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

**No. 5
Underlying**

- (1) The "**Underlying**" shall correspond to the futures contract specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions with the Relevant Expiry Month of those defined in Table 2 of the Annex to the Issue Specific Conditions next following the Issue Date in respect of which a Roll Date (No. 2 (3) of the Issue Specific Conditions) has not yet occurred on the Issue Date.
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price of the Underlying specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Daily Settlement Price**" of the Underlying shall correspond to the Daily Settlement Price of the Underlying as determined on the Relevant Exchange. The "**Observation Price**" of the Underlying shall correspond to the prices for the Underlying by the Issuer in its reasonable discretion, displayed on an ongoing basis on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page. If the Screen Page for the Observation Price is not available on the date specified or if the price is not displayed, the Observation Price shall be the price displayed on the corresponding page of another financial information service. "**Observation Hours**" shall be the period during which prices for the Underlying are normally published continuously on the Screen Page for the Observation Price. "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.
- (3) The futures contract will be replaced in each case on a Rollover Date by a futures contract with the same contract specifications such that the expiry date of the new relevant futures contract corresponds in each case to the nearest Relevant Expiry Month specified in Table 2 of the Annex to the Issue Specific Conditions. The Strike is adjusted in each case on the Roll Date. The Adjustment shall be affected by determining the result, rounded to at least three (3) decimal places, of the following calculation as the new Strike:

in the case of Open End Turbo Bull Warrants:

$$\text{Strike(new)} = \text{Strike(old)} - (\text{RK(old)} - G) + (\text{RK(new)} + G)$$

in the case of Open End Turbo Bear Warrants:

$$\text{Strike(new)} = \text{Strike(old)} - (\text{RK(old)} + G) + (\text{RK(new)} - G)$$

whereby the terms used in the formula shall have the following meaning:

"**Strike(old)**" is the relevant Strike of the Warrants before adjustments according to this paragraph.

"**RK(old)**" corresponds to the Daily Settlement Price on the Rollover Date for the futures contract to be replaced.

"**RK(new)**" corresponds to the Daily Settlement Price on the Rollover Date for the new futures contract.

"**G**" corresponds to transaction fees incurred for the replacement of the futures contract which will be specified by the Issuer at its reasonable discretion. The transaction fees per unit of the Underlying will not exceed the Maximum Transaction Fee specified in Table 2 of the Annex of the Issue Specific Conditions.

The Knock-Out Barrier will be adjusted on the Roll Date pursuant to No. 2b (2) of the Issue Specific Conditions following the adjustment of the Strike.

No. 6 Adjustments

- (1) If the Underlying has been modified due to circumstances set out in the following paragraphs, the Issuer shall have the right to adjust the features of the Warrants (referred to in the following as "**Adjustments**").
- (2) If, during the term of the Warrants, changes are made to the concept on which the futures contract is based which are so fundamental that it is no longer comparable with the previous concept as determined by the Issuer in its reasonable discretion, or if trading in the futures contracts is permanently discontinued on the Relevant Exchange, the Issuer will determine a theoretical daily settlement price for each business day of the Relevant Exchange from the date when the changes occur onward. The price shall be determined on the basis of the method of calculation currently used to determine the theoretical contract value (fair value) of the futures contract. In the event that a theoretical daily settlement price is determined, it shall be deemed to be a daily settlement price within the meaning of these Terms and Conditions.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and

Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.

- (5) If the Issuer determines that the continued calculation of the value of the Underlying in accordance with paragraph (2) of this No. 6 is not possible or that, following a change in the Conditions or the tradability of the Underlying, it is not possible for other reasons to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions.
- (6) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) a material change to the method of price-setting or the trading conditions with respect to the Underlying on the Relevant Exchange.

A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time. A knock-out event may also occur in connection with a rollover.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with futures contracts as the underlying

In general, there is a close correlation between the development of the price of an underlying on the cash market and on the corresponding futures market. Since the Securities are relating to the quoted price of the underlying futures contracts, knowledge of the method of operation of forward transactions and of the factors affecting their valuation is necessary to enable an accurate assessment to be made of the risks associated with the purchase of these Securities, in addition to knowledge about the market for the underlying on which the respective futures contract is based.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and

subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**"). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä

vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana. Knock-out-tapahtuma voi toteutua myös rullauksen yhteydessä.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaumus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaumus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Futuurisopimukseen liittyvä riski kohde-etuutena

Yleensä kohde-etuuden hintakehityksessä on läheinen korrelaatio käteismarkkinoiden ja vastaavien futuurimarkkinoiden välillä. Koska Arvopaperit liittyvät kohde-etuutena olevien futuurisopimusten noteerattuun hintaan, termiinkauppojen toimintatavan ja niiden arvonmäärittämiseen vaikuttavien tekijöiden tuntemus on välttämätöntä, jotta kyseisten Arvopapereiden ostamiseen liittyvät riskit voidaan arvioida tarkasti sen lisäksi, että tunnetaan kohde-etuuksien markkinat, joihin kyseinen futuurisopimus perustuu.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,67. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden. En knockout-händelse kan också inträffa i samband med en rollover.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten.

Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med terminskontrakt som underliggande tillgång

I allmänhet finns det ett nära samband mellan utvecklingen av priset på en underliggande tillgång på kontantmarknaden och motsvarande terminsmarknad. Eftersom Värdepapperen hänför sig till det noterade priset på underliggande terminskontrakt är det nödvändigt att känna till hur terminstransaktioner fungerar och vilka faktorer som påverkar deras värdering för att kunna göra en korrekt bedömning av riskerna i samband med köp av dessa Värdepapper, utöver kunskap om marknaden för den underliggande tillgången som respektive terminskontrakt baseras på.

I synnerhet kan Värdepapperen inte köpas eller innehas av eller överföras till en Investering med en förmånsplan eller en plan som omfattas av liknande lag såvida köpet eller innehavet av Värdepapperen inte, för en Investering med en förmånsplan, ger upphov till en icke-undantagen förbjuden transaktion enligt Section 406 i den amerikanska lagen om inkomstförsäkring för anställda U.S. Employee Retirement Income Security Act of 1974 med ändringar ("**ERISA**") eller Section 4975 i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 ("**Code**"), eftersom sådant köp eller innehav uppfyller kriterierna för befrielse under ett tillämpligt undantag för förbjuden transaktion eller, i fallet med en plan som lyder under liknande lag, resulterar i ett brott mot liknande lagstiftning. Med en "**Investering med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses innehålla plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions" (såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 0,67. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå

affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. - (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.
- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the

Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg 16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
- the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
- Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.

- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant

Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.

- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4

Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months

after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

**No. 5
Underlying**

- (1) The "**Underlying**" shall correspond to the futures contract specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions with the Relevant Expiry Month of those defined in Table 2 of the Annex to the Issue Specific Conditions next following the Issue Date in respect of which a Roll Date (No. 2 (3) of the Issue Specific Conditions) has not yet occurred on the Issue Date.
- (2) The "**Reference Price**" of the Underlying shall correspond to the Reference Price of the Underlying specified in Table 1 of the Annex to the Issue Specific Conditions, as determined on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Daily Settlement Price**" of the Underlying shall correspond to the Daily Settlement Price of the Underlying as determined on the Relevant Exchange. The "**Observation Price**" of the Underlying shall correspond to the prices for the Underlying by the Issuer in its reasonable discretion, displayed on an ongoing basis on the screen page specified for the Observation Price in Table 2 of the Annex to the Issue Specific Conditions (the "**Screen Page for the Observation Price**") or a substitute page. If the Screen Page for the Observation Price is not available on the date specified or if the price is not displayed, the Observation Price shall be the price displayed on the corresponding page of another financial information service. "**Observation Hours**" shall be the period during which prices for the Underlying are normally published continuously on the Screen Page for the Observation Price. "**Trading Days**" shall be days on which the Underlying is normally traded on the Relevant Exchange. "**Trading Hours**" shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.
- (3) The futures contract will be replaced in each case on a Rollover Date by a futures contract with the same contract specifications such that the expiry date of the new relevant futures contract corresponds in each case to the nearest Relevant Expiry Month specified in Table 2 of the Annex to the Issue Specific Conditions. The Strike is adjusted in each case on the Roll Date. The Adjustment shall be affected by determining the result, rounded to at least three (3) decimal places, of the following calculation as the new Strike:

in the case of Open End Turbo Bull Warrants:

$$\text{Strike(new)} = \text{Strike(old)} - (\text{RK(old)} - G) + (\text{RK(new)} + G)$$

in the case of Open End Turbo Bear Warrants:

$$\text{Strike(new)} = \text{Strike(old)} - (\text{RK(old)} + G) + (\text{RK(new)} - G)$$

whereby the terms used in the formula shall have the following meaning:

"**Strike(old)**" is the relevant Strike of the Warrants before adjustments according to this paragraph.

"**RK(old)**" corresponds to the Daily Settlement Price on the Rollover Date for the futures contract to be replaced.

"**RK(new)**" corresponds to the Daily Settlement Price on the Rollover Date for the new futures contract.

"**G**" corresponds to transaction fees incurred for the replacement of the futures contract which will be specified by the Issuer at its reasonable discretion. The transaction fees per unit of the Underlying will not exceed the Maximum Transaction Fee specified in Table 2 of the Annex of the Issue Specific Conditions.

The Knock-Out Barrier will be adjusted on the Roll Date pursuant to No. 2b (2) of the Issue Specific Conditions following the adjustment of the Strike.

No. 6 Adjustments

- (1) If the Underlying has been modified due to circumstances set out in the following paragraphs, the Issuer shall have the right to adjust the features of the Warrants (referred to in the following as "**Adjustments**").
- (2) If, during the term of the Warrants, changes are made to the concept on which the futures contract is based which are so fundamental that it is no longer comparable with the previous concept as determined by the Issuer in its reasonable discretion, or if trading in the futures contracts is permanently discontinued on the Relevant Exchange, the Issuer will determine a theoretical daily settlement price for each business day of the Relevant Exchange from the date when the changes occur onward. The price shall be determined on the basis of the method of calculation currently used to determine the theoretical contract value (fair value) of the futures contract. In the event that a theoretical daily settlement price is determined, it shall be deemed to be a daily settlement price within the meaning of these Terms and Conditions.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and

Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.

- (5) If the Issuer determines that the continued calculation of the value of the Underlying in accordance with paragraph (2) of this No. 6 is not possible or that, following a change in the Conditions or the tradability of the Underlying, it is not possible for other reasons to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions.
- (6) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) a material change to the method of price-setting or the trading conditions with respect to the Underlying on the Relevant Exchange.

A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

SECTION C – KEY INFORMATION ON THE SECURITIES

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time. A knock-out event may also occur in connection with a rollover.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant

currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risk in connection with futures contracts as the underlying

In general, there is a close correlation between the development of the price of an underlying on the cash market and on the corresponding futures market. Since the Securities are relating to the quoted price of the underlying futures contracts, knowledge of the method of operation of forward transactions and of the factors affecting their valuation is necessary to enable an accurate assessment to be made of the risks associated with the purchase of these Securities, in addition to knowledge about the market for the underlying on which the respective futures contract is based.

