2. RATINGS

The Warrants to be issued have not been rated

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for any fees payable to the Dealers, so far as the Issuer is aware, no person involved in the issue of the Warrants has an interest material to the offer. The Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of Issuer of the Warrants (and as such will have to enter into hedging transactions), Calculation Agent of the Warrants and sponsor or adviser of the underlying index.

The possibility of conflicts of interest between the different roles of Societe Generale on one hand, and between those of Societe Generale in these roles and those of the Warranholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Societe Generale, conflicts may arise between the interests of Societe Generale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Warrants or possession of non-public information in relation with them) and those of the Warranholders. Finally, the activities of Societe Generale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Warranholders.

4. REASONS FOR THE OFFER AND USE OF PROCEEDS

- (i) **Use of proceeds:** Not applicable
- (ii) **Estimated net proceeds:** Not applicable
- (iii) **Estimated total expenses:** Not applicable

5. PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT

The value of the Warrants and the payment of a settlement amount to a Warranholder will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Warrants is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of an amount which depends on the performance of the underlying instrument.

The terms and conditions of the Warrants may include provisions which provide that upon the occurrence of certain market disruptions, delays in the settlement of the Warrants may occur or certain modifications to the terms and conditions of the Warrants may be made. Moreover, if events affecting the Underlying(s) occur, the terms and conditions of the Warrants may allow the Issuer to substitute the Underlying(s) by new underlying(s), cease the exposure to the Underlying(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants, postpone the expiration date of the Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantholders.

Payments on the Warrants are calculated by reference to the Underlying(s), the return of the Warrants is based on changes in the value of the Underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may lose all or a substantial portion of their investment.

During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital.

Furthermore, an insolvency of the Issuer may cause a total loss of the invested capital.

The value of the Warrants is affected by numerous factors, including changes in the value of the Underlying(s), time to expiration, interest and exchange rates, changes in dividend payments as well as levels of market volatility. These may have a net positive or negative impact on the value of the Warrants.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

-The investor bears the risk of total or partial loss of the amount invested at expiration of the Warrants on the maturity date or the event the Warrants is sold by the investor before that date.

- Although it is subject to market making agreement, the liquidity of the product may be affected by exceptional circumstances that make it difficult to sell the product or at a price that results in a total or partial loss of the amount invested.

- Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

- The possibility of an early settlement of the Warrants at the Issuer's discretion may limit their market value. Before or during each period during which the Warrants may be canceled early, their market value will not rise substantially above their settlement price.

The market value of the Warrants depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Warrants and thus to total or partial loss of the amount invested

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Warrants and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The way the Index sponsor applies the index rules relating to the calculation, and modification of the composition of the Index and the integration of the events affecting its components may affect the value of the index and therefore the value of the Warrants.

Investors are exposed to the risk of operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the index rules in force throughout the life of the Warrants.

The possibility of conflicts of interest between the different roles of Societe Generale on one hand, and between those of Societe Generale in these roles and those of the Warrantholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Societe Generale, conflicts may arise between the interests of Societe Generale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Warrants or possession of non-public information in relation with them) and those of the Warrantholders. Finally, the activities of Societe Generale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Warrantholders.

VILKA NYCKELRISKER ÄR SPECIFIKA FÖR VÄRDEPAPPEREN?

-Investeraren bär risken för total eller partiell förlust av det belopp som investerats vid inlösen av Warranterna på förfallodagen eller i händelse av att Warranterna säljs av investeraren före det datumet.

-Trots att den är föremål för ett avtal med en marknadsgarant, kan produktens likviditet påverkas av exceptionella omständigheter som gör det svårt att sälja produkten eller till en kurs som resulterar i hel eller delvis förlust av det investerade beloppet.

-Produktens likviditet kan påverkas negativt av vissa exceptionella omständigheter. Investerare kanske inte enkelt kan sälja produkten eller måste sälja den till en kurs som resulterar i hel eller delvis förlust av det investerade beloppet.

-Emittentens möjlighet att utnyttja förtida inlösen av Warranterna kan påverka deras marknadsvärde. Före eller under vardera period under vilka Warranterna kan lösas in i förtid, kommer deras marknadsvärde inte stiga påtagligt över deras inlösenkurs.

Marknadsvärdet för Warranterna beror på utvecklingen av marknadsparametrar vid tidpunkten för avslut (kursnivån på de(n) Underliggande, räntesatser, volatilitet och kredit-spreadar) och kan därför resultera i en risk för en hel eller delvis förlust av det initialt investerade beloppet.

Händelser orelaterade till den Underliggande (t.ex. lagändringar, inklusive skatterättslig reglering, force majeure, antal värdepapper i cirkulation) kan leda till förtida inlösen av Warranterna och därmed till en hel eller delvis förlust av det investerade beloppet.

Händelser som påverkar de(n) Underliggande eller hedgetransaktioner kan leda till justeringar, de-indexering, utbyte av de(n) Underliggande, eller förtida inlösen av Warranterna och som följd till förlust av investerade belopp, inklusive i händelse av kapitalskydd.

Om valutan för investerarens huvudsakliga aktiviteter skiljer sig från produktens valuta, är investeraren exponerad för valutarisk, särskilt i händelse av valutakontroller, vilket kan minska det investerade beloppet.

Sättet på vilket Indexsponsorn tillämpar indexreglerna avseende beräkningen, och förändringar i sammansättningen av Indexet och integrationen av händelser som påverkar dess komponenter kan påverka värdet på indexet och därmed värdet på Warranterna.

Investerare är exponerade mot risken för Indexsponsorns operationella kapacitet och expertis för att säkerställa beräkningen och underhållet av indexet i enlighet med de tillämpliga indexreglerna över Warranternas livsspann.

Förväntade nettointäkter: Ej tillämpligt

Fast åtagande att placera värdepapper: Det finns ett teckningsgarantiavtal med fast åtagande med SG Option Europé.

Betydande intressen för individuella och fysiska personer i emissionen/erbjudandet: Med förbehåll för eventuella avgifter som ska betalas till Återförsäljare, såvitt Emittenten känner till, har ingen person som är inblandad i emissionen av Warranterna ett betydande intresse i erbjudandet. Återförsäljarna och dess dotterföretag har engagerat och kan i framtiden bedriva investeringsbanker och / eller kommersiella banktransaktioner med och kan utföra andra tjänster för Emittenten och dess dotterföretag i den ordinarie verksamheten.

Société Générale kommer att tillförsäkra rollerna som Emittent av Warranterna (och kommer som sådan vara tvungen att ingå hedgetransaktioner), Beräkningsagent för Warranterna.

Möjligheten till intressekonflikter mellan de olika rollerna för Societe Generale å ena sidan och mellan de för Societe Generale i dessa roller och de för Warrantinnehavarna å andra sidan kan inte uteslutas.

Vidare kan det med tanke på Societe Generales bankverksamhet dessutom uppstå konflikter mellan intressen för Societe Generale som agerar i dessa avseenden (inklusive affärsförhållanden med emittenterna av de finansiella instrumenten som är underliggande i Warranterna eller innehav av icke offentlig information i samband med dem) och Warrantinnehavarna. Slutligen kan aktiviteterna hos Societe Generale på det eller de underliggande finansiella instrumenten, på dess egna konto eller för sina kunders räkning, eller etablering av hedgetransaktioner, också påverka priset på dessa instrument och deras likviditet, och sålunda kan vara i konflikt med Warrantinnehavarnas intressen.