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and

subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(1) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**"). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykyä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykyä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä

vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintä on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvien osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalla kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushinta, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusajankohta erääntyy ennaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana. Knock-out-tapahtuma voi toteutua myös rullauksen yhteydessä.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaumus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushinta. Molemmissa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakauteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaumus kasvaa - muiden Warranttien arvoon vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiä

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatiliiteetin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Futuurisopimukseen liittyvä riski kohde-etuutena

Yleensä kohde-etuuden hintakehityksessä on läheinen korrelaatio käteismarkkinoiden ja vastaavien futuurimarkkinoiden välillä. Koska Arvopaperit liittyvät kohde-etuutena olevien futuurisopimusten noteerattuun hintaan, termiinkauppojen toimintatavan ja niiden arvonmäärittämiseen vaikuttavien tekijöiden tuntemus on välttämätöntä, jotta kyseisten Arvopapereiden ostamiseen liittyvät riskit voidaan arvioida tarkasti sen lisäksi, että tunnetaan kohde-etuuksien markkinat, joihin kyseinen futuurisopimus perustuu.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden ostoon, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i) , Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (siten, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (siten, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,46. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousveloitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom mättimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepappren

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepappren att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepappren?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfallodagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden. En knockout-händelse kan också inträffa i samband med en rollover.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten.

Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfalldagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäliga bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med terminskontrakt som underliggande tillgång

I allmänhet finns det ett nära samband mellan utvecklingen av priset på en underliggande tillgång på kontantmarknaden och motsvarande terminsmarknad. Eftersom Värdepapperen hänför sig till det noterade priset på underliggande terminskontrakt är det nödvändigt att känna till hur terminstransaktioner fungerar och vilka faktorer som påverkar deras värdering för att kunna göra en korrekt bedömning av riskerna i samband med köp av dessa Värdepapper, utöver kunskap om marknaden för den underliggande tillgången som respektive terminskontrakt baseras på.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b **Adjustment Amount**

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5
Underlying

- (1) The "**Underlying**" shall correspond to the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Observation**

Price" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days. **"Observation Hours"** shall be the Trading Hours. **"Trading Days"** shall be days on which the Underlying is normally traded on the Relevant Exchange. **"Trading Hours"** shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.

No. 6

Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the calculated value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants (referred to in the following as **"Adjustments"**), which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Knock-Out Barrier, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.

In the event of an extraordinary dividend on the shares of an entity formed or incorporated in the United States as specified in paragraph (2)(e) of this No. 6, any adjustment in respect of the extraordinary dividend will be calculated by the Issuer net of any withholding tax required to be withheld under Section 871(m) of the U.S. Internal Revenue Code.

- (2) An **"Adjustment Event"** shall be:
 - (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;
 - (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);

- (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The same applies in the case of securities representing shares as the Underlying in particular in the case of the amendment or addition of the terms of the securities representing shares by its issuer. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (5) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions. The same applies in the case of securities representing shares as the Underlying in particular in the case of insolvency of the custodian bank of the securities representing shares or at the end of the term of the securities representing shares due to a termination by the issuer of the securities representing shares.

- (6) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Risk of extraordinary termination due to a withholding or reporting obligation under Section 871(m)

There is a risk of an extraordinary termination of the Securities if at any time after the issuance of the Securities circumstances occur in which the Issuer becomes or is reasonably likely to become subject to any withholding or reporting obligations pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended and the Treasury regulations thereunder with respect to the Securities.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risks in connection with shares as the underlying

The development of the share price cannot be predicted and is determined by macroeconomic factors, e.g. the interest rate and price level on capital markets, currency developments, political circumstances, as well as company-specific factors. Significant corporate policy decisions may also have a significant negative impact on the share price. In particular, the issuer of a share could get into payment difficulties and insolvency or comparable proceedings could be opened against its assets. Shares of companies with a low to medium market capitalisation may be subject to higher risks than shares of larger companies. Additional risks exist in the case of shares in companies with a registered office or business activity in countries with little legal certainty.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(l) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 1.53. This includes EUR 0.10 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include

making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle

maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushintaa, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushintaa. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon

vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Riski kohdan 871 (m) mukaisesta pidätys- tai raportointivelvollisuuden aiheuttamasta poikkeuksellisesta irtisanomisesta

On olemassa riski liittyen Arvopapereiden poikkeukselliseen irtisanomisoikeuteen, mikäli milloin tahansa Arvopapereiden liikkeellelaskun jälkeen esiintyy olosuhteita, joissa Liikkeeseenlaskijaan kohdistuu tai kohtuullisen todennäköisesti kohdistuu pidätys- tai raportointivelvollisuuksia vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 871(m) ja sen muutosten ja Yhdysvaltain valtiovarainministeriön (Treasury) säännösten mukaisesti.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riskit osakkeista kohde-etuutena

Osakekurssin kehitystä ei voida ennustaa, ja sen määrittävät makrotaloudelliset tekijät, kuten esim. pääomamarkkinoiden

korkeus- ja hintataso, valuuttakehitys, poliittiset olosuhteet sekä yrityskohtaiset tekijät. Tärkeät yritysoliittiset päätökset voivat myös vaikuttaa erittäin negatiivisesti osakekurssiin. Erityisesti osakkeen liikkeellelaskija voi joutua maksuvaikeuksiin ja sen omaisuutta vastaan voidaan käynnistää maksukyvyttömyysmenettely tai vastaava. Alhaisen tai keskisuuren markkina-arvon omaavien yritysten osakkeisiin voi kohdistua suurempia riskejä kuin suurempien yritysten osakkeisiin. Lisäriskejä on sellaisten yritysten osakkeilla, joiden rekisteröity toimipaikka tai liiketoiminta on maissa, joiden oikeusvarmuus on alhainen.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (sitien, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (sitien, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 1,53. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta

ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande

tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Risk för extraordinär uppsägning med anledning av källskatt- eller redovisningsskyldighet avsnitt Section 871(m)

Det finns risk för extraordinär uppsägning av Värdepapperen om det vid någon tidpunkt efter emissionen av Värdepapperen uppstår omständigheter där Emittenten blir eller med stor sannolikhet kommer att bli skyldig att betala någon form av källskatt eller göra någon form av redovisning enligt avsnitt 871(m) i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 eller tillhörande Treasury-föreskrifter vad gäller de aktuella Värdepapperen.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med aktier som underliggande tillgång

Aktieprisets utveckling kan inte förutses och bestäms av makroekonomiska faktorer, till exempel räntesatsen och prisnivån på kapitalmarknaderna, valutans utveckling, politiska omständigheter samt företagsspecifika faktorer. Betydande företagspolitiska beslut kan också ha en betydande inverkan på aktiepriset. Emittenten av en aktie kan komma i betalningssvårigheter och insolvens eller liknande förfaranden kan inledas mot dess tillgångar. Aktier i företag med lågt till medelhögt börsvärde kan utsättas för högre risker än aktier i större företag. Ytterligare risker föreligger när det gäller aktier i bolag med säte eller verksamhet i länder med liten rättssäkerhet.

Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions"

Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

No. 2a Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. For the exercise of the Warrants to be effective, the holder of the respective Warrant must comply with the preconditions set out below with respect to the relevant Exercise Agent at the latest by 10:00 a.m. (local time at the location of the relevant Exercise Agent) on the Exercise Date. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5
Underlying

- (1) The "**Underlying**" shall correspond to the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Observation**

Price" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days. **"Observation Hours"** shall be the Trading Hours. **"Trading Days"** shall be days on which the Underlying is normally traded on the Relevant Exchange. **"Trading Hours"** shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.

No. 6

Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the calculated value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants (referred to in the following as **"Adjustments"**), which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Knock-Out Barrier, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.

In the event of an extraordinary dividend on the shares of an entity formed or incorporated in the United States as specified in paragraph (2)(e) of this No. 6, any adjustment in respect of the extraordinary dividend will be calculated by the Issuer net of any withholding tax required to be withheld under Section 871(m) of the U.S. Internal Revenue Code.

- (2) An **"Adjustment Event"** shall be:
 - (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;
 - (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);

- (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The same applies in the case of securities representing shares as the Underlying in particular in the case of the amendment or addition of the terms of the securities representing shares by its issuer. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (5) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions. The same applies in the case of securities representing shares as the Underlying in particular in the case of insolvency of the custodian bank of the securities representing shares or at the end of the term of the securities representing shares due to a termination by the issuer of the securities representing shares.

- (6) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Risk of extraordinary termination due to a withholding or reporting obligation under Section 871(m)

There is a risk of an extraordinary termination of the Securities if at any time after the issuance of the Securities circumstances occur in which the Issuer becomes or is reasonably likely to become subject to any withholding or reporting obligations pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended and the Treasury regulations thereunder with respect to the Securities.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risks in connection with shares as the underlying

The development of the share price cannot be predicted and is determined by macroeconomic factors, e.g. the interest rate and price level on capital markets, currency developments, political circumstances, as well as company-specific factors. Significant corporate policy decisions may also have a significant negative impact on the share price. In particular, the issuer of a share could get into payment difficulties and insolvency or comparable proceedings could be opened against its assets. Shares of companies with a low to medium market capitalisation may be subject to higher risks than shares of larger companies. Additional risks exist in the case of shares in companies with a registered office or business activity in countries with little legal certainty.

For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include

making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle

maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushintaa, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushintaa. Molemmissa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon

vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Riski kohdan 871 (m) mukaisesta pidätys- tai raportointivelvollisuuden aiheuttamasta poikkeuksellisesta irtisanomisesta

On olemassa riski liittyen Arvopapereiden poikkeukselliseen irtisanomisoikeuteen, mikäli milloin tahansa Arvopapereiden liikkeellelaskun jälkeen esiintyy olosuhteita, joissa Liikkeeseenlaskijaan kohdistuu tai kohtuullisen todennäköisesti kohdistuu pidätys- tai raportointivelvollisuuksia vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 871(m) ja sen muutosten ja Yhdysvaltain valtiovarainministeriön (Treasury) säännösten mukaisesti.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riskit osakkeista kohde-etuutena

Osakekurssin kehitystä ei voida ennustaa, ja sen määrittävät makrotaloudelliset tekijät, kuten esim. pääomamarkkinoiden

korkeus- ja hintataso, valuuttakehitys, poliittiset olosuhteet sekä yrityskohtaiset tekijät. Tärkeät yrityspoliittiset päätökset voivat myös vaikuttaa erittäin negatiivisesti osakekurssiin. Erityisesti osakkeen liikkeellelaskija voi joutua maksuvaikeuksiin ja sen omaisuutta vastaan voidaan käynnistää maksukyvyttömyysmenettely tai vastaava. Alhaisen tai keski-suuren markkina-arvon omaavien yritysten osakkeisiin voi kohdistua suurempia riskejä kuin suurempien yritysten osakkeisiin. Lisäriskejä on sellaisten yritysten osakkeilla, joiden rekisteröity toimipaikka tai liiketoiminta on maissa, joiden oikeusvarmuus on alhainen.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (sitien, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (sitien, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,56. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta

ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelsen är registrerad.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande

tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Risk för extraordinär uppsägning med anledning av källskatt- eller redovisningsskyldighet avsnitt Section 871(m)

Det finns risk för extraordinär uppsägning av Värdepapperen om det vid någon tidpunkt efter emissionen av Värdepapperen uppstår omständigheter där Emittenten blir eller med stor sannolikhet kommer att bli skyldig att betala någon form av källskatt eller göra någon form av redovisning enligt avsnitt 871(m) i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 eller tillhörande Treasury-föreskrifter vad gäller de aktuella Värdepapperen.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med aktier som underliggande tillgång

Aktieprisets utveckling kan inte förutses och bestäms av makroekonomiska faktorer, till exempel räntesatsen och prisnivån på kapitalmarknaderna, valutans utveckling, politiska omständigheter samt företagsspecifika faktorer. Betydande företagspolitiska beslut kan också ha en betydande inverkan på aktiepriset. Emittenten av en aktie kan komma i betalningssvårigheter och insolvens eller liknande förfaranden kan inledas mot dess tillgångar. Aktier i företag med lågt till medelhögt börsvärde kan utsättas för högre risker än aktier i större företag. Ytterligare risker föreligger när det gäller aktier i bolag med säte eller verksamhet i länder med liten rättssäkerhet.

Med en "**Investerares med en förmånsplan**" avses (a) en anställningsförmånsplan såsom definierad i ERISA § 3(3), som är föremål för Title I i ERISA, (b) en plan beskriven under § 4975 i Code, (c) varje bolag som anses inneha plantillgångar i form av sådan anställningsförmånsplan eller plan och "**liknande lag**" avser en lag som liknar bestämmelserna om förvaltaransvar eller förbjudna transaktioner i ERISA eller Section 4975 i Code eller (d) en anställningsförmånsplan eller plan som omfattas av liknande lag. Värdepapperen kan därmed aldrig erbjudas, säljas, pantsättas, återförsäljas, levereras eller på något annat sätt överföras med undantag för om detta sker genom (a) "offshore transactions"

(såsom definierade under Regulation S av Värdepapperslagen ("**Regulation S**") och (b) till personer som är både "Non-United States persons" (såsom enligt definitionen i CFTC-föreskrift 4.7(a)(1)(iv), kommissionens förordning 23.160 (Commission regulation 23.160) och CFTC:s Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 juli 2013), och (2) som inte är "U.S. Persons" (som dessa definieras enligt regel 902(k)(1) i Regulation S (personer som anses vara både (1) och (2) i det omedelbart föregående benämns nedan "**Tillåten Köpare**")). Om en Tillåten Köpare förvärvar Värdepapperen för annan persons räkning, denna person måste också vara en Tillåten Köpare. Värdepapperen utgör inte och har inte marknadsförts som försäljningskontrakt för råvara för framtida leverans (eller option för densamma) under CEA, och handel med Värdepapperen har inte godkänts av U.S. Commodity Futures Trading Commission enligt CEA.

Det initiala emissionspriset är EUR 0,56. Detta inkluderar EUR 0,10 kostnader som uppstått för Emittenten. Förvärvet av Värdepapperen medför inga ytterligare kostnader eller skatter som uppstått för Emittenten hänförliga till förvärvare eller tecknare. Om investeraren förvärvar Värdepapperen från en återförsäljare kan det förvärvspris som ska betalas av investeraren inkludera säljprovisioner vilket återförsäljaren måste lämna information om.

Varför upprättas detta prospekt?

Användning av intäkterna

Användningen av de medel som emissionen tillför syftar enbart till att göra vinst och/eller skydd mot vissa risker för Emittenten. Nettointäkterna från emissionen av Värdepapperen kommer att användas av Emittenten i dess allmänna affärsändamål.

Försäkring

Erbjudandet omfattas inte av en takeover-avtal med en fast takeover-skyldighet.

Mest väsentliga intressekonflikterna rörande erbjudandet eller upptagandet till handel

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.

Knock-Out

If the Observation Price of the Underlying (No. 5 (2) of the Issue Specific Conditions) expressed in the Reference Currency is equal to or falls below (Open End Turbo Bull Warrants) or is equal to or exceeds (Open End Turbo Bear Warrants) the Knock-Out Barrier (No. 2b (2) of the Issue Specific Conditions) of the Warrant (the "**Knock-Out Event**") during the Observation Period (No. 2 (3) of the Issue Specific Conditions) during the Observation Hours (No. 5 (2) of the Issue Specific Conditions) at any time (referred to in the following as the "**Knock-Out Time**"), the term of the Warrants shall end early at the Knock-Out Time.

In this event, the Cash Amount for each Warrant shall be equal to the Knock-Out Cash Amount (No. 2 (3) of the Issue Specific Conditions).

The Issuer will give notice without delay in accordance with No. 4 of the General Conditions that the Observation Price of the Underlying has reached or fallen below (Open End Turbo Bull Warrants) or reached or exceeded (Open End Turbo Bear Warrants) the Knock-Out Barrier.

No. 2b
Adjustment Amount

- (1) The respective "**Strike**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Strike shall be adjusted on each calendar day during a Financing Level Adjustment Period by the Adjustment Amount calculated by the Issuer for that relevant calendar day. The Adjustment Amount for the Warrants may vary. The "**Adjustment Amount**" of a series applying for each calendar day during the respective Financing Level Adjustment Period shall be equal to the result obtained by multiplying the Strike applying on the Adjustment Date falling in that Financing Level Adjustment Period by the Adjustment Rate applicable in that Financing Level Adjustment Period and converted to the amount for one calendar day using the actual/360 day count convention. The resulting Strike for each calendar day shall be rounded to at least four decimal places in accordance with standard commercial practice, but the calculation of the next following Strike in each case shall be based on the unrounded Strike for the preceding day. The calculations for the first Financing Level Adjustment Period shall be based on the Strike on the Issue Date. The relevant Strike for each calendar day shall be published on the Issuer's Website.
- (2) The respective "**Knock-Out Barrier**" of a series shall be equal on the Issue Date to the value specified in Table 1 of the Annex to the Issue Specific Conditions. Subsequently, the Knock-

Out Barrier shall be determined by the Issuer on each calendar day in such a way that it corresponds to the respective Strike adjusted in accordance with the preceding paragraph. The relevant Knock-Out Barrier for each calendar day shall be published on the Issuer's Website.

- (3) In the event of dividend payments or other cash distributions equivalent to dividend payments in respect of the Underlying (applicable in the case of shares as the Underlying) or in respect of the shares on which the Underlying is based (applicable in the case of stock indices as the Underlying), the Strike applying in each case and, where relevant, the Knock-Out Barrier shall be adjusted in accordance with No. 2 (3) of the Issue Specific Conditions (Adjustment due to Dividend Payments).

In the event of any Adjustment due to Dividend Payments in respect of a dividend on the shares of an entity formed or incorporated in the United States (a "**U.S. Dividend**"), the Issuer shall calculate an amount (the "**U.S. Dividend Withholding Amount**") that, together with the net dividend amount reflected in the adjustment, equals 100 per cent of the gross amount of such U.S. Dividend. At the time each such U.S. Dividend is paid, the U.S. Dividend Withholding Amount is deemed to be paid to the Warrant Holder in respect of the Warrants, whereas it shall actually be withheld by the Issuer and deposited with the United States Internal Revenue Service (the "**IRS**").

No. 3

Exercise of the Option Rights

- (1) The Warrants may be exercised by the Warrant Holder only with effect as of an Exercise Date in accordance with No. 2 (3) of the Issue Specific Conditions. The provisions of paragraphs (2) to (4) of this No. 3 shall also apply.

If the Option Rights are exercised via the Exercise Agent in **Finland**, the Warrant Holder must submit to Citigroup Global Markets Europe AG (the "**Exercise Agent**") at the following address:

Citigroup Global Markets Europe AG, Attn. Stockevents, Frankfurter Welle, Reuterweg
16, D-60323 Frankfurt am Main, Federal Republic of Germany

a properly completed "**Helsinki**" Exercise Notice for the respective ISIN (International Securities Identification Number) using the form available from the Issuer (referred to in the following as "**Exercise Notice**") and must have transferred the Warrants intended to be exercised

- to the Issuer crediting its account No. 0007567803 at OP Custody Ltd.

The Exercise Notice must specify:

- the ISIN (International Securities Identification Number) of the Warrant series and the number of Warrants intended to be exercised and
 - the account of the Warrant Holder with a bank in Finland into which the Cash Amount is to be paid. If the Exercise Notice does not specify an account or specifies an account outside Finland, a check for the Cash Amount will be sent to the Warrant Holder at his risk by normal post to the address given in the Exercise Notice within ten (10) Banking Days in Helsinki and Frankfurt am Main following the Valuation Date.
 - Confirmation must also be given that (1) the Warrant Holder is not a U.S. Person (as defined in Regulation S and under CFTC regulation 23.160, and the CFTC's "Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" as published by the CFTC on 26 July 2013 (78 Fed. Reg. 45292, the "**Interpretive Guidance**")), (2) he is not an Affiliate Conduit, based upon the relevant guidance in the Interpretive Guidance, including the Affiliate Conduit Factors as defined therein and (3) he is not, nor are any obligations owed by him, supported by any guarantee other than any guarantee provided by a person who does not fall within any of the U.S. Person Categories (as defined in the Interpretive Guidance) and who would not otherwise be deemed a "U.S. person" under the Interpretive Guidance.
- (2) The Exercise Notice shall become effective on the Exercise Date according to No. 2 (3) of the Issue Specific Conditions. The Exercise Notice may not be revoked, including during the period prior to the date on which it becomes effective. All of the preconditions set out in No. 3 (1) of the Issue Specific Conditions must be satisfied within fifteen (15) Banking Days of the occurrence of the first precondition. In any other circumstances, the Issuer shall have the right to return to the Warrant Holder any performance already made by the Warrant Holder without interest at the Warrant Holder's risk and expense; in this event the Exercise Notice shall not become effective.
- (3) All taxes or other levies that may be incurred in connection with the exercise of the Warrants shall be borne and be paid by the Warrant Holders.

The Issuer or the paying agent is entitled to withhold any taxes or other levies from the Cash Amount or other amounts payable to the holder that are to be paid by the Warrant Holder in accordance with the preceding sentence. The exercise or settlement amount shall be paid in the Settlement Currency without a requirement for the Issuer or the Exercise Agent to give notice of any kind.

- (4) The Issuer will transfer any Cash Amount to the Depository Agent on the Payment Date upon Exercise for the credit of the Warrant Holders registered with the Depository Agent at the close of business on the preceding Banking Day at the location of the Depository Agent. Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid. The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer.

No. 4
Termination

- (1) The Issuer shall have the right to terminate all of the Warrants of a series during their term with a notice period of 4 weeks by giving notice in accordance with No. 4 of the General Conditions with effect as of the Termination Date specified in the notice (the "**Termination Date**"). Termination in accordance with this No. 4 may not be affected earlier than 3 months after the Issue Date. Each termination notice issued pursuant to this No. 4 is irrevocable and must specify the Termination Date. The Termination shall become effective on the date specified in the announcement of the notice. For the purposes of calculating the Cash Amount in accordance with No. 2 of the Issue Specific Conditions, the date on which the Termination becomes effective shall be deemed to be the Valuation Date within the meaning of these Terms and Conditions.
- (2) In the event of Termination by the Issuer, No. 3 of the Issue Specific Conditions shall not apply. The Exercise Date within the meaning of No. 2 (3) of the Issue Specific Conditions shall in this case be the date on which the Termination becomes effective. The Payment Date shall be the Payment Date upon Termination in accordance with paragraph (3) of this No. 4.
- (3) In this event, the Issuer will transfer the Cash Amount for all of the Warrants affected by the Termination to the Depository Agent within ten (10) Banking Days at the registered office of the Issuer and at the location of the Depository Agent after the Termination Date for the credit of the Warrant Holders registered with the Depository Agent on the fifth day following the Termination Date (referred to in the following as "**Payment Date upon Termination**"). Upon the transfer of the Cash Amount to the Depository Agent, the Issuer shall be released from its payment obligations to the extent of the amount paid.

The Depository Agent has given an undertaking to the Issuer to make a corresponding onward transfer. In the event that the onward transfer is not possible within three months after the Payment Date upon Termination ("**Presentation Period**"), the Issuer shall be entitled to deposit the relevant amounts with the Frankfurt am Main Local Court for the Warrant Holders at their risk and expense with a waiver of its right to reclaim those amounts. Upon the deposit of the relevant amounts with the Court, the claims of the Warrant Holders against the Issuer shall expire.

Part B. Underlying Specific Conditions

No. 5
Underlying

- (1) The "**Underlying**" shall correspond to the share or security representing shares specified as the Underlying in Table 2 of the Annex to the Issue Specific Conditions of the Company specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Company**").
- (2) The "**Reference Price**" of the Underlying shall correspond to the price specified as the Reference Price of the Underlying in Table 1 of the Annex to the Issue Specific Conditions, as calculated and published on Trading Days on the Relevant Exchange specified in Table 2 of the Annex to the Issue Specific Conditions (the "**Relevant Exchange**"). The "**Observation**

Price" of the Underlying shall correspond to the prices for the Underlying calculated and published on an ongoing basis on the Relevant Exchange on Trading Days. **"Observation Hours"** shall be the Trading Hours. **"Trading Days"** shall be days on which the Underlying is normally traded on the Relevant Exchange. **"Trading Hours"** shall be hours during which the Underlying is normally traded on the Relevant Exchange on Trading Days.

No. 6

Adjustments

- (1) If an Adjustment Event pursuant to paragraph (2) of this No. 6 occurs, the Issuer shall determine whether the relevant Adjustment Event has a diluting, concentrative or other effect on the calculated value of the Underlying and, if such is the case, shall if necessary make a corresponding Adjustment to the affected features of the Warrants (referred to in the following as **"Adjustments"**), which in its reasonable discretion is appropriate in order to take account of the diluting, concentrative or other effect and to leave the Warrant Holders as far as possible in the same position in financial terms as they were in before the Adjustment Event took effect. The Adjustments may relate, *inter alia*, to the Strike, the Knock-Out Barrier, the Multiplier and other relevant features, as well as to the replacement of the Underlying by a basket of shares or other assets or, in the event of a merger, by an adjusted number of shares of the absorbing or newly formed company and, where relevant, the specification of a different exchange as the Relevant Exchange and/or a different currency as the Reference Currency. The Issuer may (but is not obliged to) base the determination of this appropriate Adjustment on the adjustment made in response to the relevant Adjustment Event by a futures exchange, on which options or futures contracts on the Underlying are traded at the time of the Adjustment Event, in respect of options or futures contracts on the relevant share traded on that futures exchange.

In the event of an extraordinary dividend on the shares of an entity formed or incorporated in the United States as specified in paragraph (2)(e) of this No. 6, any adjustment in respect of the extraordinary dividend will be calculated by the Issuer net of any withholding tax required to be withheld under Section 871(m) of the U.S. Internal Revenue Code.

- (2) An **"Adjustment Event"** shall be:
 - (a) the subdivision (stock split), combination (reverse stock split) or reclassification of the respective shares or the distribution of dividends in the form of bonus shares or stock dividends or a comparable issue;
 - (b) the increase in the capital of the Company by means of the issue of new shares in return for capital contributions, with the grant of a direct or indirect subscription right to its shareholders (capital increase for capital contributions);
 - (c) the increase of the capital of the Company from its own financial resources (capital increase from corporate funds);

- (d) the grant by the Company to its shareholders of the right to subscribe for bonds or other securities with option or conversion rights (issue of securities with option or conversion rights);
 - (e) the distribution of an extraordinary dividend;
 - (f) the spin-off of a division of the Company in such a way that a new, independent company is formed or the division is absorbed by a third company, with the grant to the shareholders of the Company of shares in either the new company or the absorbing company for no consideration;
 - (g) the permanent delisting of the Underlying on the Relevant Exchange as a result of a merger by absorption or new company formation or for another reason;
 - (h) other comparable events that could have a diluting, concentrative or other effect on the calculated value of the Underlying.
- (3) Changes in the method of calculating the Reference Price or other prices for the Underlying that are relevant in accordance with these Terms and Conditions, including a change in the Trading Days or Trading Hours relevant for the Underlying, shall entitle the Issuer to adjust the Option Right accordingly in its reasonable discretion. The same applies in the case of securities representing shares as the Underlying in particular in the case of the amendment or addition of the terms of the securities representing shares by its issuer. The Issuer shall determine the date on which the adjusted Option Right shall first apply, taking account of the date of the change.
- (4) In the event that the Underlying is permanently delisted on the Relevant Exchange but continues to be listed on another exchange or another market which the Issuer in its reasonable discretion considers to be suitable (the "**New Relevant Exchange**"), then, subject to extraordinary termination of the Warrants by the Issuer pursuant to No. 2 of the General Conditions, the Cash Amount shall be calculated on the basis of the corresponding prices for the Underlying calculated and published on the New Relevant Exchange. In addition, all references in these Terms and Conditions to the Relevant Exchange shall then be deemed, insofar as the context allows, to be references to the New Relevant Exchange.
- (5) In the event that a voluntary or compulsory liquidation, bankruptcy, insolvency, winding up, dissolution or comparable procedure affecting the Company is initiated, or in the event of a process as a result of which all of the shares in the Company or all or substantially all of the assets of the Company are nationalized or expropriated or required to be transferred in some other way to government bodies, authorities or institutions, or if following the occurrence of an event of another kind the Issuer reaches the conclusion that it is not possible to make an Adjustment that would reflect the changes that have occurred appropriately from a financial point of view, then the Issuer will terminate the Warrants pursuant to No. 2 of the General Conditions. The same applies in the case of securities representing shares as the Underlying in particular in the case of insolvency of the custodian bank of the securities representing shares or at the end of the term of the securities representing shares due to a termination by the issuer of the securities representing shares.

- (6) The rules described in the preceding paragraphs shall apply analogously to securities representing shares as the Underlying (such as ADRs, ADSs or GDRs).
- (7) The Issuer shall give notice of the Adjustments and the date on which the Adjustments become effective in accordance with No. 4 of the General Conditions.

No. 7

Market Disruption Events

- (1) If a Market Disruption Event in accordance with paragraph (2) of this No. 7 exists on the Valuation Date, then the Valuation Date shall be postponed to the next following day which fulfills the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and on which a Market Disruption Event no longer exists. The Issuer shall endeavor to give notice to the Warrant Holders without delay in accordance with No. 4 of the General Conditions that a Market Disruption Event has occurred. However, there shall be no obligation to give notice. If, as a result of the provisions of this paragraph, the Valuation Date has been postponed for five (5) consecutive days that fulfill the criteria for a Valuation Date in accordance with No. 2 (3) of the Issue Specific Conditions and if the Market Disruption Event continues to exist on that day as well, then that day shall be deemed to be the Valuation Date and the Issuer shall determine the Cash Amount in its reasonable discretion taking account of the market conditions prevailing on any such deemed Valuation Date.
- (2) "**Market Disruption Event**" shall mean
 - (i) the suspension or restriction of trading in the Underlying on the Relevant Exchange, or
 - (ii) the suspension or restriction of trading (including the lending market) in a futures or options contract relating to the Underlying on a Futures Exchange on which futures or options contracts relating to the Underlying are traded (the "**Futures Exchange**");

if that suspension or restriction occurs or exists in the last half-hour before the calculation of the closing price of the Underlying that would normally take place and is material as determined by the Issuer in its reasonable discretion. A change in the Trading Days or Trading Hours on or during which the Underlying is traded does not constitute a Market Disruption Event, provided that the change takes place as the result of a previously announced change in the trading regulations by the Relevant Exchange.

Offer method

The Warrants are being offered over-the-counter on a continuous basis in one series.

The offer of the Warrants in Finland begins on 19 November 2020.

The offer of the Warrants ends with expiration of the validity of the Base Prospectus on 29 September 2021, subject to an extension beyond this date by publication of a base prospectus which succeeds the Base Prospectus dated 29 September 2020. Furthermore, the Issuer may terminate the offer of the Warrants early by notice on the Issuer's website www.citifirst.com.

Listing and trading

Application has been made to include the Warrants to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19 November 2020.

It cannot be guaranteed that the listing will be permanently maintained even after the Warrants are listed. It is also possible that the listing on the stock exchange, on which the Warrants were initially listed, will be discontinued and a listing is requested on another stock exchange or in another segment. Such an amendment would be published on the website of the Issuer.

Consent to the use of the Prospectus

The Issuer consents to the use of the Prospectus by all financial intermediaries (general consent). The general consent to the subsequent resale and final placement of the securities by the financial intermediaries is given with respect to Finland.

The subsequent resale and final placement of the securities by financial intermediaries may take place during the period of validity of the Base Prospectus - subject to an early termination of the offer of the Warrants by the Issuer. An early termination of the offer shall, where appropriate, be effected by notice on the Issuer's website.

Issue price, price calculation and costs and taxes on purchase

The initial issue price is specified in Table 1 of the Annex to the Issue Specific Conditions.

No costs or taxes of any kind for the Security Holders will be deducted by the Issuer whether the Warrants are purchased off-market (in countries where this is permitted by law) or via a stock exchange. Such costs or taxes should be distinguished from the fees and costs charged to the

purchaser of the Warrants by his bank for executing the securities order, which are generally shown separately on the statement for the purchase transaction in addition to the price of the Warrants. The latter costs depend solely on the particular terms of business of the Warrant purchaser's bank. In the case of a purchase via a stock exchange, additional fees and expenses are also incurred. Furthermore, Security Holders are generally charged an individual fee in each case by their bank for managing the securities account. Notwithstanding the foregoing, profits arising from the Warrants or capital represented by the Warrants may be subject to taxation.

The initial issue price includes EUR 0.10 costs incurred by the Issuer.

What are the key risks that are specific to the Issuer?

Insolvency and solvency risk

The insolvency and solvency risk arises from, among other things, the risk that the Issuer will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral requirements, as well as the risk that the company is unable to obtain sufficient liquidity. The insolvency and solvency risk may also materialize if third parties which owe the Issuer money, securities or other assets will not perform their obligations. In addition, risk of losses may arise as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. In particular, the aforementioned risks may result in the Issuer being unable to meet its obligations arising from the securities, or being unable able to meet them in a timely manner or in full. If insolvency proceedings are opened against the Issuer, investors may even suffer a **total loss**.

Trading risks related to derivative securities issued by the Issuer

Based on risk models used by the Issuer, the Issuer enters into hedging transactions to hedge open positions from issued securities. Particularly noteworthy in this context are risk positions arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying. At best, the Issuer can to a large extent close out such risk positions, but it will be unable to close them out completely or enter into matching positions for all open positions. If a counterparty of the Issuer defaults, then there is a risk that hedging transactions cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default. The risks arising in connection with trading in derivative securities issued by the Issuer may have a material adverse effect on the Issuer's liquidity and financial position. This may have a significant impact on the value of the securities issued by the Issuer and may lead to a **total loss**.

Rights attached to the Securities

Open End Turbo Bull Warrants with knock-out enable investors to participate on a disproportionate (leveraged) basis in the positive performance of the underlying.

In return, however, they also participate on a leveraged basis in any negative performance of the underlying and in addition bear the risk that the Open End Turbo Bull Warrant with knock-out may expire worthless or almost worthless immediately (knock-out event) if the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours.

In the event of exercise by the investor or following termination by the Issuer, in each case on a valuation date, the cash or termination amount received by the investors on the maturity date is the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike and converted into the settlement currency.

If the observation price of the underlying reaches or falls below the knock-out barrier at any time during the observation period within the observation hours (knock-out time), the Open End Turbo Bull Warrant with knock-out expires either worthless or, if so provided in the Final Terms, almost worthless with a low knock-out cash amount.

Ranking of the Securities

The Securities create direct, unsecured and unsubordinated obligations of the Issuer that rank pari passu in relation to one another and in relation to all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of obligations that have priority due to mandatory statutory provisions.

Restrictions on the free transferability of the Securities

The Securities are transferable, subject to selling restrictions, in accordance with the laws applying in each case and, where relevant, the respective applicable regulations and procedures of the depository agent in whose records the transfer is registered.

Where will the Securities be traded?

Application has been made to include the Securities to trading on Nordic MTF, which is not a regulated market within the meaning of Directive 2004/39/EC starting from 19/11/2020.

What are the key risks that are specific to the Securities?

Risks associated with the purchase of Open End Turbo Bull Warrants

If exercised by the investor or terminated by the Issuer, investors receive on the maturity date as cash or termination amount the difference, multiplied by the multiplier, by which the reference price of the underlying determined on the valuation date is higher than the respective strike. If the reference price is equal to or lower than the strike, the Open End Turbo Bull Warrant expires worthless.

The term of the Warrants ends prematurely at the knock-out time and the option rights expire worthless if a knock-out event occurs. A knock-out event occurs if the relevant price of the underlying is equal to or falls below the knock-out barrier during the relevant barrier observation time.

If the price of the underlying is close to the knock-out barrier and if the expected price fluctuation margin of the underlying, which is calculated on the basis of current market prices, (the so-called "implied volatility") increases, the probability of a knock-out event occurring increases.

There is a risk that the unwinding of the Issuer's hedging positions could have a negative impact on the price of the underlying, thereby triggering a knock-out event.

The strike and the knock-out barrier of the Warrants are subject to ongoing adjustment. As a result of a daily adjustment of the strike and the knock-out barrier, the risk of a knock-out event occurring can increase significantly. Investors should be aware that a knock-out event can also occur solely as a result of an adjustment of the knock-out barrier.

If the underlying consists of shares or price indices, the Issuer will also calculate a dividend adjustment amount which is deducted from the strike and from the knock-out barrier on the dates on which dividends are paid. A knock-out event may occur solely as a result of a dividend adjustment made.

The Security Holder therefore bears the risk that a knock-out event occurs or that the reference price of the underlying on the relevant valuation date is at or below the strike of the Warrant. In both cases, the Warrant expires worthless and the Security Holder suffers a **total loss**.

Price risk associated with increasing implied volatility

If the price of the underlying is close to the knock-out barrier and the implied volatility rises - while all other factors affecting the value of the Warrants remain unchanged - then the price of the Warrant will fall, because there is an increased likelihood that the Warrant knocks out and expires worthless prematurely.

Specific price risk in connection with jumps in the price of the underlying

The risk of jumps in the price of the underlying, for example between the close of trading on the previous day and the start of trading on the following trading day, is known as gap risk. If the gap risk materializes and a knock-out event is triggered as a result, this leads to substantial price risks for the Issuer when adjusting its hedging transactions. The Issuer can usually hedge its exposure only for price movements of the underlying up to the respective knock-out barrier. If a jump in price goes beyond that point, the resulting loss is borne by the Issuer. The gap risks are usually estimated by the Issuer in advance and passed on to the purchasers of the Warrants through the price settings in the secondary market. Therefore, the Security Holders bear the gap risk indirectly.

Risk in connection with tradability

The risk exists that a knock-out event may also occur at times when the Warrants are not normally traded.

Investors' risk of loss also depends on the performance of the currency of the underlying

The risk of loss should the Warrants be exercised or expire or should the Warrants be sold during their term thus not only depends on the performance of the price of the underlying, but also to a large extent on the developments in the relevant currency markets. Negative developments in the relevant currency markets, i.e. an increase in the value of the settlement currency compared to the currency in which the underlying is expressed (reference currency), increase the risk of loss by reducing the value of the Warrants during their term or the level of any cash amount to be received upon exercise or expiration accordingly.

Risk due to extraordinary termination of the Securities

In the case of an extraordinary termination by the Issuer, the Security Holders are not entitled to payment of any amount to be calculated in accordance with the Terms and Conditions for the scheduled maturity on the basis of a redemption formula. In this case, the Issuer will determine the termination amount, if any, to be paid to the Security Holders at its reasonable discretion.

Risk of restrictions of the ability to sell the Securities due to market disruption events

Market disruption events may temporarily or permanently restrict the ability to sell the Securities, increase the cost of selling or introduce an additional price risk.

Risk of extraordinary termination due to a withholding or reporting obligation under Section 871(m)

There is a risk of an extraordinary termination of the Securities if at any time after the issuance of the Securities circumstances occur in which the Issuer becomes or is reasonably likely to become subject to any withholding or reporting obligations pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended and the Treasury regulations thereunder with respect to the Securities.

Market price risk

In particular, the following circumstances may affect the market price of the Securities. Individual market factors may also occur simultaneously and may be mutually reinforcing: changes in the value of the underlying (including changes in the implied volatility of the underlying), changes in the creditworthiness or credit assessment of the Issuer, or changes in the market interest rate.

Liquidity Risks

Security Holders bear the risk that there is no liquid market for trading the Securities on a stock exchange. This means that they cannot sell the Securities at a time desired by them.

The secondary market for the Securities may be limited or the Securities may have no liquidity which may adversely impact the value of the Securities or the ability of the investor to dispose of them.

Risks in connection with shares as the underlying

The development of the share price cannot be predicted and is determined by macroeconomic factors, e.g. the interest rate and price level on capital markets, currency developments, political circumstances, as well as company-specific factors. Significant corporate policy decisions may also have a significant negative impact on the share price. In particular, the issuer of a share could get into payment difficulties and insolvency or comparable proceedings could be opened against its assets. Shares of companies with a low to medium market capitalisation may be subject to higher risks than shares of larger companies. Additional risks exist in the case of shares in companies with a registered office or business activity in countries with little legal certainty.

SECTION D – KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

The Securities are being offered over-the-counter on a continuous basis in one series.

The offer of the Securities in Finland begins on 19/11/2020.

The Securities may be offered or sold only if all applicable securities laws and regulations in force in the jurisdiction in which a purchase, offer, sale or delivery of Securities is made or in which this document is circulated or kept for inspection have been complied with, and if all consents or authorizations required for the purchase, offer, sale or delivery of the Securities in accordance with the legal norms in force in that jurisdiction have been obtained.

In particular, the Securities may not be purchased or held by or transferred to a Benefit Plan Investor or plan subject to Similar Law unless its purchase or holding of the Securities will not (i), in the case of a Benefit Plan Investor, give rise to a nonexempt prohibited transaction under Section 406 of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") because such acquisition and holding satisfies the conditions for relief under an applicable prohibited transaction exemption or (ii), in the case of a plan subject to Similar Law, result in a violation of Similar Law. For the purposes hereof, "**Benefit Plan Investor**" shall mean (a) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to Title I of ERISA, (b) a plan described in and subject to Section 4975 of the Code, (c) any entity deemed to hold plan assets of such employee benefit plan or plan and "**Similar Law**" shall mean a law that is similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or Section 4975 of the Code or (d) an employee benefit plan or plan subject to Similar Law. The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, the Issuer has not been registered and will not be registered as an "investment company" under the U.S. Investment Company Act of 1940, as amended, in reliance on Section 3(c)(7) thereof and no person has registered nor will register as a commodity pool operator of the Issuer under the U.S. Commodity Exchange Act, as amended (the "**CEA**") and the rules of the U.S. Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"). Accordingly, the Securities may not be offered, sold, pledged, resold, delivered or otherwise transferred at any time except (a) in an "offshore transaction" (as such term is defined under Regulation S under the Securities Act ("**Regulation S**")) and (b) to persons that are both (1) "Non-United States persons" (as such term is defined under CFTC Rule 4.7(a)(1)(iv), under the Commission regulation 23.160 and the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (26 July 2013), and (2) not "U.S. Persons" (as such terms is defined under rule 902(k)(l) of Regulation S (any such person both (1) and (2) immediately above, a "**Permitted Purchaser**")). If a Permitted Purchaser acquiring the Securities is doing so for the account or benefit of another person, such other person must also be a Permitted Purchaser. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the CEA.

The initial issue price is EUR 0.35. This includes EUR 0.10 costs incurred by the Issuer. The purchase of the Securities entails no further costs or taxes that are incurred by the Issuer specifically for purchasers or subscribers. If the investor purchases the Securities from a distributor, the purchase price to be paid by the investor may include sales commissions that have to be disclosed by the distributor.

Why is this prospectus being produced?

Use of the proceeds

The use of the proceeds serves solely the purpose of making profits and/or hedging certain risks of the Issuer. The net proceeds from the issuance of Securities will be used by the Issuer for its general business purposes.

Underwriting

The offer is not subject to a takeover agreement with a fixed takeover obligation.

Most material conflicts of interest pertaining to the offer or the admission to trading

The Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**") and the companies of the Citigroup Group operate daily on the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions or business relations that may impact the price of the underlying or the constituents of the underlying and thus also the price of the Securities.

The Issuer and companies of the Citigroup Group may receive non-public information relating to the underlying or the constituents of the underlying, but are under no obligation to pass on such information to the security holders.

Within the context of market making, the Issuer as market maker determines the price of the Securities to a decisive extent. The prices set by the market maker will not always correspond to the prices that would have been formed in liquid stock exchange trading. This activity can lead to conflicts of interest since the responsibilities of the calculation agent include

making certain determinations and decisions which could have a negative effect on the price of the Securities or the level of the cash amount.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

Maksukyvyttömyys- ja vakavaraisuusriski

Maksukyvyttömyys- ja vakavaraisuusriski tarkoittaa muun muassa riskiä siitä, ettei Liikkeeseenlaskija kykene tehokkaasti vastaamaan sekä odotettuihin että odottamattomiin nykyisiin ja tuleviin kassavirtatarpeisiin ja vakuustarpeisiin sekä riskiä siitä, ettei yritys pysty järjestämään riittävästi likviditeettiä. Maksukyvyttömyys- ja vakavaraisuusriski voi myös toteutua, jos kolmannet osapuolet, jotka ovat Liikkeeseenlaskijalle velkaa rahaa, arvopapereita tai muuta omaisuutta, eivät täytä velvollisuuksiaan. Tappioriski voi myös aiheutua muutoksista valuuttakursseissa, koroissa, osakkeiden ja hyödykkeiden hinnoissa sekä tavaroiden ja johdannaisten hintavaihteluista. Edellä mainitut riskit voivat erityisesti johtaa siihen, että Liikkeeseenlaskija ei pysty suoriutumaan arvopapereihin liittyvistä velvoitteistaan tai se ei pysty suoriutumaan niistä oikea-aikaisesti tai kokonaan. Jos Liikkeeseenlaskijaa vastaan aloitetaan maksukyvyttömyysmenettely, sijoittaja voi jopa **menettää koko pääomansa**.

Liikkeeseenlaskijan liikkeeseen laskemien johdannaissopimusten myyntiriskit

Liikkeeseenlaskijan käyttämien riskimallien mukaisesti Liikkeeseenlaskija suorittaa suojaustoimia liikkeeseen laskettuihin arvopapereihin liittyvien avointen positioiden suojaamiseksi. Tässä yhteydessä on huomioitava erityisesti riskipositiot, jotka johtuvat kohde-etuuden epävakauden muutoksista ja ns. "gap-riskeistä" kohde-etuuden odottamattomien hinnanmuutosten seurauksena. Liikkeeseenlaskija voi parhaimmillaan pääosin sulkea kyseiset riskipositiot, mutta se ei voi sulkea niitä kokonaan tai sopia vastaavista positioista kaikille avoimille positioille. Jos Liikkeeseenlaskijan vastapuoli menettää maksukykynsä, on olemassa riski, että Liikkeeseenlaskijan suojaustoimia ei voida sulkea tai ne täytyy sulkea ja purkaa jälkikäteen, koska vastapuoli on menettänyt maksukykynsä. Liikkeeseenlaskijan liikkeelle laskemilla johdannaisarvopapereilla käytyyn kauppaan liittyvät riskit voivat oleellisesti heikentää Liikkeeseenlaskijan likviditeettiä ja taloudellista asemaa. Tällä voi olla merkittävä vaikutus Liikkeeseenlaskijan liikkeelle laskemien arvopapereiden arvoon, ja se voi johtaa **koko pääoman menettämiseen**.

Arvopapereihin liittyvät oikeudet

Open End Turbo Bull-warrantit, joihin liittyy knock-out-ominaisuus, antavat sijoittajalle mahdollisuuden saavuttaa (vivutetusti) epäsuhtaisen suurta hyötyä kohde-etuuden positiivisen arvonkehityksen johdosta.

Vastaavasti sijoittajat kuitenkin osallistuvat vivutetusti myös kohde-etuuden negatiiviseen arvonkehitykseen sekä kantavat lisäksi riskin siitä, että knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti voi erääntyä arvottomana tai lähes arvottomana välittömästi (ns. knock-out-tapahtuma), jos kohde-etuuden tarkasteluhinta saavuttaa knock-out-tason tai laskee sen alapuolelle milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa.

Jos jonakin arvostuspäivänä sijoittaja toteuttaa Warrantin tai Liikkeeseenlaskija päättää sen voimassaolon, sijoittajalle

maksetaan erääntymispäivänä käteissuoritus tai purkamisen yhteydessä maksettava summa, joka vastaa sitä erotusta, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivän viitehintaa on vastaavaa toteutushintaa korkeampi ja muunnettuna selvitysvaluutaksi.

Jos kohde-etuuden tarkasteluhinta saavuttaa tai alittaa knock-out-tason milloin tahansa tarkastelukauden aikana tarkastelutuntien kuluessa (knock-out-ajankohta), knock-out-ominaisuuden sisältävä Open End Turbo Bull-warrantti erääntyy joko arvottomana tai lähes arvottomana, jos Lopullisissa Ehdossa niin määrätään, jolloin siitä maksetaan alhainen knock-out-käteissuoritus.

Arvopapereiden etuoikeusjärjestys

Liikkeeseenlaskijalle Arvopapereista syntyvät velvoitteet ovat välittömiä, vakuudettomia ja ei-alisteisia, ja ne ovat maksunsaantijärjestyksessä samalla sijalla (pari passu) kuin kaikki muut Liikkeeseenlaskijan nykyiset ja tulevat vakuudettomat ja ei-alisteiset velvoitteet lukuun ottamatta velvoitteita, jotka ovat maksunsaantijärjestyksessä etusijaisia pakottavan lainsäädännön nojalla.

Arvopapereiden vapaata luovutettavuutta koskevat rajoitukset

Arvopaperit ovat siirrettävissä siihen sovellettavan myyntirajoitusten ja jokaiseen tapaukseen sovellettavan lain mukaisesti sekä soveltuvin osin sen säilytysasiamiehen säännösten ja menettelytapojen mukaisesti, jonka rekisteriin siirto merkitään.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita on haettu kaupankäynnin kohteeksi Nordic MTF arvopaperipörssiin, joka ei ole direktiivissä 2004/39/EY tarkoitettu säännelty markkina 19.11.2020 alkaen.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

Open End Turbo Bull-warranttien ostamiseen liittyvät riskit

Jos sijoittaja toteuttaa Warrantin tai liikkeeseenlaskija purkaa Warrantin, sijoittaja saa erääntymispäivänä käteissuorituksena tai purkamisen yhteydessä maksettavana summana sen erotuksen, soveltuvalle kertoimella kerrottuna, jonka verran kohde-etuuden arvostuspäivänä määritetty viitehintaa on vastaavaa toteutushintaa korkeampi. Jos viitehintaa on sama tai alhaisempi kuin toteutushintaa, Open End Turbo Bull-warrantti erääntyy arvottomana.

Warranttien toteutusaika erääntyy ennenaikaisesti knock-out-ajankohtana, ja optio-oikeudet erääntyvät arvottomina, jos knock-out-tapahtuma toteutuu. Knock-out-tapahtuma toteutuu, jos kohde-etuuden vastaava hinta on yhtä suuri tai alhaisempi kuin knock-out-taso vastaavan tason tarkasteluajankohtana.

Jos kohde-etuuden hinta on lähellä knock-out-tasoa, ja jos kohde-etuuden odotettu hintavaihtelumarginaali, joka lasketaan senhetkisten markkinahintojen perusteella, (ns. "implisiittinen epävakaus") kasvaa, myös knock-out-tapahtuman todennäköisyys kasvaa.

On mahdollista, että Liikkeeseenlaskijan toimenpiteet suojaavien positioiden purkamiseksi saattavat vaikuttaa negatiivisesti kohde-etuuden hintaan ja käynnistää siten myös knock-out tapahtuman.

Warranttien toteutushintaa ja knock-out-tasoa voidaan säätää jatkuvasti. Knock-out-tapahtuman toteutumisen riski voi kasvaa merkittävästi toteutushinnan ja knock-out-tason päivittäisen säätämisen seurauksena. Sijoittajien tulisi huomioida, että knock-out-tapahtuma voi toteutua myös ainoastaan knock-out-tason säätämisen seurauksena.

Jos kohde-etuus koostuu osakkeista tai hintaindekseistä, Liikkeeseenlaskija laskee myös osinkojen oikaisuun liittyvän summan, joka vähennetään toteutushinnasta ja knock-out-tasosta osinkojen maksupäivinä. Knock-out-tapahtuma voi toteutua myös ainoastaan osinkojen oikaisemisen seurauksena.

Tästä syystä Arvopaperin Haltija kantaa knock-out-tapahtumaan toteutumiseen liittyvän riskin ja riskin siitä, että kohde-etuuden vastaavana arvostuspäivänä määritetty viitehintaa on yhtä suuri tai alhaisempi kuin Warrantin toteutushintaa. Molemmassa tapauksissa Warrantti erääntyy arvottomana, ja Arvopaperin Haltija **menettää koko pääoman**.

Kasvaneeseen implisiittiseen epävakautteen liittyvä hintariski

Jos kohde-etuuden hinta on lähellä knock-out-tasoa ja implisiittinen epävakaus kasvaa - muiden Warranttien arvoon

vaikuttavien tekijöiden pysyessä muuttumattomina - Warrantin hinta laskee, koska todennäköisyys Warrantin knock-out-tapahtuman toteutumisesta kasvaa ja Warrantti erääntyy ennaikaisesti arvottomana.

Erityinen riski kohde-etuuden äkillisestä arvonmuutoksesta

Riski sellaisista kohde-etuuden äkillisistä arvonmuutoksista (esimerkiksi edellisen kaupankäyntipäivän päätöksen ja seuraavan kaupankäyntipäivän alkamisen välillä) tunnetaan gap-riskinä. Jos gap-riski toteutuu, ja knock-out-tapahtuma käynnistyy sen seurauksena, Liikkeeseenlaskijalle aiheutuu merkittäviä hintariskejä suojaustoimia säädettäessä. Liikkeeseenlaskija voi yleensä suojata vain kohde-etuuden hintaliikkeille altistumisen enintään vastaavaan knock-out-tasoon saakka. Jos äkilliset arvonmuutokset ylittävät tämän tason, tästä aiheutuva tappio kuuluu Liikkeeseenlaskijalle. Liikkeeseenlaskija arvioi gap-riskit yleensä etukäteen ja siirtää ne Warranttien ostajille jälkimarkkinoiden hinnoittelujen kautta. Siksi myös gap-riski kuuluu välillisesti Arvopaperin Haltijoille.

Vaihdettavuusriski

On olemassa riski siitä, että knock-out-tapahtuma ilmenee Warranttien tavanomaisten kaupankäyntiaikojen ulkopuolella.

Myös kohde-etuuden valuutan arvonkehitys vaikuttaa sijoittajien tappioriskiin

Warranttien toteuttamiseen tai erääntymiseen tai voimassaoloajan aikana tapahtuvaan myyntiin liittyvä tappioriski ei riipu ainoastaan kohde-etuuden hintakehityksestä, vaan siihen vaikuttaa olennaisesti myös asiaankuuluvien valuuttamarkkinoiden kehitys. Asiaankuuluvien valuuttamarkkinoiden negatiivinen kehitys, eli selvitysvaluutan arvonnousu verrattuna kohde-etuuden valuuttaan (viitevaluutta), lisää tappioriskiä, koska Warranttien arvo voimassaoloaikana tai toteuttamisen tai erääntymisen yhteydessä saatavan käteissuorituksen arvo vähenee vastaavasti.

Riski Arvopapereiden poikkeuksellisesta irtisanomisesta

Jos Liikkeeseenlaskija turvautuu poikkeukselliseen irtisanomiseen, Arvopaperin Haltijoilla ei ole oikeutta saada mitään erääntymistä koskevien Ehtojen mukaan laskettavia ja lunastuskaavaan perustuvia suorituksia. Tässä tapauksessa Liikkeeseenlaskija määrittää mahdollisen purkamisen yhteydessä maksettavan summan, joka maksetaan Arvopaperin Haltijoille Liikkeeseenlaskijan kohtuullisen harkinnan perusteella.

Riski markkinahäiriöiden aiheuttamasta Arvopapereiden myyntimahdollisuuksien rajoittumisesta

Markkinahäiriöt voivat väliaikaisesti tai pysyvästi rajoittaa Arvopapereiden myyntimahdollisuuksia, lisätä myyntikustannuksia tai aiheuttaa ylimääräisen hintariskin.

Riski kohdan 871 (m) mukaisesta pidätys- tai raportointivelvollisuuden aiheuttamasta poikkeuksellisesta irtisanomisesta

On olemassa riski liittyen Arvopapereiden poikkeukselliseen irtisanomisoikeuteen, mikäli milloin tahansa Arvopapereiden liikkeellelaskun jälkeen esiintyy olosuhteita, joissa Liikkeeseenlaskijaan kohdistuu tai kohtuullisen todennäköisesti kohdistuu pidätys- tai raportointivelvollisuuksia vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 871(m) ja sen muutosten ja Yhdysvaltain valtiovarainministeriön (Treasury) säännösten mukaisesti.

Markkinahintariski

Erityisesti seuraavat olosuhteet voivat vaikuttaa Arvopapereiden markkinahintaan. Yksittäiset markkinatekijät voivat myös ilmetä samanaikaisesti sekä vahvistaa toisiaan: kohde-etuuden arvonmuutokset (mukaan lukien kohde-etuuden implisiittisen volatilitietin muutokset), liikkeeseenlaskijan luottokelpoisuuden tai luottoluokituksen muutokset tai markkinoiden korkotasojen muutokset.

Likviditeettiriskit

Arvopapereiden Haltijat kantavat riskin siitä, että Arvopapereille ei ole pörssissä likvidejä vaihtomarkkinoita. Tämä tarkoittaa, että Arvopapereita ei voi myydä sijoittajan toivomana ajankohtana.

Arvopapereiden jälkimarkkinat voivat olla rajalliset tai Arvopaperit eivät ehkä ole likvidejä, mikä voi vaikuttaa haitallisesti Arvopapereiden arvoon tai sijoittajan mahdollisuuteen luopua niistä.

Riskit osakkeista kohde-etuutena

Osakekurssin kehitystä ei voida ennustaa, ja sen määrittävät makrotaloudelliset tekijät, kuten esim. pääomamarkkinoiden

korkeus- ja hintataso, valuuttakehitys, poliittiset olosuhteet sekä yrityskohtaiset tekijät. Tärkeät yrityspoliittiset päätökset voivat myös vaikuttaa erittäin negatiivisesti osakekurssiin. Erityisesti osakkeen liikkeellelaskija voi joutua maksuvaikeuksiin ja sen omaisuutta vastaan voidaan käynnistää maksukyvyttömyysmenettely tai vastaava. Alhaisen tai keskisuuren markkina-arvon omaavien yritysten osakkeisiin voi kohdistua suurempia riskejä kuin suurempien yritysten osakkeisiin. Lisäriskejä on sellaisten yritysten osakkeilla, joiden rekisteröity toimipaikka tai liiketoiminta on maissa, joiden oikeusvarmuus on alhainen.

JAKSO D – KESKEISET TIEDOT ARVOPAPEREIDEN YLEISÖLLE TARJOAMISESTA JA/TAI KAUPANKÄYNNIN KOHTEEKSI SÄÄNNELLYLLÄ MARKKINALLA OTTAMISESTA

Mitkä ovat arvopaperiin sijoittamisen edellytykset ja aikataulu?

Arvopapereita tarjotaan markkinapaikkojen ulkopuolella (over-the-counter) jatkuvasti yhdessä sarjassa.

Arvopapereiden tarjoaminen Suomessa alkaa 19.11.2020.

Arvopapereita saa tarjota ja/tai myydä ainoastaan, mikäli kaikkia Arvopapereiden osto-, tarjonta-, myynti- ja/tai toimitusvaltioissa ja/tai valtioissa, joissa tätä asiakirjaa jaellaan tai säilytetään tarkastusta varten, soveltuvia lakeja ja säännöksiä noudatetaan. Arvopapereiden tarjonta ja/tai myynti edellyttävät lisäksi, että kaikki Arvopapereiden oston, tarjoamiseen, myyntiin tai toimittamiseen vaadittavat luvat on saatu asianomaisen valtion oikeussääntöjen mukaisesti.

Erityisesti Arvopapereita ei saa hankkia tai pitää hallussaan tai siirtää Etuusjärjestelyn Sijoittajalle tai vastaavan lain alaiseen järjestelyyn, paitsi jos sen hankinta tai Arvopapereiden hallussapito ei aiheuta (i), Etuusjärjestelyn Sijoittajan tapauksessa, vuoden 1974 Yhdysvaltojen eläketulon turvaamista koskevan lain (U.S. Employee Retirement Income Security Act) korjatun painoksen ("**ERISA**") kohdan 406 tai vuoden 1986 Yhdysvaltain verolain (U.S. Internal Revenue Code) kohdan 4975 mukaisesti, muutoksineen, poikkeuksetta kiellettyä tapahtumaa, koska tällainen hankinta ja hallussapito täyttää vapautuksen ehdot sovellettavalle kielletyn tapahtuman poikkeukselle tai (ii), vastaavan lain alaisen järjestelyn tapauksessa johda vastaavan lain rikkomukseen. "**Etuusjärjestelyn Sijoittajalla**" tarkoitetaan tässä yhteydessä (a) ERISA:n osaston I alaista työntekijöiden etuusjärjestelyä (kuten määritelty ERISA:n kohdassa 3(3)), (b) Yhdysvaltojen verolain (Internal Revenue Code) kohdan 4975 mukaista ja kuvaamaa järjestelyä tai (c) mitä tahansa yksikköä, jonka katsotaan omistavan tällaisen työntekijöiden etuusjärjestelyn tai järjestelyn järjestelyvaroja ja "**Vastaava Laki**" tarkoittaa lakia, joka on samankaltainen ERISA:n tai Yhdysvaltain verolain kohdan 4975 varainhoitovastuun tai kiellettyjen tapahtumien säännösten kanssa tai (d) vastaavan lain alaista työntekijöiden etuusjärjestelyä tai järjestelyä. Arvopapereita ei ole rekisteröity eikä tulla rekisteröimään Yhdysvaltain vuoden 1933 arvopaperilain ("**Securities Act**") alaisuudessa, muutoksineen, tai millään arvopapereiden sääntelyviranomaisella missään osavaltiossa tai muulla Yhdysvaltojen oikeudenkäyttöalueella. Liikkeeseenlaskijaa ei ole rekisteröity eikä tulla rekisteröimään "sijoitusyhtiönä" Yhdysvaltain vuoden 1940 sijoitusyhtiölain (US Investment Company Act) alaisuudessa, muutoksineen, perustuen sen kohtaan 3(c)(7), eikä kukaan henkilö ole rekisteröinyt eikä rekisteröidy Liikkeeseenlaskijan hyödykepoolin hoitajana Yhdysvaltain Commodity Exchange Act -lain ("**CEA**") alaisuudessa, muutoksineen, ja sen alaisten U.S. Commodity Futures Trading -komission sääntöjen nojalla ("**CFTC-säännöt**"). Niinpä Arvopapereita ei saa tarjota, myydä, pantata, myydä edelleen, toimittaa tai muuten siirtää missään vaiheessa paitsi (a) "offshore-transaktion" (sitien, kuten käsite määritellään arvopaperilain asetuksen S ("**Regulation S**") mukaisesti) ja (b) henkilöille, jotka ovat sekä (1) "Ei-Yhdysvaltain henkilöitä" (sitien, kuten termi määritellään CFTC-säännössä 4.7(a)(1)(iv), komission asetuksessa 23.160 ja CFTC:n tulkintaohjeissa ja tiettyjen vaihtosopimussäännösten vastaavuutta koskevassa lausumassa (Interpretive Guidance und Policy Statement Regarding Compliance with Certain Swap Regulations), 78 Fed. Reg. 45292 (26. heinäkuuta 2013) ja (2) eivätkä ole "Yhdysvaltain henkilöitä" (kuten kyseiset termit on määritelty asetuksen S säännössä 902(k)(1), (kukin tällainen henkilö sekä (1) ja (2) mainittuna edellä, "**Sallittu Ostaja**"). Jos Arvopaperit hankkiva Sallittu Ostaja ostaa ne toisen henkilön puolesta tai eduksi, toisen henkilön on myös oltava Sallittu Ostaja. Arvopaperit eivät ole tulevaisuudessa toimitettavan hyödykkeen myyntisopimuksia (contracts of sale of a commodity for future delivery), (tai sellaisen optioita), eikä niitä ole markkinoitu sellaisina, joihin sovelletaan CEA:ta. Arvopapereiden kaupankäyntiä ei myöskään ole hyväksytty CEA:n alaisen U.S. Commodity Futures Trading -komission alaisuudessa.

Alkuperäinen liikkeeseenlaskuhinta on EUR 0,35. Tämä sisältää EUR 0,10 Liikkeeseenlaskijan veloittamia kustannuksia. Arvopapereiden ostamiseen ei liity sellaisia Liikkeeseenlaskijan ylimääräisiä kustannuksia tai veroja, jotka perittäisiin ostajilta

ja merkitsijöiltä. Jos sijoittaja ostaa Arvopapereita jakelijalta, sijoittajan maksama ostohinta saattaa sisältää palkkioita, jotka jakelijan tulee ilmoittaa.

Miksi tämä esite on laadittu?

Tuoton käyttäminen

Tuotto käytetään yksinomaan voiton tekemiseen ja/tai Liikkeeseenlaskijan riskeiltä suojautumiseen. Liikkeeseenlaskija käyttää Arvopapereiden liikkeeseenlaskusta saadun nettotuoton yleisiin liiketoimintaansa liittyviin tarkoituksiin.

Merkintätakaus

Liikkeeseenlaskun ei sovelleta kiinteän ostotarjousvelvoitteen sisältävää julkista ostotarjousta.

Tarjoamiseen tai kaupankäynnin kohteeksi ottamiseen liittyvät olennaisimmat eturistiriidat

Citigroup Inc. Group -konserniin kuuluva Liikkeeseenlaskija (Citigroup Inc. yhdessä konserniyhtiöineen "**Citigroup Group**" tai "**Citigroup**") ja Citigroup Group -konserniin kuuluvat yhtiöt toimivat päivittäin kansainvälisten ja saksalaisten arvopapereiden, valuuttakaupan, luottojohdannaisten ja hyödykemarkkinoiden parissa. Siksi ne voivat tehdä sellaisia liiketoimia ja harjoittaa sellaista liiketoimintaa, jotka voivat vaikuttaa kohde-etuuden tai kohde-etuuden osatekijöiden hintaan ja siten myös Arvopapereiden hintaan.

Liikkeeseenlaskija ja Citigroup Group -konsernin yhtiöt voivat saada kohde-etuuteen tai sen osatekijöihin liittyvää ei-julkista tietoa, mutta niillä ei ole velvollisuutta välittää tällaista tietoa Arvopaperin Haltijoille.

Liikkeeseenlaskija markkinatakaajana määrittää ratkaisevissa määrin Arvopapereiden hinnan markkinatakaustoiminnan osalta. Markkinatakaajan määrittämät hinnat eivät aina vastaa hintoja, jotka olisi voitu saavuttaa likvideillä pörssimarkkinoilla. Tämä toiminta saattaa johtaa eturistiriitatilanteisiin, sillä laskenta-asiamiehen tehtäviin kuuluu joidenkin sellaisten määritysten ja päätösten tekeminen, joilla voi olla negatiivinen vaikutus Arvopapereiden arvoon tai käteissuorituksen määrään.

Specifika nyckelrisker för emittenten

Insolvens- och solvensrisk

Insolvens- och solvensrisken uppstår bl.a. utav risken att företaget inte kommer att effektivt kunna uppfylla både förväntade och oväntade nuvarande och framtida krav på kassaflöde och säkerheter, samt risken att företaget inte kan erhålla tillräcklig likviditet. Insolvens- och solvensrisken kan också uppstå om tredje parter som är skyldiga Emittenten pengar, värdepapper eller andra tillgångar inte fullgör sina skyldigheter. Dessutom kan risken för förluster uppstå till följd av förändringar i valutakurser, räntesatser, aktie- och råvarupriser samt prisfluktuationer på varor och derivat. I synnerhet kan de ovannämnda riskerna leda till att Emittenten inte kan uppfylla sina skyldigheter som härrör från värdepapper eller inte kan uppfylla dem i tid eller i sin helhet. Om insolvensförfaranden inleds mot Emittenten, kan investerare till och med drabbas av en **total förlust**.

Handelsrisker relaterade till värdepappersderivat som emitterats av Emittenten

På grundval av de riskmodeller som Emittenten använder, ingår Emittenten säkringstransaktioner för att säkra öppna positioner från emitterade värdepapper. Särskilt anmärkningsvärt i detta sammanhang är riskpositioner till följd av förändringar i volatiliteten hos de underliggande tillgångarna och så kallade "gap-riskerna" till följd av oväntade uppgångar i priset på de underliggande tillgångarna. I bästa fall kan Emittenten till stor del stänga sådana riskpositioner, men Emittenten kommer inte att kunna stänga dem helt eller ingå matchande positioner för alla öppna positioner. Om Emittentens motpart inte fullgör sina skyldigheter, finns det en risk att säkringstransaktioner inte kan stängas eller måste stängas och avvecklas efteråt på grund av motpartens underlåtelse att fullgöra sina skyldigheter. De risker som uppkommer i samband med handel med derivatinstrument som emitterats av Emittenten kan ha en väsentlig negativ inverkan på Emittentens likviditet och finansiella ställning. Detta kan ha en betydande inverkan på värdet på de värdepapper som emitterats av Emittenten och kan leda till en **total förlust**.

Rättigheter som sammanhänger med värdepapperen

Open End Turbo Bull Warranter med knockout ger investerare möjlighet att delta i en positiv utveckling av den underliggande tillgången på en oproportionerlig basis (hävstångseffekt).

I gengäld innebär hävstångseffekten att de också deltar i en negativ utveckling på den underliggande tillgången på en hävstångsbasis och de bär dessutom risken för att Open End Turbo Bull Warranten med knockout omedelbart kan förfalla utan värde eller nästan utan värde (knockout-händelse) om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna.

Vid inlösen av investeraren eller efter Emittentens uppsägning, i båda fallen på en värderingsdag, är det kontantbelopp eller uppsägningsbelopp som investeraren erhåller på förfalldagen, skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris omräknat till avvecklingsvalutan.

Om mätpriset för den underliggande tillgången når eller understiger knockout-barriären vid någon tid under mätperioden inom måttimmarna (knockout-tidpunkt), förfaller Open End Turbo Bull Warranten med knockout antingen utan värde eller, om så föreskrivs i Slutliga Villkoren, nästan utan värde med ett lågt knockout kontantbelopp.

Rangordning av Värdepappren

Värdepappren skapar direkta, icke säkerställda och icke efterställda skyldigheter för Emittenten som rankas pari passu sinsemellan och gentemot samtliga övriga nuvarande och framtida icke säkerställda och icke efterställda skyldigheter för Emittenten, med undantag för skyldigheter som har prioritet på grund av tvingande lagstiftning.

Inskränkningar i rätten att fritt överlåta Värdepapperen

Värdepappren är överlåtbara, med förbehåll för försäljningsbegränsningar i enlighet med de lagar som gäller i varje enskilt fall och, där det är aktuellt, i enlighet med tillämpliga regler och rutiner hos depåombudet i vars register överlåtelserna är registrerade.

Var kommer Värdepapperen att handlas?

Ansökan har lämnats in för inkludering av Värdepappren till handel på Nordic MTF, vilken inte är en reglerad marknad i enlighet med definitionen i direktiv 2004/39/EG med start från och med 19.11.2020.

Vilka huvudsakliga risker är specifika för Värdepapperen?

Risker förknippade med förvärv av Open End Turbo Bull Warranter

Vid inlösen av investeraren eller efter uppsägning från Emittenten erhåller investerare på förfalldagen ett kontantbelopp eller uppsägningsbelopp skillnaden, multiplicerad med multiplikatorn, med vilken referenspriset på den underliggande tillgången fastställt på värderingsdagen överstiger respektive lösenpris. Om referenspriset motsvarar eller understiger lösenpriset, förfaller Open End Turbo Bull Warranterna utan värde.

Löptiden för Warranterna upphör i förtid vid knockout-tidpunkten ifall en knockout-händelse inträffar. En knockout-händelse inträffar då det relevanta priset på den underliggande tillgången motsvarar eller understiger knockout-barriären under den relevanta barriärobservationstiden.

Om priset för den underliggande tillgången är nära knockout-barriären och den förväntade prisförändringsmarginalen av den underliggande tillgången, vilket beräknas på basis av nuvarande marknadspriser, ökar (den så kallade "implicita volatiliteten"), ökar sannolikheten för att en knockout-händelse ska inträffa.

Det finns en risk att avvecklingen av Emittentens hedgingpositioner kan ha en negativ inverkan på priset på den underliggande

tillgången, varigenom en knockout-händelse utlöses.

Warranternas lösenpris och knockout-barriär är föremål för löpande justeringar. Som ett resultat av denna dagliga justering av lösenpriset och knockout-barriären, kan risken för att en knockout-händelse inträffar öka markant. Investerare bör vara medvetna om att en knockout-händelse också kan inträffa enbart som ett resultat av en justering av knockout-barriären.

Om den underliggande tillgången består av aktier eller prisindex ska Emittenten också beräkna utdelning justerat med belopp som är avdraget från lösenpriset och från knockout-barriären på de datum som utdelningen utbetalas. En knockout-händelse kan ske enbart som ett resultat av en justering av utdelningen.

Värdepappersinnehavaren bär därför risken att en knockout-händelse inträffar eller att referenspriset för den underliggande tillgången vid värderingstidpunkten motsvarar eller understiger lösenpriset. I båda fallen förfaller Warranterna utan värde och Värdepappersinnehavaren lider en **totalförlust**.

Prisrisk förknippad med ökad implicit volatilitet

Om priset på den underliggande tillgången är nära knockout-barriären och den implicita volatiliteten stiger – samtidigt som alla andra faktorer som påverkar värdet på Warranterna förblir oförändrade – kommer priset på Warranten att sjunka eftersom det är en ökad sannolikhet att Warranten slås ut och förfaller utan värde i förtid.

Särskild prisrisk i samband med prisuppgång i den underliggande tillgången

Risken för prisuppgång i den underliggande tillgången, till exempel mellan tidpunkten då handeln föregående dag stängt och tidpunkten då handeln följande handelsdag påbörjas, är en så kallad gap-risk. Ifall gap-risken materialiseras och en knockout-händelse inträffar som ett resultat därav, resulterar det i betydande prisrisker för Emittenten när denna justerar sina hedgingtransaktioner. Emittenten kan i regel bara justera sin riskexponering för pris som rör den underliggande tillgången upp till respektive knockout-barriär. Om en prisuppgång sträcker sig längre, bärs förlusten som är resultatet därav av Emittenten. Gap-riskerna beräknas vanligen av Emittenten i förväg och förpassas vidare till köpare av Warranter genom prissättningen på andrahandsmarknaden. Därför är det Värdepappersinnehavare som indirekt bär gap-risken.

Risk i samband med överlåtbarhet

Det finns en risk att en knockout händelse kan inträffa vid tidpunkter då Warranter vanligen inte handlas.

Investerares förlustrisk beror även på värdeutvecklingen för valutan för den underliggande tillgången

Förlustrisken om Warranterna skulle utnyttjas eller förfalla eller om Warranterna skulle säljas under deras löptid beror inte bara på prisutvecklingen för den underliggande tillgången utan också i stor utsträckning på utvecklingen på relevanta valutamarknader. Negativ utveckling på de relevanta valutamarknaderna, dvs. en värdeökning för avvecklingsvalutan i jämförelse med valutan i vilken den underliggande tillgången har (referensvaluta), ökar förlustrisken genom att minska värdet på Warranterna under deras löptid eller nivån på kontantbelopp som mottas i enlighet med utnyttjande eller utgång.

Risk med anledning av extraordinär uppsägning av Värdepapperen

Om extraordinär uppsägning tillämpas av Emittenten, har Värdepappersinnehavarna ingen rätt till ersättning till något belopp beräknat enligt villkoren för den planerade förfallodagen på basen av en inlösen-formel. I detta fall kommer Emittenten att fastställa uppsägningsbeloppet, om det finns något, som ska betalas till Värdepappersinnehavarna enligt dennes skäligen bedömning.

Risk för begränsningar av möjligheten att sälja Värdepapperen på grund av händelser som påverkar marknadens funktionssätt

Händelser som påverkar marknadens funktionssätt kan tillfälligt eller tills vidare begränsa möjligheten att sälja Värdepapperen, öka kostnaden för att sälja eller införa en ytterligare prisrisk.

Risk för extraordinär uppsägning med anledning av källskatt- eller redovisningsskyldighet avsnitt Section 871(m)

Det finns risk för extraordinär uppsägning av Värdepapperen om det vid någon tidpunkt efter emissionen av Värdepapperen uppstår omständigheter där Emittenten blir eller med stor sannolikhet kommer att bli skyldig att betala någon form av källskatt eller göra någon form av redovisning enligt avsnitt 871(m) i den amerikanska skattelagen U.S. Internal Revenue Code of 1986 eller tillhörande Treasury-föreskrifter vad gäller de aktuella Värdepapperen.

Marknadsprisrisk

I synnerhet kan följande faktorer påverka marknadspriset för Värdepapperen. Enskilda marknadsfaktorer kan även uppstå samtidigt och kan förstärka varandra: Förändringar i värdet på den underliggande tillgången (inklusive ändringar i den underförstådda volatiliteten hos den underliggande tillgången), förändringar i Emittentens kreditvärdighet eller kreditbedömning, eller förändringar i marknadsräntor.

Likviditetrisk

Värdepappersinnehavare bär risken för att det inte finns någon likvid marknad på börsen för att handla Värdepapperen. Detta innebär att de inte kan sälja sina Värdepapper vid den tidpunkt de önskar.

Andrahandsmarknaden för Värdepapperen kan vara begränsad och Värdepapperen kan sakna likviditet vilket kan påverka Värdepapperens värde negativt och investerarens möjligheter att avyttra dem.

Risk i samband med aktier som underliggande tillgång

Aktieprisets utveckling kan inte förutses och bestäms av makroekonomiska faktorer, till exempel räntesatsen och prisnivån på kapitalmarknaderna, valutans utveckling, politiska omständigheter samt företagsspecifika faktorer. Betydande företagspolitiska beslut kan också ha en betydande inverkan på aktiepriset. Emittenten av en aktie kan komma i betalningssvårigheter och insolvens eller liknande förfaranden kan inledas mot dess tillgångar. Aktier i företag med lågt till medelhögt börsvärde kan utsättas för högre risker än aktier i större företag. Ytterligare risker föreligger när det gäller aktier i bolag med säte eller verksamhet i länder med liten rättssäkerhet.

Emittenten, vilken tillhör Citigroup Inc. Group (Citigroup Inc. tillsammans med närstående bolag "**Citigroup-gruppen**" eller "**Citi-gruppen**") och andra bolag i Citigroup-gruppen är dagligen verksamma på internationella och tyska marknader för värdepapper, valutahandel, kreditderivat och råvaror. De kan därför komma att genomföra transaktioner eller ingå affärsrelationer som påverkar priset på den underliggande tillgången eller beståndsdelar av den underliggande tillgången som därigenom också priset på Värdepapperen.

Emittenten och bolagen i Citigroup-gruppen kan ta emot information som inte är offentliggjord som hänför sig till den underliggande tillgången eller beståndsdelarna av den underliggande tillgången, men det finns ingen skyldighet att vidarebefordra denna information till värdepappersinnehavare.

I det marknadsskapande sammanhanget, är det Emittenten i sin roll som marknadskapare som bedömer priset på Värdepapperen i viss utsträckning. Priserna satta av marknadsskaparen kommer inte alltid att överensstämma med priserna som skulle funnits på en likvid börshandel. Denna aktivitet kan leda till intressekonflikter eftersom beräkningsombudets ansvar inkluderar att fatta särskilda bedömningar och beslut vilka kan ha en negativ inverkan på priset på Värdepapperen eller omfattningen av kontanta medel.
